

MASTER PLAN OBJECTIVES

1. Ensure safety and compliance with regulations
2. Establish a long-term strategy while maintaining competitive costs
3. Enhance the Airport's operation and facilities
4. Address known deficiencies with regard to certain facilities
5. Ensure high levels of service
6. Position the Airport and region to capitalize on future opportunities
7. Provide flexibility to adapt to changing circumstances

PUBLIC COMMENT

The Wayne County Airport Authority encourages you to provide comments and suggestions regarding the Airport Master Plan Update.

There are several ways for you to provide comments:

1. Complete the comment form and deposit into comment boxes provided
2. Comments can be mailed to the following address:
LeighFisher
Attn: DTW Airport Master Plan
555 Airport Boulevard, Suite 300
Burlingame, CA 94010
3. Submit comments on the project's website at:
www.detroitmetroairportmasterplan.org

DETROIT METRO • WILLOW RUN
WAYNE COUNTY AIRPORT AUTHORITY

Detroit Metropolitan Airport Master Plan Update

PUBLIC INFORMATION MEETING

**April 28, 2016
5:00 - 7:30 p.m.**

Wayne County
Community College District
Downriver Campus

INFORMATION STATIONS

ABOUT THE MASTER PLAN

WELCOME

Please sign in and obtain handouts

STATION

1

AIRPORT MASTER PLAN UPDATE

Provides background information on Detroit Metropolitan Airport and the master planning process

STATION

2

KEY FINDINGS

Presents information on aviation demand projections, the impact of those projections on major infrastructure needs (e.g., no new runway is needed), and the positive impact of the Airport on the community

STATION

3

WHAT DO YOU WANT FROM YOUR AIRPORT?

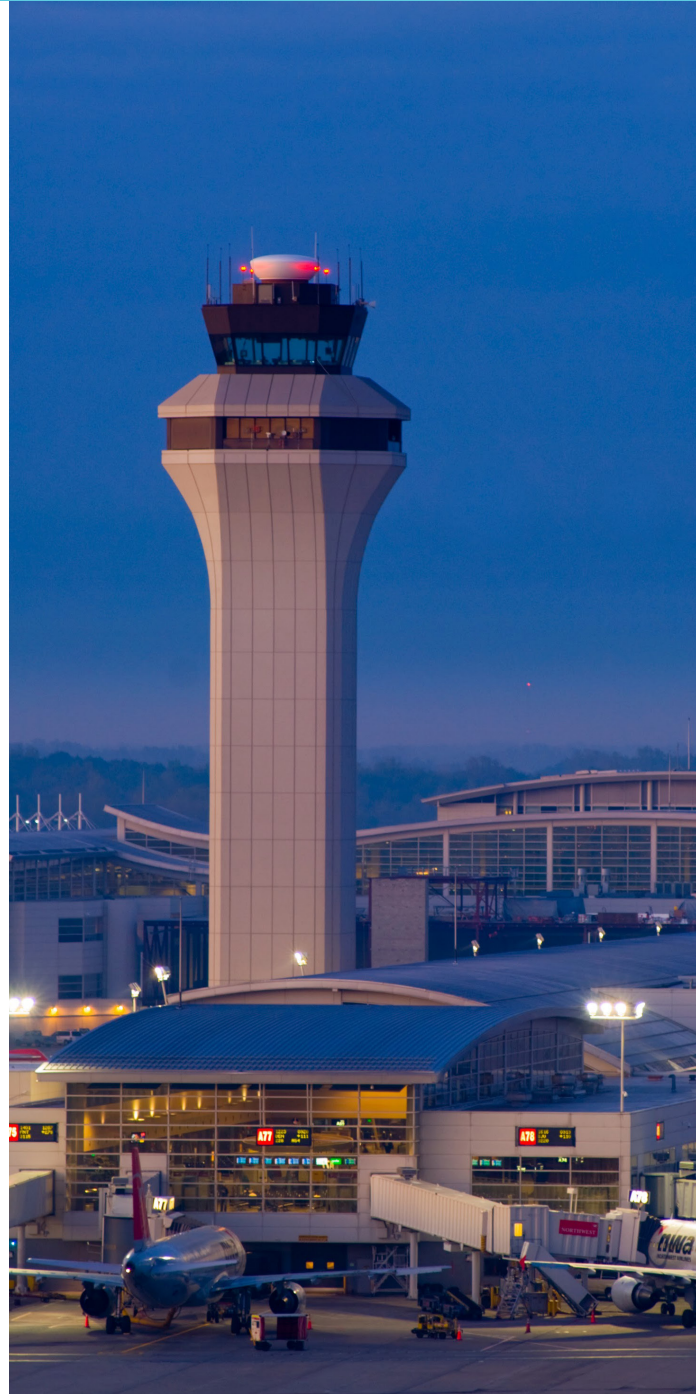

Presents information on how the Airport has changed to better serve the community and asks for your input on what you'd like to see different

STATION

4

HOW TO FOLLOW US

Identifies ways to provide input to the planning process

An **airport master plan** is a document that represents the long-term (20-year period) development goals of an airport and is typically reviewed and updated every 5 to 10 years.

An airport master plan provides the following:

- A narrative of the planning process (master plan document)
- A graphic representation of future airport facilities (airport layout plan)
- An implementation plan that satisfies local, state, and federal regulations.
