Hon. Alan R. Lambert
Mayor, City of Romulus
11111 Wayne Road
Romulus, MI 48174

Dear Mayor Lambert,

Attached, in response to your request, is a compilation of technical data and information related to the Detroit Metropolitan Wayne County Airport Master Plan. This information has been organized in two binders, one is the draft Technical Report and the other is the draft Technical Appendix. These documents are still in draft form, and our standing offer to have our planning consultant review this information with you and your staff remains open. With regard to your staff's specific areas of interest, I call to your attention the following:

- Data and supporting analyses for the draft Technical Report are included in the draft Technical Report as well as the draft Technical Appendix.
- Information related to aviation forecasts is included in Chapter 3 of the draft Technical Report.
- Historical data related to passenger and cargo operations is included in Chapter 3 of the draft Technical Report.
- Data related to existing facilities and capacities for current and projected demand is included in Chapter 4 of the draft Technical Report.
- Data related to current and projected airfield capacity and projected requirements for runways, navigational aids and support facilities is included in Chapter 4 of the draft Technical Report.

Also, included for your information is a working copy of an existing future airport layout plan. The new airport layout plan will be developed in the future by our consultant using the Preferred Development Plan as the basis.

I trust the attached information provides the information you have requested. Again, as we have offered on several occasions, our planning team can meet with you to review the technical data. Please let me know when you are available, so I can arrange this meeting. I can be reached at (734) 247-7371 or you can email me at wayne.sieloff@wcaa.us.

Sincerely,

A handwritten signature in black ink, appearing to read "Wayne G. Sieloff".

Wayne G. Sieloff AIA, NCARB
Director – Planning, Design and Construction Division
