# April 25, 2023

To the Wayne County Airport Authority Board:

The Annual Comprehensive Financial Report (ACFR) of the Wayne County Airport Authority (the Authority) as of and for the year ended December 31, 2022 is submitted herewith. Responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the Authority. To the best of our knowledge and belief, this report fairly presents and fully discloses the Authority's financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America (GAAP). It includes disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities included within the ACFR. The report of the independent auditors on the financial statements is included on pages 1 - 3 of the ACFR.

The ACFR was prepared following the guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). The GFOA awards Certificates of Achievement to those governments whose annual financial reports are judged to conform substantially to the high standards of public financial reporting, including GAAP promulgated by the Governmental Accounting Standards Board (GASB).

The management of the Authority is responsible for establishing and maintaining an internal control structure that is designed to ensure that the assets of the Authority are safeguarded. In addition, as a recipient of federal financial assistance, the Authority is responsible to make certain that an adequate internal control structure is in place to ensure compliance with general and specific laws and regulations related to the Airport Improvement Program and the Aviation Safety and Capacity Expansion Act.

The objectives of an internal control structure are to provide management with reasonable assurance that the resources are safeguarded against waste, loss and misuse and reliable data are recorded, maintained, and fairly disclosed in reports. The current internal controls provide the Authority with a solid base of reliable financial records from which the financial statements are prepared. These accounting controls ensure that accounting data are reliable and available to facilitate the preparation of financial statements on a timely basis. Inherent limitations should be recognized in considering the potential effectiveness of any system of internal control. The concept of reasonable assurance is based on the recognition that the cost of a system of internal control should not exceed the benefits derived and that the evaluation of those factors requires estimates and judgment by management.

State laws require an annual audit of the financial records and transactions of the Authority by a firm of independent licensed certified public accountants. The Board appoints an Audit Committee of three Board members to ensure compliance with this requirement. The Audit Committee is to meet at least four times each year with the Chief Executive Officer, the Chief Financial Officer (who is appointed by the Chief Executive Officer) and the Authority's independent public auditors to review the financial condition, operations, performance and management of the Authority. In addition, the Chief Executive Officer appoints an Internal Auditor to evaluate the Authority's internal accounting and administrative control system and conduct audits relating to the Authority's financial activities.

The Authority's financial statements for the year ended December 31, 2022 have received an "unmodified opinion" from Plante & Moran, PLLC, the Authority's independent certified public accountants. An unmodified opinion is the best opinion that an organization can receive on its financial statements. It indicates that the auditor's examination has disclosed no conditions that cause them to believe that the financial statements are not fairly stated in all material respects.

An independent audit was also performed by Plante & Moran, PLLC, in accordance with the requirements of the Uniform Grant Guidance (2 CFR Part 200), i.e., Single Audit. The auditor's reports related specifically to the Single Audit are immediately following the ACFR in the Compliance Section.

A third audit was performed by Plante & Moran, PLLC, as required under Federal Aviation Regulation, Part 158 (Passenger Facility Charges). The auditor's reports related to the Schedule of Passenger Facility Charges are immediately following the ACFR in the Compliance Section.

This ACFR was prepared to meet the needs of a broad spectrum of financial statement readers and is divided into the following major sections:

**Introductory Section** – In addition to serving as a transmittal letter, this section provides the reader an introduction to the ACFR and the Authority. The introductory section includes background information on the reporting entity, its operations and services, accounting systems and budgetary controls, overview of the local economic conditions, its long-term financial planning and certain other pertinent information. It is complementary to financial and analytical data offered in the Management Discussion and Analysis (MD&A) and the Statistical Section of the ACFR discussed below.

**Financial Section** – The independent auditor's report, MD&A, financial statements, notes to the financial statements and required supplementary information are included here. These are the Authority's basic financial statements and provide an overview of the Authority's financial position. The MD&A immediately follows the independent auditor's report and complements this letter of transmittal and should be read in conjunction with it.

**Statistical Section** – The supplementary information presented in this section is designed to provide additional historical perspective, context and detail to assist a reader to understand and assess the Authority's economic condition beyond what is provided in the financial statements and notes to the financial statements. The information contained in this section is prepared by the Authority and is not part of the independent auditor's report.

**Continuing Disclosure Section** – The continuing disclosure schedules reflect information in accordance with the requirements of Rule 15c2-12 promulgated by the Securities and Exchange Commission and as set forth in the Continuing Disclosure Undertaking for issued debt. The information contained in this section is prepared by the Authority and is not part of the independent auditor's report.

**Compliance Section** – This section presents schedules and footnotes prepared to meet the requirements of the U.S. Office of Management and Budget 2 CFR Part 200 as well as Federal Aviation Administration requirements applicable to The Passenger Facility Charge Program and in accordance with 14 CFR Part 158.

# **REPORTING ENTITY BACKGROUND**

The Authority is an independent public benefit agency and considered an agency of the Charter County of Wayne, Michigan (the County), which owns the Detroit Metropolitan Wayne County Airport (DTW) and Willow Run Airport (YIP), (collectively, the "Airports"). Until August 9, 2002, the County operated the Airports. Pursuant to an amendment to the Aeronautics Code of the State of Michigan, known as the Public Airport Authority Act (the Authority Act), Public Act 90, Michigan Public Acts of 2002, effective March 26, 2002, the Authority has operational jurisdiction of the Airports, with the exclusive right, responsibility and authority to occupy, operate, control and use the Airports and the Airport Hotel.

Pursuant to the Authority Act, the Authority is liable for all of the obligations with respect to the Airports and the Airport Hotel.

The Authority is directed and governed by a Board consisting of seven members. The governor of the State appoints two members of the Board; one member is appointed by the legislative body of the County and four members of the Board are appointed by the Chief Executive Officer of the County. The Board appoints the Chief Executive Officer of the Authority.

# AUTHORITY OPERATIONS AND SERVICES

The Authority is self-supporting, using aircraft landing fees, fees from terminal and other rentals and revenue from parking, concessions and various additional sources to fund operating expenses. The Authority is not taxpayer-funded. The Capital Improvement Program is funded by bonds issued by the Authority, federal and state grants, passenger facility charges (PFCs) and other discretionary funds.

# Airline Use and Lease Agreement

*Leases.* Revenues received by the Authority in accordance with the Master Airport Revenue Bond Ordinance (Master Bond Ordinance) are derived from rentals, fees and charges imposed upon airlines operating at the Airport under Airline Use and Lease Agreements relating to their use of the Airport. The following airlines are parties to such agreements: Air France, American Airlines, Delta Air Lines, FedEx, JetBlue Airways, Lufthansa German Airlines, Southwest Airlines, Spirit Airlines, United Airlines and United Parcel Service (collectively, the "Signatory Airlines").

Activity Fees. Under the Airline Use and Lease Agreements, the Signatory Airlines also are obligated to pay activity fees, which are calculated on an Airport residual basis (Activity Fees). Essentially, the Activity Fee calculation for each Operating Year is based on all airport revenue bond Debt Service (net of Debt Service)

paid by PFCs and federal grant funds) and all Operation and Maintenance (O&M) Expenses for such Operating Year <u>minus</u> all non-airline revenue for such Operating Year, all airline rental payments for such Operating Year, all international facility use fees for such Operating Year and all payments for use of the Authority-controlled airline space, if any, in each terminal for such Operating Year.

Amendment to End of Year True-Up of Fees and Charges. In order to enable the Authority to issue airport revenue bonds for airfield-related capital projects without the bonds being subject to the federal alternative minimum tax, in 2012 all of the Signatory Airlines agreed to an amendment of the Airline Use and Lease Agreements that revised the end of year true-up provision so that the amount to be refunded/charged would include the Signatory and Non-Signatory Airlines. Prior to 2012, Non-Signatory Airlines did not participate in year-end refunds/charges.

*Weighted Majority Approval.* The Airline Use and Lease Agreements provide that a Weighted Majority of the Signatory Airlines can approve additional capital projects for which airport revenue bonds may be issued to pay the costs. A Weighted Majority is defined as either Signatory Airlines which, in the aggregate, landed eighty-five percent (85%) or more of the landed weight of all Signatory Airlines for the preceding 12-month period for which records are available or all but one of the Signatory Airlines regardless of landed weight.

Passenger Facility Charges. The Authority is obligated under the Airline Use and Lease Agreements to use PFCs to pay Debt Service on airport revenue bonds issued to pay the costs of certain PFC-eligible projects at the Airport. These projects include the construction of both the McNamara Terminal and the Evans Terminal. The Airline Use and Lease Agreements also set forth a required priority for the application of PFCs to pay Debt Service in the event there is insufficient PFC revenue available in any Operating Year to pay all PFC-eligible debt service.

# The Airline Industry

While the airline industry was acutely impacted in recent years by the impacts of COVID-19, the industry has recovered significantly. In the U.S., passenger traffic for January and February 2023 was higher than during the same period in 2019. International recovery is lagging that of the U.S., but passenger traffic versus 2019 hit a new high in December 2022. Overall, The International Air Transport Association (IATA) expects industry-wide passenger traffic to recover to 2019 levels in 2024.

With expectations for a continued recovery the IATA predicted that airlines would turn a profit of \$4.7 billion in 2023; the first profit since the COVID-19 pandemic. The IATA estimates that globally, airlines will lose \$6.9 billion in 2022, down from a loss of \$137.7 billion inf 2020.

As demand for travel grows, the industry is faced with a number of challenges. Labor shortages are among the main concerns and the shortage of pilots in particular has impacted the industry. In 2022, service to certain destinations was impacted by to a lack of pilots. The industry is combatting this shortfall by offering greater financial incentives and updating pilot training programs. There is not just a shortage of pilots. The effects of the "Great Resignation", the economic trend in which employees voluntarily resigned from their jobs in the wake of COVID-19, has acutely hit all areas of the aviation industry including mechanics, flight crew and service workers.

This overall lack of workers is also resulting in multiple supply chain issues. Boeing and Airbus, the two largest aircraft manufacturers, have experienced repeated delays in production leading to them being

months behind schedule. Their inability to produce planes at their forecasted levels has contributed to the reduction in air service as demand cannot keep pace with supply. One of the ways that airlines are combatting this issue is by equipment "up-gauging". This is where air carriers increase capacity by either adding seats to existing planes or by replacing smaller planes with larger planes.

While staffing and equipment shortages impact the airline industry's ability to grow, inflation continues to challenge the airlines' ability to grow profitably. OPEC reports significant uncertainties in the outlook for the liquid fuels markets, relating to the impact of monetary tightening in advanced economies, ongoing geopolitical developments and the growth of US oil output. In January 2023, jet fuel prices rose 12.7% over the prior month reaching \$146 per barrel. This increase in operational costs is being passed on to passengers via higher air fares. Data released by the U.S. Bureau of Labor Statistics' Consumer Price Index shows a 25.6% increase in airfares from January 2022 to January 2023.

Despite these headwinds, the outlook for the aviation industry remains positive. At the start of 2023, passenger levels, at least domestically, are back up to 2019 levels. Internationally, travel restrictions continue to ease and most countries, including China, are open again to visitors. IATA is forecasting over 4 billion travelers in 2023, the first-time global travelers will surpass the 4 billion milestone since 2019.

# Airport Activity

DTW ended calendar year 2022 with a 19.3 percent increase in enplaned passengers and a 6.9 percent increase in landed weight as compared to calendar year 2021. During the same period, operations decreased by 0.8 percent while cargo activity increased by 4.7 percent. DTW's activities for the years ended December 31, 2022 and 2021 were as follows:

|                                   | 2022       | 2021       | % Change |
|-----------------------------------|------------|------------|----------|
| Enplanements                      | 14,052,931 | 11,782,602 | 19.3%    |
| Landed Weights (in thousand, lbs) | 17,645,129 | 16,509,814 | 6.9%     |
| Operations                        | 284,606    | 286,909    | -0.8%    |
| Cargo (in metric tons)            | 185,629    | 177,312    | 4.7%     |

Aviation activity continues to lag 2019 levels with enplanements and landed weight down 23.4 percent and 20.9 percent respectively. A 10.2 percent decrease in enplanements from 2019 levels is forecasted for fiscal year 2023 and enplanements through February 2023 are consistent with this forecast. The outlook for 2023 remains positive with Icelandair, WestJet and Sun Country all commencing operations at DTW in May 2023.

# ACCOUNTING SYSTEM AND BUDGETARY CONTROLS

# The Authority's Budget

Prior to the commencement of each fiscal year, the Authority is required by the Master Bond Ordinance and Public Act 90 to prepare and adopt a budget.

The budget contains an itemized statement of the estimated current operational expenses and the expenses for capital, including funds for the operation and development of the Airports under the jurisdiction of the Authority and the amount necessary to pay the principal and interest of any outstanding

bonds or other obligations of the Authority maturing during the ensuing fiscal year. The budget also contains an estimate of the revenues of the Authority from all sources for the next fiscal year.

Budgeting serves as an important management tool to plan, control and evaluate the operations of the Authority. DTW (including the Westin Hotel) and YIP Operation & Maintenance funds budgets are the Authority's annual financial plan for operating and maintaining the airports and hotel. These budgets must be sufficient to cover the operation and maintenance expenses of the Airports, the debt service payable on bonds and other known financial requirements for the ensuing fiscal year. The Capital Improvement Program budget is the Authority's plan for the design and construction of major improvements and new facilities at the Airports with a five-year horizon.

The Authority's basis of budgeting is in accordance to the terms of the Airline Use & Lease Agreements with the Airlines, which differs from Accounting Principles Generally Accepted in the United States of America – the Authority's accounting basis.

Budgetary control is required to ensure that expenditures do not exceed appropriations. The Authority maintains this control through the use of an encumbrance system. As purchase orders are issued, corresponding amounts of appropriations are reserved by the use of encumbrances to prevent overspending. Amendments to the budget are subject to approval by the Board in accordance with the terms contained in the Board resolution adopted with the budget. The independent monitoring of the budget continues throughout the fiscal year for management control purposes. Each month, Financial Planning & Analysis (FP&A) reviews and analyzes all revenue and expense accounts to compare actual to prior year actual and to budget. The findings are reported to the Board in the monthly management report.

# AUTHORITY'S ECONOMIC CONDITION

# Population and Air Trade Area

DTW resides in a region which the United States Office of Management and Budget (OMB) defines as the Detroit-Warren-Ann Arbor Combined Statistical Area (CSA) and includes the ten Michigan counties of Genesee, Lapeer, Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw and Wayne. These counties represent the primary geographical area served by DTW and is referred to as its "Air Trade Area". The Air Trade Area was the 12th most populous CSA in the nation in 2020 with approximately 5.4 million people and accounted for approximately 54% of the entire population of Michigan.

DTW serves as the primary commercial service airport for the CSA and is by far the largest airport in the region. Within a 100-mile driving radius from DTW there are four commercial service airports that offer limited scheduled airline service. These airports are Windsor International Airport (YQG), Toledo Express Airport (TOL), Bishop International Airport (FNT) in Flint, Michigan and Capital Regional Airport (LAN) in Lansing, Michigan.

Chicago Midway International Airport (MDW) and Chicago O'Hare International Airport (ORD) are the nearest large U.S. hub airports at approximately 270 and 290 driving miles from DTW. Toronto Pearson International Airport (YYZ) in Ontario, Canada is the nearest large airport somewhat comparable in size to DTW, however, it is across the U.S. boarder and is approximately 240 driving miles from DTW. The nearest

medium hub airport is Cleveland-Hopkins International Airport, which is approximately 145 driving miles from DTW.

# Economy

Historically, air travel demand for origin-destination (O&D) traffic, passengers beginning or ending their trip at the Airport, is largely correlated with a region's demographic and economic characteristics. The economic strength of the Air Trade Area has a major impact on the aviation activity at the Airport since approximately 64% of the Airport's domestic passenger traffic is O&D.

The Air Trade Area is home to 11 Fortune 500 Company Headquarters, six of which are part of the automotive industry. Three of the five largest employers in the Air Trade Area, as of June 2022, are automobile manufacturers; Ford Motor (approx. 48,000 employees), Stellantis NV (approx. 42,000 employees) and General Motors (approx. 39,000 employees). The University of Michigan (approx. 35,000 employees) and Beaumont Health (approx. 22,000 employees) complete the top five employers.

Per capita personal income is a measure of the relative affluence of a region's residents and, consequently, of their ability to afford air travel. Prior to the pandemic, the Air Trade Area had seen steady improvement in employment rates and a high percentage of households in the uppermost income categories when compared to Michigan and the nation. For the ten-year period of 2012-2022, per capita personal income for the Air Trade Area increased at a compounded annual growth rate (CAGR) of 1.8 percent. In the same time period, the CAGR for Michigan was 1.7 percent and the CAGR for the United States was 1.9 percent.

As a result of the impacts associated with the COVID-19 pandemic and the shutdown of most sectors of the U.S. economy, the unemployment rate in the Air Trade Area peaked at 23.5 percent in April of 2020. With the reopening of the economy, unemployment declined to pre-pandemic levels. The unemployment rate in the Air Trade Area was 4.4 percent in January of 2023.

# LONG-TERM FINANCIAL PLANNING

The Authority's long-term financial planning includes the completion of certain approved capital projects and the accumulation of sufficient resources required to service the debt issued to finance these projects, as well as to operate and maintain the Airports. Under the terms of the Airline Use and Lease Agreement, fees and charges paid by the Airlines are used along with other income from DTW to service the debt issued to finance the construction program.

The Authority covenants in the Master Bond Ordinance state that DTW's net revenues plus other available monies as defined by the Master Bond Ordinance are sufficient to provide debt service coverage of 125 percent of the average annual debt service requirement on senior lien bonds. This coverage ratio for the year ended December 31, 2022 was in excess of the requirements at 141 percent of senior lien debt service and 132 percent of total debt service.

# Capital Improvement Program

The Authority maintains an ongoing Capital Improvement Program (CIP) to expand, modernize and maintain the Airports. In addition to renovations and modernization of certain existing facilities, the CIP

includes construction of the principal elements of the Master Plan for each Airport. The Master Plans establish the framework for the CIP that is necessary for the development of the Airports.

The Authority's CIP represents current expectations of future capital needs. The current five-year plan for 2023-2027 includes planned funding of approximately \$1.3 billion and \$120.8 million for Detroit Metropolitan and Willow Run Airports, respectively.

The Authority's funding sources for the CIP are airport revenue bonds, PFCs, grants and Authority discretionary funds. Given the multiple funding sources that comprise this plan, Board approval of the CIP does not imply that the source of funding has been determined.

# Airport Improvement Program

Since 1986, the Authority has participated in the Airport Improvement Program (AIP), the Federal government's airport grant program. The AIP provides funding for airport development, airport planning and noise compatibility programs from the Airport and Airway Trust Fund. The AIP also provides both entitlement and discretionary grants for eligible projects. The Authority also receives grants from the State of Michigan.

# Passenger Facility Charges

In 1990, Congress approved the Aviation Safety and Capacity Expansion Act, which authorized domestic airports to impose a PFC on enplaning passengers. In May 1991, the FAA issued the regulations for the use and reporting of PFCs. PFCs may be used for projects which meet at least one of the following criteria: preserve or enhance safety, security, or capacity of the national air transportation system; reduce noise or mitigate noise impacts resulting from an airport; or furnish opportunities for enhanced competition between or among carriers.

Since 1992, the FAA has approved six PFC applications and amendments submitted by the Authority. The Authority is currently authorized to impose and use a PFC of \$4.50 per enplaned passenger up to \$3.2 billion, which includes amounts for the payment of principal, interest and other financing costs on bonds for which the proceeds are used to pay PFC-eligible costs on approved projects.

As of December 31, 2022, the Authority received approximately \$1.67 billion of PFC revenue and approximately \$73.8 million of interest earnings. The Authority expended approximately \$1.74 billion on approved projects. The current PFC expiration date is estimated at February 1, 2034.

# **OTHER INFORMATION**

# Awards and Achievement

The GFOA awarded the Authority a "Certificate of Achievement" for Excellence in Financial Reporting for its ACFR for the year ended December 31, 2021. This was the nineteenth consecutive year that the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. The ACFR must satisfy both

accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and are submitting this 2022 ACFR to the GFOA for consideration.

Acknowledgments

The preparation of this report could not have been accomplished without the dedicated services of the entire staff of the Finance Division. We would like to express our appreciation to all members of this Division.

This report also could not have been possible without the leadership and support of the governing body of the Authority's Board.

Respectfully submitted,

alud Hartan

#### Opinions

We have audited the financial statements of each major fund and the aggregate remaining funds of Wayne County Airport Authority (the "Authority") as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund and the aggregate remaining funds of the Authority as of December 31, 2022 and the respective changes in its financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphasis of Matter

As discussed in Note 13 to the financial statements, the Authority implemented the provisions of GASB Statement No. 87, *Leases*, for the year ended December 31, 2022. This statement requires recognition of lease assets and liabilities for leases that meet certain criteria based on the provisions of the contract. Our opinion is not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

To the Wayne County Airport Authority Board Wayne County Airport Authority

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the
  Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplemental information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Wayne County Airport Authority Board Wayne County Airport Authority

#### Other Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the schedule of passenger facility charge revenue and expenditures, as required by the *Passenger Facility Audit Guide for Public Agencies*, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal awards and passenger facility charges collected and expended are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory section, statistical section, and continuing disclosure section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 25, 2023 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Alente 1 Moran, PLLC

April 25, 2023

#### December 31, 2022

The following discussion and analysis provide an overview of the financial performance and activities of the Wayne County Airport Authority (the Authority) as of and for the year ended December 31, 2022, with selected comparative information for the year ended December 31, 2021. This discussion and analysis has been prepared by the Authority's management and should be read in conjunction with the basic financial statements and notes thereto, which follow this section.

The Authority is a business-type entity and, as such, the basic financial statements consist of three statements and notes to the basic financial statements. The three basic statements are: (a) Statement of Net Position, which presents the assets, liabilities, deferred inflows and outflows of resources and net position of the Authority as of the end of the fiscal year (b) Statement of Revenues, Expenses, and Changes in Net Position, which reflects revenues and expenses recognized during the fiscal year and (c) Statement of Cash Flows, which provides information on all of the cash inflows and outflows for the Authority by major category during the fiscal year. The Authority includes a Postemployment Health Benefits Trust Fund (Fiduciary Fund) to account for postemployment healthcare payments to qualified employees.

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S.) as promulgated by Governmental Accounting Standards Board (GASB) principles.

The financial statements include the operations of Detroit Metropolitan Wayne County Airport, including the Airport Hotel (the Airport), and Willow Run Airport.

# The Airport Funding Methodology

Funding for the Airport's operations is predicated upon the stipulations in the Airport Use and Lease Agreements (the agreements) between the Authority and the Airlines. The agreements set the terms of the business relationship between the Authority and the Airlines. Key terms in the agreements include rental rates, activity fee methodology, cost center definitions, etc. Once an airline signs an agreement, they are designated a "Signatory Airline." The agreements also determine the budget and financing (activity fee) methodology that the Authority and Airlines agree to follow. Airport budget methodologies throughout the United States are usually characterized as either compensatory or residual, although some airports have a hybrid methodology that combines both features.

The Airport operates under a residual methodology. The methodology places additional risk on the Airlines as these Airlines guarantee the net cost of operating the entire Airport. This obligation includes operating expenses and all debt service requirements of the Airport. If the Airport incurs a deficit in a particular year, it has the ability to increase rates to all Airlines up to the amount of the deficit. Conversely, if the Airport realizes a surplus, the Airport must refund the surplus to all of the Airlines. The total amount to be charged or refunded is based on a pro rata allocation between the Signatory Airlines and the Non-Signatory Airlines, which reflects the same ratio as the ratio of total activity fees paid by each group.

The residual methodology agreed upon by the Signatory Airlines and the Authority creates a funding mechanism that is not congruent with financial statement reporting standards. Although the Airlines are required to fund any deficit of the Airport, this deficit is not equivalent to "Operating Loss" or any other designation on the financial statements. Since the Airport utilizes the residual methodology, all annual operating costs and debt service requirements of the Airport have been funded.

#### **Financial Highlights**

For the year ended December 31, 2022, operating revenues, which are comprised of airline and nonairline revenues, were \$351.9 million. This is a \$15.5 million (4.6 percent) increase from operating revenues of \$336.4 million for the year ended December 31, 2021. Operating revenues continue to recover from a low of \$258.2 million in 2020, when the Airport was first impacted by the outbreak of COVID-19. The outbreak caused disruptions in both domestic and international air travel, which significantly impacted operating revenues. Air travel activity continued to recover in 2022, with total passenger volumes at the Airport increasing by 19.3% from 2021 and total landed weight increasing by 6.8% from 2021, driving increases in operating revenues. While air travel activity levels continue to recover, total passenger volume and landed weights at the airport remain 22.2% and 23.4% below 2019 levels.

Operating expenses are \$13.5 million (3.7 percent) higher than in the prior year. This increase is primarily attributed to increases in salaries, wages and fringe benefits (\$2.2 million), hotel management (\$6.5 million) and building, ground and equipment maintenance (\$2.3 million). These increases were realized as the Airport experienced increased passenger activity and landed weights.

Nonoperating revenues, net of nonoperating expenses, increased by \$1.6 million (9.3 percent) over the prior year. The increase was primarily a result of increases in passenger facility charge revenue (\$7.1 million) and customer facility charge revenue (\$4.6 million), offset by a \$7.8 million loss on the disposal of assets and a \$2.4 million loss on investments. Passenger facility charges increased due to increased passenger activity, and customer facility charges increased due to the reinstatement of these charges as of August 1, 2022.

# **Statement of Net Position**

The Statement of Net Position includes all assets, liabilities, deferred inflows and outflows of resources and the resulting net position. Assets and liabilities are generally measured using current values. One exception is capital assets, which are stated at historical cost less an allowance for depreciation. The condensed summary of the Authority's net position as of December 31, 2022 and December 31, 2021 is as follows:

#### MANAGEMENT DISCUSSION AND ANALYSIS

December 31, 2022

|  | De | Dec. 31, 2022<br>(000's) |    | c. 31, 2021<br>(000's) |
|--|----|--------------------------|----|------------------------|
| Assets:                                    |    |                          |    |                        |
| Current unrestricted assets                | \$ | 313,686                  | \$ | 276,418                |

| Deferred Outflows:                         |    | 43,290                   |    | 24,048                 |
| Liabilities:                               |    |                          |    |                        |
| Current liabilities                        |    | 79,519                   |    | 83,412                 |
| Liabilities payable from restricted assets |    | 114,962                  |    | 109,575                |
| Long-term liabilities                      |    | 2,048,291                |    | 2,121,249              |
| Total liabilities                          |    | 2,242,772                |    | 2,314,236              |
| Deferred Inflows:                          |    | 36,907                   |    | 41,991                 |
| Net Position:                              |    |                          |    |                        |
| Net investment in capital assets           |    | (45,989)                 |    | (53,950)               |
| Restricted                                 |    | 270,521                  |    | 275,667                |
| Unrestricted                               |    | 24,195                   |    | (941)                  |
| Total Net Position                         | \$ | 248,727                  | \$ | 220,776                |

Restricted assets, which primarily consists of cash and investments and accounts receivable, decreased \$78.2 million year-over-year. The decrease can be attributed primarily to reductions in cash and investment holdings resulting from capital expenditures made from airport revenue bond proceeds. Airport revenue bonds were issued in 2021 to fund various capital projects at the Airport. Current unrestricted assets, which consist primarily of cash and investments, account receivable and amounts due from other governmental units increased by \$37.2 year-over-year. The most significant components of the increase are lease receivables of \$12.7 million recorded in the current year upon the implementation of GASB Statement No. 87, *Leases* (GASB 87), an increase in amounts due from other governmental units of \$14.5 million resulting primarily from grant revenue due to the Authority for the reconstruction of Taxiway Y, and increases in unrestricted cash and investments of \$13 million.

All cash and investments of the Authority are invested according to legal requirements established by the legislature of the State of Michigan. In accordance with State law, investments are restricted to various U.S. government securities, certificates of deposit, commercial paper and repurchase agreements. Other assets consist primarily of prepaid bond insurance premiums, net of related amortization. Deferred outflows of resources represent the consumption of net position in one period that is applicable to future periods. They are reported separately from assets and consist of the deferred amount on debt refunding and deferred outflows related to pensions and other post-employment benefits (OPEB).

In accordance with the terms of applicable ordinances, the Authority is required to restrict assets for various purposes. The components of net position have been restricted related to certain restrictions on the use of those assets. Net position has been restricted for operations and maintenance, replacement and improvements, construction, bond and interest redemption, passenger facility charges, customer facility charges and drug enforcement.

Current liabilities consist mainly of accounts payable, payroll-related liabilities, self-insurance liabilities, accrued vacation and sick time, amounts due to other governmental units, activity fees payable to airlines and security/performance deposits. Long-term liabilities consist primarily of long-term debt, net pension liability, net OPEB liability, other accrued liabilities and amounts due to other governmental units. Current liabilities decreased by \$3.9 million in the year ended December 31, 2022.

Long-term liabilities decreased approximately \$73 million from December 31, 2021 to December 31, 2022. The decrease was primarily a result of a \$117 million decrease in bonds payable and other debt, offset by increases in net pension liability of \$25.1 million and net other post-employment benefit liability of \$67.6 million. The net pension liability and the net other post-employment benefit liability primarily increased due to decreases in the value of pension investments, while bonds payable and other debt decreased as a result of normal debt service and the amortization of bond premiums.

Deferred inflows of resources represent an acquisition of net position that is applicable to future periods and decreased \$5.1 million. The change was a result of a \$22.7 million increase in deferred inflows from leases being recognized upon the implementation of GASB 87, offset by a \$14.0 million decrease in deferred inflows from pension and a \$13.8 million decrease in deferred inflows from other postemployment benefits. That decrease in deferred inflows from pension resulted from differences between projected and actual earnings on pension plan investments changing from a deferred inflow of \$14.9 million to a deferred outflow of \$13.3 million. The decrease in deferred inflow from other posteemployment benefits resulted from differences between projected and actual earnings changing from a deferred inflow of \$6.3 million to a deferred outflow of \$9.4, and the difference between expected and actual experience being reduced from a \$16.5 million inflow to a \$9 million dollar inflow.

Total net position at December 31, 2022 was \$248.7 million, which is an increase in net position of \$28 million from December 31, 2021. The increase is the result of net non-operating revenues of \$18.5 million and capital contributions of \$41.6 million offsetting the total operating loss of \$32.2 million. A total of \$270.5 million of the Airport's December 31, 2022 net position is restricted for future debt service, capital construction and replacement, bond and interest redemption and passenger facility charges, subject to federal regulations. Net investment in capital assets was a negative \$46 million and represents land, intangible assets, buildings, improvements and equipment, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition of, construction or improvement of those assets. The Authority reported an unrestricted net deficit of \$24.2 million.

#### Capital Assets and Long-Term Debt Activity

The Authority is authorized to issue airport revenue bonds to finance the cost of capital projects and include the debt service on such bonds in the fees and charges of the Signatory Airlines only after receiving approval of a Weighted Majority for such capital projects. As of December 31, 2022, the Authority had approximately \$2.1 billion in outstanding bonds and other debt, both senior and subordinate, paying fixed and variable rates. The total debt service (principal and interest) for the year ending December 31, 2022 was approximately \$177.6 million and long-term debt amounting to \$89.8 million was paid off. Debt totaling \$21 million was issued to refund outstanding balances on existing debt during the year. More detailed information on capital assets and long-term debt activity can be found in Notes 7 and 8 included in the Notes to Basic Financial Statements section of this report.

#### **Statement of Revenues, Expenses and Changes in Net Position**

The Statement of Revenues, Expenses, and Changes in Net Position presents the operating results of the Authority, as well as the nonoperating revenues and expenses. Operating revenues include both airline and non-airline revenues and consist primarily of landing and related fees, terminal building rental and fees, parking fees, concession fees, car rental and hotel revenues. Nonoperating revenues consist primarily of passenger facility charges, federal and state sources and interest income. Interest expense is the most significant nonoperating expense. A summarized comparison of the Authority's revenues, expenses, and changes in net position for the years ended December 31, 2022 and December 31, 2021 follows:

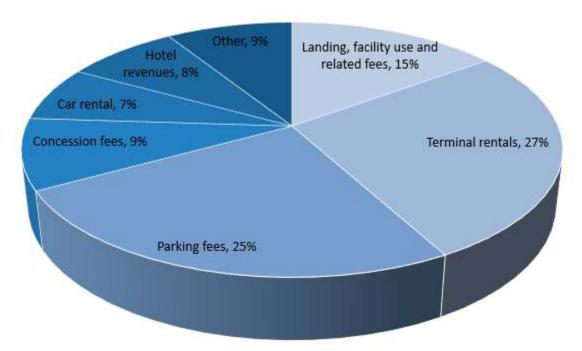

# December 31, 2022

| Operating revenues:                     | Year Ended<br>Dec. 31, 2022<br>(000's) |          | Dee | ear Ended<br>c. 31, 2021<br>(000's) |
|---|--|----------|-----|-------------------------------------|
| Airline revenues:                       |  |          |     |                                     |
| Airport landing and related fees        | \$                                     | 46,697   | \$  | 73,458                              |

#### **Operating Revenues**

The chart below illustrates the sources of total operating revenue for the year ended December 31, 2022:

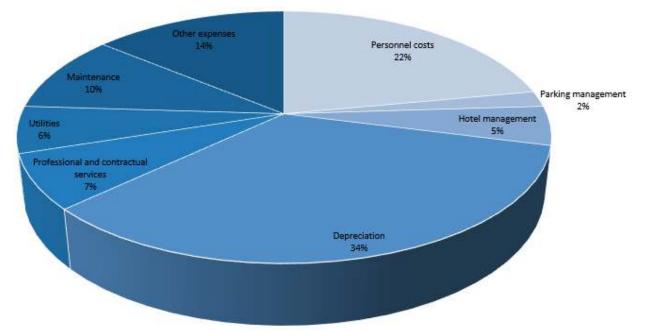

Operating revenues, which can be further sub-categorized as airline and non-airline revenues, increased by 4.6 percent or \$15.5 million, from \$336.4 million to \$351.9 million.

As previously noted, 2020 revenues were significantly impacted by COVID-19. Actions taken at the state and national levels to halt its spread had an adverse effect on both airline and non-airline revenue. Air travel activity has steadily recovered from the impacts of COVID-19. Passenger volumes and flight activity at the Airport and across the United States improved in 2021 and continued to improve in 2022. In 2022, overall landed weights at the Airport increased by 6.8% and total passenger volume increased by 19.3%. As a result of increasing activity levels, the Authority reduced landing fees from \$4.37 for Signatory Airlines in 2021 to \$2.56 for Signatory Airlines in 2022 (rates are per 1,000 pounds of landed weight). The rate change led to a reduction in landing and related fee revenue of \$26.8 million, but higher activity levels drove an increase in non-airline revenue of \$46.5 million.

Non-airline revenues include revenue collected for activities that are not specifically aviation related. For the year ended December 31, 2022, the \$46.5 million increase in non-airline operating revenues (from \$158.1 million in 2021 to \$204.6 million in 2022) was driven by increases in passenger volume. Increases in revenue were experienced for all major categories of non-airline revenue, with parking revenue increasing by \$25.7 million, hotel revenue increasing by \$11.6 million, concession revenue increasing by \$4.6 million and car rental revenue increasing by \$4.2 million.

#### **Operating Expenses**

The chart below illustrates the sources of total operating expenses for the year ended December 31, 2022:

Operating expenses increased by \$13.5 million or 3.7 percent to \$384.1 million. The expense categories which had the largest increases were salaries, wages and fringe benefits (\$2.2 million), hotel management (\$6.5 million) and other (\$13.1 million).

Salaries, wages and fringe benefits totaled \$84.7 million for the year December 31, 2022, as compared to \$82.6 million for the year ended December 31, 2021. The increase is primarily attributable to an increase in expenses associated with the change in other post-employment benefits. Hotel management expenses increased from \$11.8 million to \$18.3 year-over-year, as increasing occupancy rates resulted in higher overall operating costs. Increases in other operating expense of \$13.1 million are the result of increases in a number of operational areas, including a \$2.3 million increase in shuttle bus service costs, a \$3.6 million increase in janitorial costs and a \$3.2 million increase in materials and supplies costs.

# Nonoperating Revenues, Expenses and Contributed Capital

Nonoperating revenues increased from \$94.8 million in 2021 to \$105.5 million in 2022. The increase is primarily attributable to customer facility charges, which resumed on August 1, 2022, and resulted in \$4.6 million in revenue in 2022. Nonoperating expenses also increased, from \$77.9 million in 2021 to \$87.0 million in 2022. The increase was the result of a \$7.8 million loss on the disposal of assets, and a \$2.4 million unrealized loss on the value of investments.

Capital contributions increased by \$28.5 million, from \$13.1 million in 2021 to \$41.6 million 2022. Capital contributions in 2022 were primarily for grant revenue obtained through the Federal Aviation Administration (FAA) Airport Improvement Program (AIP) for the reconstruction of Taxiway Y at DTW and the reconstruction of runway 9-27 and associated taxiway connectors at Willow Run Airport.

# **Economic Conditions**

The Authority utilizes a mix of airline and non-airline revenue to off-set the cost of operating the Airport. Airline and non-airline revenue are either derived from or are significantly impacted by demand for air transportation and the operations of the Airlines meeting this demand at the Airport. Changes in economic conditions which impact passenger traffic and aviation activity may be reflected in the airline and non-airline revenue realized by the Authority. As a residual Airport, should economic conditions create a reduction in revenue resulting in a deficit between revenues and expenses, the Authority has the ability to increase rates charged to all Airlines up to the amount of the deficit. Conversely, should revenues exceed expenses, the excess is returned to the Airlines.

As previously noted, in calendar year 2020 economic conditions in the State of Michigan, the United States, and countries throughout the world were impacted by the spread of COVID-19. As the impact of the pandemic has subsided, airline activity has steadily improved, and the overall economy has largely recovered. In addition, the Airport continues to have access to certain financial support initiated through legislative measures which were put into place to help mitigate the financial impact on industries effected by COVID-19. In 2022, the Authority recognized \$17.4 million in grant revenues received through the Airport Coronavirus Response Grant (CRRSA), \$3.9 million through the concessions portion of CRRSA, and \$12.3 million through the American Rescue Plan Act (ARPA). The Authority has approximately \$99.4 in ARPA funds available as of year-end, with an additional \$15.5 million in ARPA funds designated for concessions relief.

|   |     |   |                            |              |

Noncash investing activities:

- Detroit Metropolitan Airport Fund had a noncash change in the fair value of investments of approximately \$10.3 million in the year ended December 31, 2022.
- The issuance of refunding bonds resulted in several non-cash activities. The major components are as follows: \$22.3 million of principal additions offset by \$21 million of principal reductions.

#### (1) The Reporting Entity

The Wayne County Airport Authority (the Authority) is an independent public benefit agency and considered an agency of the Charter County of Wayne, Michigan (the County) for the purposes of federal and state laws but is not subject to any County charter requirements or the direction or control of either the Wayne County Executive or Commission. Pursuant to Public Act 90 (the Authority Act), Michigan Public Acts of 2002 (effective March 26, 2002), the Authority has operational jurisdiction of the Detroit Metropolitan Wayne County Airport (Metro Airport), the Willow Run Airport, and the Airport Hotel, with the exclusive right, responsibility, and authority to occupy, operate, control, and use them. The financial statements of the Authority include the operations of Metro Airport (which includes the Airport Hotel) and Willow Run Airport. The Authority is not deemed a component unit of the County.

The Authority is directed and governed by a board consisting of seven members. The governor of the State appoints two members of the board, one member is appointed by the legislative body of the County that owns Metro Airport, and four members of the board are appointed by the chief executive officer of the County.

Metro Airport has airport use agreements with 10 airlines. These airlines, along with their affiliates, constitute approximately 97 percent of total landed weight in the year ended December 31, 2022. Metro Airport has agreements with various concessionaires (parking, food service, rental car agencies, etc.) for which Metro Airport pays a management fee or receives revenue.

### (2) Summary of Significant Accounting Policies

### (a) Basis of Presentation

The Authority reports the following major funds:

**Detroit Metropolitan Airport Fund** – This fund is used to account for the operations and maintenance of the Detroit Metropolitan Wayne County Airport, which includes the Airport Hotel.

**Willow Run Airport Fund** – This fund is used to account for the operations and maintenance of the Willow Run Airport.

The Authority also reports the following fiduciary fund:

**Postemployment Health Benefits Trust Fund** – This fund accounts for the activities of the employee benefit plan that accumulates resources for other postemployment benefit (OPEB) payments to qualified employees.

### (b) Basis of Accounting and Measurement Focus

The financial statements of the Authority are presented on the accrual basis of accounting and are accounted for on the flow-of-economic-resources measurement focus as applicable to governmental units; revenues are recorded when earned, and expenses are recorded as incurred.

# (c) Cash and Investments

Cash resources of the individual funds of the Authority, except as specifically stated by ordinance, are pooled and invested. Interest on pooled investments is allocated monthly among the respective funds based on average investment balances. Interest earned but not received at year end is accrued. Investments are stated at fair value or estimated fair value, and investments with a maturity of three-months or less are considered cash and cash equivalents.

# (d) Cash Flows

For the purpose of the statement of cash flows, the Authority considers all highly liquid investments, including restricted assets, with a maturity of three months or less when purchased to be cash equivalents. All pooled investments qualify as cash equivalents.

# (e) Passenger Facility Charges

The Authority assesses passenger facility charges of \$4.50 per passenger enplanement. The passenger facility charges are recorded as nonoperating revenues and may only be expended on capital and noncapital projects approved by the federal government. Passenger facility charges from airlines are recorded on an accrual basis. Unspent PFC cash and accounts receivable are classified as restricted net position for eligible debt service.

### (f) Customer Facility Charges

The Authority may impose a customer facility charge (CFC) which must be collected by rental car concessionaires operating at Detroit Metropolitan Airport. Beginning August 1, 2022, \$3.00 was charged to each airport rental car concessionaire customer on a per transaction day basis. CFC revenues are classified as nonoperating on the statement of revenue, expenses, and changes in net position. Such amounts are classified as restricted net position for capital improvements related to the rental car operations at Detroit Metropolitan Airport.

### (g) Revenue Recognition

Operating revenues are recorded as revenues at the time services are rendered. Nonexchange transactions, in which the Authority receives value without directly giving equal value in return, include grants and capital contributions. Federal and state grants and capital contributions are recognized as revenues when the eligibility requirements, if any, are met.

### (h) Net Position

Equity is displayed in three components, as follows:

**Net Investment in Capital Assets** – This consists of capital assets, net of accumulated depreciation, plus unspent bond process, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

WAYNE COUNTY AIRPORT AUTHORITY

### NOTES TO BASIC FINANCIAL STATEMENTS

**Restricted** – This consists of net position that is legally restricted by outside parties or by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the Authority's policy to use restricted resources first and then unrestricted resources when they are needed.

**Unrestricted** – This consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

### (i) Classification of Revenues and Expenses

The Authority has classified its revenues and expenses as either operating or nonoperating according to the following criteria:

**Operating** – Operating revenues and expenses include activities that have the characteristics of exchange transactions, such as revenues from landing and related fees and concession fees, and expenses paid to employees and vendors.

**Nonoperating** – Nonoperating revenues and expenses include activities that have the characteristics of nonexchange transactions that are defined as nonoperating by GASB No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, such as revenue from federal and state grants and contributions and investment income.

### (j) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### (k) Capital Assets

Capital assets are stated at the estimated historical cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

| Buildings and improvements | 10 - 50 years |
|----------------------------|---------------|
| Equipment                  | 3 - 12 years  |
| Infrastructure             | 10 - 40 years |

Purchases with a cost of \$5,000 or more for capital assets and for major renewals and betterments that extend the estimated useful life of the assets are capitalized; routine maintenance and repairs are charged to expense as incurred. All costs relating to the construction of property and equipment owned by the Authority are capitalized. At the time capital assets are sold, retired, or disposed of,

the costs of such assets and related accumulated depreciation are removed from the accounts, and any gain or loss is reflected in the results of operations.

# (I) Compensated Absences

The Authority's employees earn vacation and sick leave benefits based, in part, on length of service. Vacation pay is fully vested when earned, and sick pay vests upon completion of two years of service. Upon separation from service, employees are paid accumulated vacation and sick pay based upon the nature of separation (death, retirement, or termination). Certain limitations have been placed on the hours of vacation and sick leave that employees may accumulate and carry over for payment at termination, retirement, or death. Unused hours exceeding these limitations are forfeited. A liability for accumulated unpaid vacation and sick pay has been recorded in the financial statements as a current "other accrued liability" and will be paid with resources from both the Detroit Metropolitan Airport Fund and the Willow Run Airport Fund. Activity for the year ended December 31, 2022 was as follows:

| Beginning Balance | \$<br>3,850,946 |
|-------------------|-----------------|
| Increases         | 5,056,510       |
| Decreases         | (5,148,551)     |
| Ending Balance    | \$<br>3,758,905 |

### (m) Retirement Contributions and Other Postemployment Benefit Costs

The Authority offers defined benefit and defined contribution retirement benefits though the Wayne County Employees' Retirement System (WCERS), an agent multiemployer retirement system. Related to the defined benefit plans, the Authority records a net pension liability for the difference between the total pension liability calculated by the actuary and the pension plan's fiduciary net position. For purposes of measuring the net pension liability, measuring deferred outflows of resources and measuring deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the pension plan and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by WCERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Related to the defined contribution plans, employer and employee contributions are recognized in the period in which the contributions are due.

In addition, the Authority has entered into an arrangement with WCERS and Wayne County which the Authority has concluded represents a special funding situation under GASB 68. Under the arrangement, which was entered into in 2016, the Authority has provided \$22 million in funding for Pre-2002 Retiree Liabilities. The Authority has recorded an estimated liability of \$6.8 million for this obligation at December 31, 2022.

The Authority offers healthcare benefits to retirees. For purposes of measuring the net retiree healthcare benefit liability, deferred outflows of resources, deferred inflows of resources, and retiree healthcare benefit plan expense, information about the fiduciary net position of the retiree

### December 31, 2022

healthcare benefit plan and additions to/deductions from the retiree healthcare benefit plans fiduciary net position have been determined on the same basis as they are reported by the Authority. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In addition, the Authority has agreed to contribute 11.25 percent for its estimated share of stipend payments made to participants in the Wayne County Health and Welfare Plan that retired before September 1, 2002. Members of the Wayne County Health and Welfare Plan are required to file annual certifications related to the use of this stipend for healthcare benefits. The Authority's obligation for its share of stipend payments is estimated to be \$3,793,000 at December 31, 2022.

# (n) Accounts Receivable

Net receivables at December 31, 2022 consist of trade receivables incurred by customers during the normal course of business. The total allowance for uncollectible accounts at December 31, 2022 was \$389,580, of which \$350,000 was for the Detroit Metropolitan Airport Fund, \$25,000 was for the Willow Run Airport Fund and \$14,580 was for the Airport Hotel.

# (o) Accounts Payable

Total payables at December 31, 2022 consist of payables due to vendors incurred during the normal course of business.

# (p) Restricted Assets and Liabilities

Restricted assets consist of cash, investments, and accounts receivable that are legally required to be trusteed or maintained in separate depository accounts. Capital program funds are restricted to pay the costs of certain capital projects as defined in various bond agreements. Debt service funds are restricted to make payments for principal and interest as required by the specific bond agreements. Liabilities payable from restricted assets are the accrued interest and current portion of long-term debt associated with the purchase and construction of the capital projects funded by the restricted assets.

### (q) Interfund Balances, Advances, and Transfers

The interfund balances resulted from (1) the time lag between the dates interfund goods and services are provided or reimbursable expenses occur, (2) the time lag between the dates payment between funds is made, and (3) overdrafts by individual funds of its share of pooled cash. Noncurrent balances arising in connection with interfund loans are reported as advances. *Due from other funds* is an asset account used to record current portions of loans from one reporting fund to another reporting fund. Similarly, *due to other funds* is a liability account used to record current portions of debt owed by one reporting fund to another reporting fund. On December 31, 2022, the following interfund balances existed between the Detroit Metropolitan Airport Fund and the Willow Run Airport Fund:

Fund NameDue FromDue ToDetroit Metropolitan Airport Fund\$ 548,041\$ -Willow Run Airport Fund\$ -\$ (548,041)

Interfund transfers are used to transfer unrestricted resources from one reporting fund to another to fund operations and capital projects.

### (r) Prepaid Bond Insurance Premiums

Total remaining unamortized bond insurance premiums were \$537,433 as of December 31, 2022, net of accumulated amortization of \$351,765.

### (s) Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The Authority has three items that qualify for reporting in this category. One is the deferred charge on refunding reported on the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second and third items are the deferred outflows for pension and OPEB. See the detailed categories of the deferred outflows for pension in Note 10 and OPEB in Note 11.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has three items that qualify for reporting in this category, deferred inflows for pension, OPEB and leases. See the detailed categories of the deferred inflows for pension in Note 10, OPEB in Note 11 and leases in Note 13.

### (t) Environmental Matters

Environmental accruals are calculated and recorded using an expected cash flow technique applied to probabilities, ranges, and assumptions developed in response to a potential remediation liability as based on current law and existing technologies. These accruals are evaluated periodically for changes due to additional assessment and remediation efforts, as well as more detailed legal or technical information. Environmental liabilities are included in the statement of net position as current and long-term "other accrued liabilities."

In certain instances, environmental remediation costs cannot be reasonably estimated; however, the nature of the matters is disclosed in the notes to the basic financial statements as commitments and contingencies. As components of the remediation efforts are able to be projected, they are calculated using an expected cash flow technique and recorded accordingly.

December 31, 2022

December 31, 2022

#### (u) Self-Insurance

During the year ended September 30, 2004, the Authority became self-insured for disability, unemployment, and liability insurance. The Authority charges its departments a specified percentage of the department's regular biweekly payroll for these liabilities. Claims related to unemployment, disability, claim administration, deductibles, self-insured retentions, and legal bills are paid out of these funds. Additionally, the Authority maintains insurance coverage in several areas, including property, auto and cyber.

During the year ended September 30, 2005, the Authority became self-insured for health insurance and workers' compensation. The Authority charges its departments a specified percentage of the department's regular biweekly payroll for these liabilities. The funds collected for workers' compensation are used to pay claims (wages and medical), third-party administration services, and loss control services. The Authority purchases workers' compensation insurance for claims that exceed \$1 million. There has been one claim (two claimants) that has exceeded the \$1 million deductible wherein the insurer has been responsible for settlement of all future wages, medical, and legal costs. The funds collected for health insurance are used to pay self-insured claims to Blue Cross Blue Shield, the primary healthcare provider, fully-insured healthcare premiums for Health Alliance Plan, dental, vision and life insurance. The Authority purchases stop/loss coverage from Blue Cross Blue Shield for healthcare claims that exceed \$1 million. There have been no claims in the past three years that have exceeded this threshold.

The liability for self-insurance claims has been recorded in the financial statements as a current "other accrued liability". The Detroit Metropolitan Airport Fund resources are used to liquidate this liability. A reconciliation of the Authority's self-insured claims liability at December 31, 2022 follows:

|   | Health        | ١   | Workers'   |    |            |                 |

December 31, 2022

#### (v) Long-term leases

Regulated leases – The Authority leases certain assets to various third parties as regulated leases. These leases are for assets related directly and substantially to the movement of passengers, baggage, mail and cargo at the airport. Regulated lease revenue is recorded as operating revenue as it is earned over the life of the regulated leases.

Non-regulated leases – The Authority leases certain assets to various third parties as non-regulated leases. As a lessor, the Authority is required to recognize a lease receivable and a deferred inflow of resources. The lease receivable is measured at the present value of lease payments expected to be received during the lease term. The deferred inflow of resources is equal to the lease receivable, less prepayments received from lessees, or lease incentives paid to lessees. As lease payments are received, the Authority recognizes interest revenue and a reduction to the lease receivable. The Authority also recognizes operating lease revenue calculated as the amortization of the deferred inflow of resources over the lease term.

Additional information regarding lease accounting is provided in Note 13.

#### (3) Major Customer

Delta Air Lines (Delta) and its affiliates account for approximately 29 percent of total Authority operating revenues for the year ended December 31, 2022, including 69 percent of landing and related fees, 68 percent of airline rental and related fees, and 71 percent of facility use fees. Approximately 74 percent of total enplanements during the period are attributable to Delta's (and affiliates) operations. In the event that Delta discontinues its operations, there are no assurances that another airline would replace its hub activities. Existing operating agreements with all Signatory Airlines servicing the Authority require that all remaining airlines would continue to pay the net operating costs and debt service requirements of the Authority. The Authority had approximately \$4.8 million in receivables from Delta at December 31, 2022.

It is reasonable to assume that any financial or operational difficulties incurred by Delta, the predominant airline servicing the Airport, or another Signatory Airline may, whether directly or indirectly, have a material adverse impact on Airport operations.

### (4) Deposits and Investments

Michigan Compiled Laws Section 129.9 1 (Public Act 20 of 1943, as amended), authorizes the Authority to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The Authority is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications that matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which

### December 31, 2022

are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The investment policy adopted by the Authority in accordance with Public Act 20 of 1943, as amended, authorizes investments in U.S. Treasuries, U.S. agencies and instrumentalities (date-specific maturities only), non-negotiable certificates of deposits, commercial paper (rated A2/P2 or above), bankers' acceptances, repurchase agreements, overnight deposits, or mutual funds. For overnight deposits, the treasurer may invest overnight or short-term liquid assets to cover cash flow requirements in the following types of pools: investment pools organized under the Surplus Funds Investment Pool Act of 1982, PA 367, 1 MCL 129.111 to MCL 129.118, or investment pools organized under the Urban Cooperation Act of 1967, PA 7, MCL 124.501 to 124.512. For mutual funds, the treasurer may invest in no-load fixed-income mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan, either taxable or tax-exempt. This authorization is limited to mutual funds whose intent is to maintain a net asset value of \$1.00 per share.

The Authority's cash and investments are subject to several types of risk, which are examined in more detail below.

*Credit risk* - In compliance with state law, the Authority's investment policy limits investments of commercial paper to the two top ratings at the time of purchase issued by nationally recognized statistical rating organizations. As of year-end, the credit quality ratings of investments (other than the U.S. government and municipal bonds) are as follows:

| Investments of the Primary Gov. | <br>Fair value   | Rating | Rating Organization |
|---------------------------------|------------------|--------|---------------------|
| Money market funds              | \$<br>57,080,028 | AAA    | S&P                 |
| Commercial paper                | 164,603,399      | A1, P1 | S&P, Moody          |

**Custodial credit risk of bank deposits** - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Authority's investment policy requires that deposits over the \$250,000 insured limit in a commercial bank shall not equal more than 25 percent of the combined capital and surplus of that bank, and that bank must meet the minimum standards of at least one standard rating service. At year-end, the Authority had \$102,770,085 of bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized. The Authority believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Authority evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution. Only those institutions with an acceptable estimated risk level are used as depositories.

**Custodial credit risk of investments** - Custodial credit risk is the risk that in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investment policy

# December 31, 2022

requires that all investments not purchased directly from an issuer must be held in the name of the Authority, be purchased using the delivery vs. payment procedure, and be held in third party safekeeping. At year-end, none of the Authority's investments were subject to custodial credit risk due to one of the following:

- Investments were held by a third-party safe-keeper in the Authority's name
- Investments were held by the Authority's trustee in the Authority's name
- Investments were part of a mutual fund

*Interest rate risk* – Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Authority's investment policy addresses this risk by setting limits by investment fund type as follows:

| Investment fund   | Maturity maximum  |  |  |  |
|---|---|--|--|--|
| General Pool  | 1 year  |  |  |  |
| Bond Reserve  | 5 years   |  |  |  |
| Bond Payment and Capital Interest Funds<br>Construction Funds | 1 business day prior to bond payment date<br>Must match draw schedule or less |  |  |  |

Note: All Commercial Paper is limited by state statute to 270 days maximum

At year end, the deposits and investments of the primary government and the fiduciary fund totaled \$574,567,166. The average maturities of investments subject to interest rate risk at year end are as follows:

December 31, 2022

| Primary Government                        | Fair<br>Value     | Average<br>Maturity |
|---|-------------------|---------------------|
| Investments subject to risk:              | <br>              |                     |
| Bond reserves:                            |                   |                     |
| U.S. Treasuries                           | \$<br>5,339,781   | 9.6 months          |

| Total of investments subject to risk      | \$<br>324,976,241 |                     |
| Deposits/investments not subject to risk: |                   |                     |
| Deposits                                  | \$<br>102,550,392 |                     |
| Money market funds                        | 57,080,028        |                     |
| Total Primary Government                  | \$<br>484,606,661 |                     |
|   | Fair              |                     |
| Fiduciary Fund                            | Value             |                     |
| Deposits/investments not subject to risk: |                   |                     |
| Investment Pool                           | \$<br>89,960,505  |                     |
| Total Fiduciary Fund                      | \$<br>89,960,505  |                     |

**Concentration of credit risk** – Through its investment policy, the Authority places limits on the amount the Authority may invest in any one issuer, along with the minimal capital strength of those issuers. There are also limits as to the use of specific types of instruments, along with limits upon use of a single institution. These limits are as follows:

*Limits using capital strength test*: Maximum investment is 25 percent of combined capital and surplus position of that financial institution.

December 31, 2022

*Limits based upon use of specific instruments:* 

|                                |       | Actual at |
|--------------------------------|-------|-----------|
| Investment type                | Limit | Year-End  |
| Bankers' acceptances           | 50%   | - %       |
| Repurchase agreements          | 25    | -         |
| Certificates of deposit (bank) | 50    | -         |
| Money market funds             | 50    | 25.6      |
| Commercial paper               | 60    | 28.7      |
| U.S. Government                | 100   | 27.9      |

Limits based upon use of a single issuer:

| Investment type                | Limit                  |
|--------------------------------|------------------------|
| Bankers' acceptances           | 25% of total portfolio |
| Repurchase agreements          | 10% of total portfolio |
| Certificates of Deposit (bank) | 33% of total portfolio |
| Certificates of Deposit (S&L)  | 5% of total portfolio  |

Actual year-end investments in a single issuer exceeding 5 percent of total portfolio are as follows:

|                         |                  | Percentage of |           |        |  |
|-------------------------|------------------|---------------|-----------|--------|--|
| lssuer                  | Investment type  | Fair value    | Portfolio | Rating |  |
| Anglesea Funding, LLC   | Commercial paper | \$ 31,623,172 | 5.50%     | A1, P1 |  |
| Mountcliff Funding, LLC | Commercial paper | \$ 67,468,634 | 11.74%    | A1, P1 |  |

### (5) Fair Market Measurement

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Authority's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The Authority has the following recurring fair value measurements as of December 31, 2022:

• U.S. Treasury securities of \$20,171,152 - are valued using quoted market prices (Level 1 inputs).

### December 31, 2022

- Commercial paper of \$164,603,399 are valued using a matrix pricing model and par value (Level 2 inputs).
- U.S. Government Agency securities of \$140,201,690 are valued using quoted market prices and various market and industry inputs (Level 2 inputs).

A total of \$57,080,028 of bank pools are recorded at amortized cost in accordance with GASB Statement No. 79 and are not included in the fair value disclosures above.

*Investments in Entities that Calculate Net Asset Value Per Share* - The Authority holds an interest in the MERS Total Market Portfolio whereby the fair value of the investments are measured on a recurring basis using net asset value per share (or its equivalent) of the investment as a practical expedient. As of December 31, 2022, the fair value was \$89,960,505. There were no unfunded commitments or redemption rules.

The MERS Total Market Portfolio is a fully diversified portfolio combining traditional stocks and bonds with alternative asset classes, including real estate, private equity, and commodities. The objective is to provide current income and capital appreciation while minimizing the volatility of the capital markets. The Municipal Employees' Retirement System (MERS) manages the asset allocation and monitors the underlying investment managers of the MERS Total Market Portfolio.

### (6) Restricted Assets

In accordance with the terms of applicable ordinances and federal and state laws, the Authority is required to restrict assets for various purposes. Net position has been restricted related to certain restricted assets. A summary of the restricted assets at December 31, 2022 is as follows:

| Construction:                 |                |
|-------------------------------|----------------|
| Cash and investments          | 88,243,914     |
| Accounts receivable           | 7,428          |
| Total                         | 88,251,342     |
| Bond and interest redemption: |                |
| Cash and investments          | 161,931,290    |
| Accounts receivable           | 245,860        |
| Total                         | 162,177,150    |
| Total restricted assets       | \$ 250,428,492 |

# (7) Capital Assets

Capital asset activity for the year ended December 31, 2022 was as follows:

|  |                                       | Beginning<br>balance   | Increases  | Decreases   | Ending<br>balance   |
|--|---------------------------------------|--|--|---|---|
| Detroit Metropolitan Airport Fund:   | _                                     |  |  |   |   |
| Capital assets not being depreciated:  |                                       |  |  |   |   |
| Land and nondepreciable assets   | \$                                    | 224,367,511 \$   | - \$   | - \$  | 224,367,511   |
| Construction in progress   |                                       | 64,510,222   | 77,707,216   | (73,182,798)  | 69,034,640  |
| Total capital assets not   |                                       |  |  |   |   |
| being depreciated  | _                                     | 288,877,733  | 77,707,216   | (73,182,798)  | 293,402,151   |
| Capital assets being depreciated:  |                                       |  |  |   |   |
| Buildings and improvements   |                                       | 2,166,757,454  | 1,178,061  | -   | 2,167,935,515   |

#### December 31, 2022

Pursuant to the Authority Act, the Authority is liable for all of the obligations with respect to the Authority and is obligated to perform all of the duties, and is bound by all of the covenants, with respect to the Authority under any ordinances (including Ordinance 319), agreements or other instruments and under law. Under the Authority Act, all airport revenue bonds issued by the Authority may be issued on a parity basis with the Outstanding Senior Lien Bonds and Additional Bonds issued by the Authority under the Master Bond Ordinance and secured by net revenues.

Net revenues (as defined in the various bond ordinances) of Metro Airport have been pledged toward the repayment of the Airport Revenue Bonds. Net revenues consist of operating revenues, beginning revenue fund cash balance, interest income and other, federal and state sources, passenger facility charges, and customer facility charges reduced by operating expenses not including depreciation. For the year ended December 31, 2022, the net revenue was approximately \$238,635,000 compared to the net debt service (senior lien and junior lien principal and interest) of approximately \$180,391,000.

The Airport Revenue Bond Ordinances require that Metro Airport reserve assets to provide for the operations, maintenance, and administrative expenses of the subsequent month, the redemption of bond principal and interest, and for other purposes as defined in those ordinances.

During the year, the Authority reestablished a \$25 million line of credit facility with a bank to provide liquidity for funding of operation and maintenance expenses. The line of credit represents a direct borrowing and carries a variable interest rate based on BSBY (Bloomberg Short-Term Bank Yield Index) plus a spread ranging from 40 - 80 basis points. At December 31, 2022, the outstanding balance on the line of credit was \$0.

### Direct Placement Debt – Detroit Metropolitan Airport Fund

In September 2015, the Authority issued a \$75 million Direct Placement Bond with Bank of America, N.A., Series 2015B Bonds. The Series 2015B Refunding Bonds were issued to refund a portion of the Series 2005A Bonds which were initially issued to finance the cost of various capital projects at Metro Airport. The Series 2015B Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

The Authority defeased the Series 2005A Bonds by placing the proceeds of the Series 2015B Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2005A Bonds were subsequently called and paid in full in December 2015. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$16 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$12.7 million.

In September 2015, the Authority issued a \$25.6 million Direct Placement Bond with Citibank, N.A., Series 2015C Bonds. The Series 2015C Refunding Bonds were issued to refund a portion of the Series 2005A Bonds which were initially issued to finance the cost of various capital projects at Metro Airport. The Series 2015C Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

### December 31, 2022

The Authority defeased the Series 2005A Bonds by placing the proceeds of the Series 2015C Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2005A Bonds were subsequently called and paid in full in September 2015. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$4.4 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$3.5 million.

In October 2017, the Authority issued a \$24.6 million Direct Placement Bond with Citibank, N.A., Series 2017C Jr. Lien Bonds. The Series 2017C Jr. Lien Bonds were issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2017C Jr. Lien Refunding Bonds were issued to refund a portion of the Series 2007A Jr. Lien Bonds. The Series 2017C Jr. Lien Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport and available after net revenues have first been set aside as required to pay the principal and interest and redemption price, if any, of Senior Lien Bonds as provided in the Ordinance. The Series 2017C Jr. Lien Bonds are "Junior Lien Bonds" under the Ordinance, and a statutory lien subordinate to the prior lien in respect of Senior Lien Bonds has been established under the Ordinance upon and against the net revenues to secure the payment of the Series 2017C Jr. Lien Bonds.

The Authority defeased the Series 2007A Jr. Lien Bonds by placing the proceeds of the Series 2017C Jr. Lien Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2007A Jr. Lien Bonds were subsequently called and paid in full in December 2018. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$6.8 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$4.3 million.

In December 2017, the Authority issued a \$67.8 million Direct Placement Bond with Citibank, N.A., Series 2017E Bonds. The Series 2017E Refunding Bonds were issued to refund the Series 2013B Direct Placement Bonds which were initially issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2017E Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

The Authority defeased the Series 2013B Direct Placement Bond by placing the proceeds of the Series 2017E Bonds in the 2013B Bond Fund to be immediately paid to the Direct Placement Bondholder. The Series 2013B Direct Placement Bond was paid in full on December 21, 2017.

In December 2017, the Authority issued a \$114.3 million Direct Placement Bond with Bank of America, N.A., Series 2017F Bonds. The Series 2017F Refunding Bonds were issued to refund the Series 2013C Direct Placement Bonds which were initially issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro

December 31, 2022

Airport. The Series 2017F Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

The Authority defeased the Series 2013C Direct Placement Bond by placing the proceeds of the Series 2017F Bonds in the 2013C Bond Fund to be immediately paid to the Direct Placement Bondholder. The Series 2013C Direct Placement Bond was paid in full on December 21, 2017.

In April 2019, the Authority issued a \$29.8 million Direct Placement Bond with DNT Asset Trust, Series 2019 Bonds. The Series 2019 Refunding Bonds were issued to refund the Series 2014A Direct Placement Bond which was initially issued to finance the cost of various capital projects at Metro Airport. The Series 2019 Bonds are revenue obligations of the Authority payable solely from the operations of Metro Airport.

The Authority defeased the Series 2014A Direct Placement Bond by placing the proceeds of the Series 2019 Bonds in the 2014A Bond Fund to be immediately paid to the Direct Placement Bondholder. The Series 2014A Direct Placement Bond was paid in full on April 18, 2019. An estimate of the minimum economic gain (the difference between the present value of the debt service payments on the old and new debt) has not been calculated due to the uncertainty of future debt service payments for the 2014A Direct Placement Bond, which was a variable interest obligation.

In December 2020, the Authority issued \$198.1 million in direct placement bonds. An \$85.6 million Direct Placement Bond with Bank of America, N.A., Series 2020B Bonds, and a \$112.5 million Direct Placement Bond with JPMorgan Chase Bank, N.A., Series 2020C Bonds. The Series 2020B and 2020C Refunding Bonds were issued to refund the Series 2017D Direct Placement Bond which was initially issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2020B and 2020C Bonds are revenue obligations of the Authority payable solely from the operations of Metro Airport.

The Authority defeased the Series 2017D Direct Placement Bond by placing the proceeds of the Series 2020B and 2020C Bonds in the 2017D Bond Fund to be immediately paid to each respective Direct Placement Bondholder. The Series 2017D Direct Placement Bond was paid in full on December 1, 2020. An estimate of the minimum economic gain (the difference between the present value of the debt service payments on the old and new debt) has not been calculated due to the uncertainty of future debt service payments for the 2017D Direct Placement Bond and the 2020B and 2020C Direct Placement Bonds, all of which are variable interest obligations.

The Series 2020B and 2020C Bonds are variable-rate bonds. The Series 2020B Bonds bear interest at a rate of 80% of BSBY (Bloomberg Short-Term Bank Yield Index) plus a margin ranging from 40-100 basis points, depending on the Authority's credit rating. The Series 2020C Bonds bear interest at a rate of 80% of LIBOR plus a margin ranging from 84-104 basis points, depending on the Authority's credit rating. Each bondholder is responsible under their respective agreements with the Authority to calculate the interest rate monthly.

### December 31, 2022

In December 2022, the Authority issued a \$21 million Direct Placement Bond with The Huntington National Bank, Series 2022 Bonds. The Series 2022 Refunding Bonds were issued to refund the Series 2020A Direct Placement Bond which was initially issued to refund certain outstanding indebtedness previously issued to refinance the cost of the Westin Hotel located in the McNamara Terminal. The Series 2022 Bonds are revenue obligations of the Authority payable solely from the operations of Metro Airport.

The Authority defeased the Series 2020A Direct Placement Bond by placing the proceeds of the Series 2022 Bonds in the 2020A Bond Fund to be immediately paid to the Direct Placement Bondholder. The Series 2020A Direct Placement Bond was paid in full on December 1, 2022. An estimate of the minimum economic gain (the difference between the present value of the debt service payments on the old and new debt) has not been calculated due to the uncertainty of the future debt service payments for the 2020A Direct Placement Bond and the 2022 Direct Placement Bond, both of which are variable interest obligations.

The Series 2022 Bonds are variable-rate bonds which bear interest at 80% of adjusted SOFR (Secured Overnight Financing Rate) plus a margin ranging from 55-80 basis points, depending on the Authority's credit rating. The Huntington National Bank is responsible under an agreement with the Authority to calculate the interest rate monthly.

### Direct Placement Debt – Detroit Metropolitan Airport Fund- Additional Information

The Authority's Series 2020B Bonds, 2020C Bonds, and 2022 Bonds are subject to continuing covenant agreements. Significant events of default under each continuing covenant agreement include: (1) the failure to pay when due the principal, premium, or interest on the applicable series of bonds, or to pay any other obligation (other than the obligation to pay the principal of or interest on the applicable series of bonds) and the failure to pay the obligation shall continue for three business days; (2) any representation, warranty, or statement made by the Authority in the applicable continuing covenant agreement proves to have been untrue in any material respect and is not corrected within the applicable cure period; (3) any document furnished to the applicable purchaser by the Authority in connection with the transactions contemplated by the applicable continuing covenant agreement, taken as a whole, proves to be materially inaccurate; (4) the failure of the Authority to perform or observe any of the affirmative or negative covenants specified in the applicable continuing covenant agreement (certain of which contain limited or no notice or cure rights, and others of which constitute events of default only after the passage of thirty days during which default is not remedied); (5) the occurrence of certain bankruptcy or insolvency events; (6) the long-term unenhanced ratings assigned to any of the Authority's outstanding debt secured by Net Revenues are reduced below "BBB" by Fitch, "Baa2" by Moody's, or "BBB" by S&P, or such ratings are withdrawn or suspended; (7) the entry of a final and non-appealable judgment against the Authority for the payment of money equaling or exceeding \$5,000,000, to be paid out of Net Revenues, that remains unsatisfied for a period of sixty days; (8) the Authority shall default in any payment of any outstanding parity debt or debt secured by Net Revenues, beyond the applicable grace period, or shall default in the observance or performance of any agreement or condition

relating to any outstanding parity debt or debt secured by Net Revenues, beyond the applicable grace period.

Upon occurrence of an event of default under the applicable continuing covenant agreement, the bondholder may exercise certain rights and remedies, including the right to require the Authority to cause a mandatory tender of the Bonds governed by the continuing covenant agreement and/or declare the unpaid principal amount and interest accrued on all such Bonds due and payable.

The Authority's Series 2015B, 2015C, 2017E, 2017F and 2019 Bonds, and its Series 2017C Junior Lien Bonds, are all subject to bond purchase agreements which provide no significant events of default with finance-related consequences, termination events with finance-related consequences or subjective acceleration clauses.

# Other Debt – Detroit Metropolitan Airport Fund

In September 2012, the Authority issued \$202.7 million in Wayne County Airport Authority Airport Revenue Bonds to provide funds to pay a portion of the costs of certain capital improvements at Metro Airport. These projects include the reconstruction and rehabilitation of airfield pavement and parking decks/lots, the replacement and construction of support facilities, acquisition of fleet and heavy equipment, design of powerhouse control room, watermain replacements, security network upgrades and roof replacements. The Series 2012A Bonds and Series 2012B Bonds are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from the operations of Metro Airport.

In September 2012, the Authority issued \$75.4 million in Wayne County Airport Authority Airport Revenue Refunding Bonds, Series 2012C and 2012D. The Series 2012C and 2012D Bonds were issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2012C Refunding Bonds were issued to refund a portion of the Series 2002C Bonds. The Series 2012D Refunding Bonds were issued to refund a portion of the Series 1998A Bonds and the Series 2002D Bonds. The Series 2012C Bonds and Series 2012D Bonds are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from the operations of Metro Airport. The 2012C Bonds were paid in full on December 1, 2020.

The Authority defeased the refunded portions of the Series 1998A Bonds, the refunded portions of the Series 2002C Bonds and the refunded Series 2002D Bonds by placing the proceeds of the Series 2012C Bonds and Series 2012D Bonds in an irrevocable trust to provide for all future debt service payments. The Series 1998A Bonds, Series 2002C Bonds and Series 2002D Bonds were subsequently called and paid in full in October 2012 and December 2012. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$10.0 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$7.8 million.

### December 31, 2022

In August 2014, the Authority issued \$98.4 million in Wayne County Airport Authority Airport Revenue Bonds to provide funds to pay a portion of the costs of certain capital improvements at Metro Airport. These projects include taxiway rehabilitation and reconstruction, road reconstruction, bridges and roadway rehabilitation, fleet and heavy equipment acquisitions, various electrical projects, power plant equipment replacements and demolition of various buildings. The Series 2014B Bonds and Series 2014C Bonds are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from the operations of Metro Airport.

In October 2015, the Authority issued \$221.1 million in Wayne County Airport Authority Airport Revenue Bonds to provide funds to pay a portion of the costs of certain capital improvements at Metro Airport. These projects include reconstruction and rehabilitation of airfield pavement, acquisition of fleet and heavy equipment, roadway rehabilitation and lighting, GTC heating system reconfiguration, retaining wall reconstruction, construction of an administration building, power plant building rehabilitation and security system upgrades. The series 2015D Bonds and Series 2015E Bonds are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from the operations of Metro Airport.

In October 2015, the Authority issued \$299 million in Wayne County Airport Authority Airport Revenue Refunding Bonds, Series 2015F and 2015G. The Series 2015F and 2015G Bonds were issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2015F Refunding Bonds were issued to refund a portion of the Series 2005A Bonds. The Series 2015G Refunding Bonds were issued to refund a portion of the Series 2001A Airport Hotel Revenue Bonds. The Series 2015F Bonds and the Series 2015G Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

The Authority defeased the refunded portion of the Series 2005A Bonds and the refunded portion of the Series 2001A Bonds by placing the proceeds of the Series 2015F Bonds and Series 2015G Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2005A Bonds and the Series 2001A Bonds were subsequently called and paid in full in December 2015. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$27.1 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$29.6 million.

In October 2017, the Authority issued \$91.4 million in Wayne County Airport Authority Airport Revenue Bonds to provide funds to pay a portion of the costs of certain capital improvements at Metro Airport. These projects include reconstruction and rehabilitation of airfield pavement, acquisition of fleet and heavy equipment, roadway rehabilitation, improvements to the baggage handling system at the McNamara Terminal and improvements to the passenger tram control system at the McNamara Terminal. The series 2017A Bonds and Series 2017B Bonds are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from the operations of Metro Airport.

In October 2017, the Authority issued \$78.4 million in Wayne County Airport Authority Airport Revenue Refunding Bonds, Series 2017C. The Series 2017C Bonds were issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2017C Refunding Bonds were issued to refund the Series 2007B Bonds. The Series 2017C Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

The Authority defeased the refunded portion of the Series 2007B Bonds by placing the proceeds of the Series 2017C Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2007B Bonds were subsequently called and paid in full in December 2017. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$15.2 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$12.8 million.

In October 2017, the Authority issued \$109.1 million in Wayne County Airport Authority Airport Revenue Refunding Bonds, Series 2017A Jr. Lien and 2017B Jr. Lien. The Series 2017A Jr. Lien and 2017B Jr. Lien Bonds were issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2017A Jr. Lien and Series 2017B Jr. Lien Refunding Bonds were issued to refund a portion of the Series 2007A Jr. Lien Bonds. The Series 2017A Jr. Lien Bonds and the Series 2017B Jr. Lien Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport and available after net revenues have first been set aside as required to pay the principal and interest and redemption price, if any, of Senior Lien Bonds are "Junior Lien Bonds" under the Ordinance, and a statutory lien subordinate to the prior lien in respect of Senior Lien Bonds has been established under the Ordinance upon and against the net revenues to secure the payment of the Series 2017A Jr. Lien Bonds and Series 2017B Jr. Lien Bonds.

The Authority defeased the refunded portion of the Series 2007A Jr. Lien Bonds by placing the proceeds of the Series 2017A Jr. Lien Bonds and Series 2017B Jr. Lien Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2007A Jr. Lien Bonds were subsequently called and paid in full in December 2017. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$26 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$18.8 million.

In November 2018, the Authority issued \$153.4 million in Wayne County Airport Authority Airport Revenue Bonds to provide funds to pay a portion of the costs of certain capital improvements at Metro Airport. These projects include reconstruction and rehabilitation of airfield pavement, site demolitions and North Terminal Gate Expansion. The Series 2018A Bonds and Series 2018B Bonds

are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from the operations of Metro Airport.

In November 2018, the Authority issued \$78.5 million in Wayne County Airport Authority Airport Revenue Refunding Bonds, Series 2018C and 2018D. The Series 2018C and 2018D Bonds were issued to refund certain outstanding indebtedness previously issued to finance or refinance the cost of various capital projects at Metro Airport. The Series 2018C and 2018D Refunding Bonds were issued to refund the Series 2008A Bonds. The Series 2018C and 2018D Bonds are revenue obligations of the Authority payable solely from the revenues derived by the Authority from the operations of Metro Airport.

The Authority defeased the refunded portion of the Series 2008A Bonds by placing the proceeds of the Series 2018C Bonds and the Series 2018D Bonds in an irrevocable trust to provide for all future debt service payments. The Series 2008A Bonds were subsequently called and paid in full in December 2018. The difference between the cash flows required to service the new debt and complete the refunding was approximately \$16.4 million. The Authority estimates its minimum economic gain (difference between the present value of the debt service payments on the old and new debt) was approximately \$11.7 million.

In June 2021, the Authority issued \$150.8 million in Wayne County Airport Authority Airport Revenue Bonds to provide funds to pay a portion of the costs of certain capital improvements at Metro Airport. These projects include reconstruction and rehabilitation of airfield pavement, power plant lines, parking deck/parking lot rehabilitations and repairs and other airport facility projects. The Series 2021A Bonds and Series 2021B Bonds are revenue obligations of the Authority payable solely from the net revenues derived by the Authority from operations of Metro Airport.

### Other Debt – Detroit Metropolitan Airport Fund – Additional Information

The Authority's Series 2012A, 2012B, 2012D, 2014B, 2014C, 2015D, 2015E, 2015F, 2015G, 2017A, 2017B, 2017C, 2017A Jr. Lien, 2017B Jr. Lien, 2018A, 2018B, 2018C, 2018D, 2021A and 2021B Bonds are each subject to the provisions of specific Series Ordinances as well as the Authority's Master Bond Ordinance. Neither the Series Ordinances nor the Master Bond Ordinance provides significant events of default with finance-related consequences, termination events with finance-related consequences or subjective acceleration clauses.

### Other Debt – Willow Run Airport

In May 2014, the Authority entered into a loan agreement with Downriver Community Conference (DCC) to assist Willow Run Airport with remediation activities at Hangar 2. The loan agreement with the DCC defines certain events of default with finance-related consequences. The events of default as defined in the agreement are summarized as follows: (a) default in any payment (b) any representation or warranty made by the Authority that proves at the time made were false or misleading in any material respect; (c) use of the proceeds of the loan for purposes other than those stated in section 3 of the loan agreement or approved in writing by the DCC; (d) default in the performance of any other term, covenant or agreement contained herein, or in the loan documents,

### December 31, 2022

which by default is not cured within 30 days of receipt of a notice of default or such longer period as shall be reasonably necessary to cure such default provided the Authority promptly commences such cure and thereafter diligently pursues such cure to completion; (e) the Authority defaults under the terms of article 4 of the agreement. Article 4 provides that: (1) the Authority will not pledge its Airport Development Fund ("ADF") to secure any debt of the Borrower without the written consent of the DCC; (2) the Authority will maintain available funds in the ADF in an amount not less than the then outstanding balance due under the loan.

Upon the occurrence of an event of default, any indebtedness under the loan agreement shall, at the DCC's option and without notice, become immediately due and payable without presentment, notice or demand.

### Long-term debt activity for the year ended December 31, 2022 was as follows:

### (9) Commitments and Contingencies

#### (a) Litigation

The Authority is a defendant in a number of lawsuits and claims that have resulted from the ordinary course of providing services. The ultimate effect on the Authority's financial statements upon the resolution of these matters is, in the opinion of the Authority's counsel, not expected to be material.

### (b) Construction

The estimated costs to complete Metro Airport's current capital improvement program totaled \$986.3 million at December 31, 2022, which will be funded by previously issued and anticipated debt, federal grants, and passenger facility charges. Unexpended commitments on construction and professional services contracts in connection with Metro Airport's program totaled \$37.4 million at December 31, 2022.

### December 31, 2022

The estimated costs to complete Willow Run Airport's current capital improvement program totaled \$94.9 million at December 31, 2022, which will be funded with federal and state grants. Unexpended commitments on construction and professional services contracts in connection with Willow Run Airport's program totaled \$76 million at December 31, 2022.

# (c) Environmental Matters

Environmental accruals are calculated and recorded using an expected cash flow technique applied to probabilities, ranges, and assumptions developed in response to a potential remediation liability as based on current law and existing technologies. At December 31, 2022, the Authority had accrued obligations of \$1.2 million for environmental remediation and restoration costs. This is management's best estimate of the costs with respect to environmental matters; however, these estimates contain inherent uncertainties primarily due to unknown conditions, changing regulations, and developing technologies. In accordance with GASB Statement 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, the liability has been recorded at the current value estimated using the expected cash flow technique, a probability-weighted approach. Nineteen percent of the recorded environmental liabilities are related to a Consent Decree and judgment issued during 1994 that identifies the Airport as one of the fourteen responsible parties to the improvements to the Wayne County Downriver Sewage Disposal System (the System). The remainder is for asbestos remediation estimates. See additional discussion on asbestos and other remediation matters below.

### Asbestos Remediation

It is known that certain Willow Run Airport buildings hold asbestos-containing materials (ACMs) that will need to be disposed of upon demolition of affected structures. While the pollutant is currently contained due to prior remediation efforts during the late 1980's and early 1990's, environmental assessments have indicated that remediation will be necessary during the demolition of the affected buildings to ensure containment of the pollutants and proper disposal.

WCAA personnel, with the assistance of WCAA contractors, have performed preliminary assessments of the nature and extent of the material. Based upon the information gathered and provided the Authority has recorded asbestos-related liabilities of \$940,000 at Willow Run Airport as of December 31, 2022.

### Additional Remediation Matters

In the mid-1990's, it was discovered that soils near the Willow Run airport were adversely impacted. Various public and private entities (including the County of Wayne, the predecessor entity to WCAA) were tasked by the Environmental Protection Agency (EPA) to remediate the areas. The soils were dredged from Tyler Pond, Edison Pond, and the Willow Run Sludge Lagoon. Subsequently, the materials were encapsulated and placed in an approved landfill. Pursuant to the various documents and orders governing the remediation, title to the real property where the controlled facility is located was to be transferred to General Motors because General Motors was documented as the main Partial Responsible Party (PRP). In June of 2009, before taking title to the real property, where the controlled facility is located, General Motors filed for bankruptcy protection. As such, Ford

### December 31, 2022

Motor Company became the foremost PRP by default. While Ford Motor Company has continued to operate the controlled facility, to date, and despite the WCAA's attempts, Ford Motor Company has not taken title to the real property where the controlled facility is located. WCAA is in negotiation to facilitate the transfer of real property to the Ford Motor Company.

# (10) Employee Benefits

# (a) Plan Description

The Authority provides retirement benefits to its employees through the Wayne County Employees' Retirement System (WCERS), an agent multi-employer public employee retirement system that is governed by the Wayne County Retirement Ordinance as amended. The Retirement System provides both defined benefit plan and defined contribution plan retirement options. The Defined Benefit Plan consists of Plan Option 1, Plan Option 2, Plan Option 3, Plan Option 5 and Plan Option 5A (collectively, the Plan). Three of the Plan options require employee contributions (Plan Option 1, Plan Option 3 and Plan Option 5A) and two do not require employee contributions (Plan Option 2 and Plan Option 5). Two of the Plan options are hybrid plans (Plan Option 5 and Plan Option 5A) which consist of both a defined benefit component and a defined contribution component. The Defined Contribution Plan consists of Plan Option 4, Plan Option 4A, Plan Option 5 and Plan Option 5A.

The Retirement System provides retirement, survivor, and disability benefits to substantially all County and Authority employees. The Retirement Board issues separate financial statements for the Defined Benefit Plan and the Defined Contribution Plan annually. Copies of these financial statements can be obtained at 28 W. Adams, Suite 1900, Detroit, Michigan 48226. The statements are also available on WCERS website at www.wcers.org.

Effective October 1, 2012, WCERS established Wayne County Defined Contribution Plan 4A and Wayne County Hybrid Retirement Plan 5A, which contains both a defined benefit component and a defined contribution component. Participants in the plan options previously in existence (Plan Option 4 and Plan Option 5) could elect to transfer their account balances to Plan Option 5A. Plan Options 1, 2, 3, and 4 were closed to new hires.

At the September 30, 2022 measurement date, the following employees were covered by the Plan:

| Inactive Plan Members or Beneficiaries Currently Receiving Benefits | 298 |
|---|-----|
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits    | 11  |
| Active Plan Members   | 240 |
| Total Plan Members  | 549 |

December 31, 2022

### (b) Pension Benefits

Benefits are paid monthly over the member's or survivor's lifetime, after meeting normal retirement or duty disability retirement requirements, which vary by option, based on the following percentages of average final compensation, for each year of credited service:

**Plan Option 1** – 2.65 percent for each year of service. Maximum Authority-financed portion is 75 percent of average final compensation (less workers' compensation payments). Minimum monthly pension is \$5 times years of service.

**Plan Option 2** - 1.00 percent for each year up to 20 years and 1.25 percent for each year over 20 years. Maximum Authority-financed portion is 75 percent of average final compensation (less worker's compensation payments).

**Plan Option 3** – 1.50 percent for each year up to 20 years, 2 percent for each year between 20 and 25 years, and 2.5 percent for each year over 25 years. Maximum Authority-financed portion is 75 percent of average final compensation (less workers' compensation payments).

**Plan Option 5** – 1.25 percent for each year up to 20 years and 1.5 percent for each year over 20 years. Maximum pension is 75 percent of average final compensation (less workers' compensation payments). For members of International Association of Fire Fighters Local 741, 2.0 percent for each year of service credited after July 24, 2019.

**Plan Option 5A** – 1.50 percent for each year up to 20 years and 1.75 percent for each year over 20 years. Maximum pension is 75 percent of average final compensation (less workers' compensation payments). For members of International Association of Fire Fighters Local 741, 2.0 percent for each year of service credited after July 24, 2019.

**Death and disability benefits** – The Plan also provides nonduty death and disability benefits to members after 10 years of credited service for Plan Options 1, 5 and 5A, along with nonduty disability for Plan Option 2 and nonduty death benefits for Plan Option 3. The 10-year service provision is waived for duty disability and death benefits for Plan Options 1, 5 and 5A and duty disability for Plan Option 2.

### (c) Contributions

Participants in Plan Option 1 contribute 2.00 percent to 6.58 percent of annual compensation, depending on years of credited service. Participants in Plan Option 2 do not make plan contributions, but receive a lower final benefit. Plan Option 3 participants make contributions of 3.0 percent of covered compensation and receive a lower final benefit.

### December 31, 2022

Participants in Plan Option 5 with a 1.25/1.5 percent multiplier contribute 0 percent of covered compensation depending on the collective bargaining agreement. Participants in Plan 5 who are members of International Association of Fire Fighters Local 741 contribute 6.0 percent.

Participants in Plan 5A contribute 2.00 percent of annual compensation, unless the Annual Actuarial Valuation Report of the Wayne County Employees' Retirement System show the Authority's funding level less than 100 percent, then the participant's contribution level will increase to 3.00 percent until the funding level is at 100 percent. Participants in Plan 5A who are members of International Association of Fire Fighters Local 741 contribute 6.00 percent.

The obligation to contribute and to maintain the Plan for these employees was established by negotiations with the County's and subsequently the Authority's collective bargaining units. For the year ended December 31, 2022, the Authority's contribution was \$6,254,064.

# (d) Pension Plan Investments – Policy and Rate of Return

The Retirement Commission is vested with a fiduciary responsibility for administration, management, and proper operation of WCERS. The Plan's assets are held and invested in accordance with the Michigan Public Pension Investment Act 314 of 1965, as amended (Act 55, P.A. 1982). Act 314 incorporates the prudent person rule and requires investment fiduciaries to act solely in the interest of the Plan's participants and beneficiaries.

Accordingly, the Retirement Commission has the authority to invest the Plan's assets in common and preferred stock, obligations of the United States, its agencies or United States governmentsponsored enterprises, obligations of any state or political subdivision of a state having the power to levy taxes, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, reverse repurchase agreements, real and personal property, mortgages, and certain other investments.

*Investment Allocation Policy.* The Retirement Commission has established an investment policy statement ("IPS") for the Plan. The IPS outlines the goals and investment objectives of WCERS and is intended to provide guidelines for the investment and management of the Plan's assets. The IPS pursues an investment strategy that protects the financial health of the Plan and reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. Plan assets are invested in the broad investment categories and asset classes to achieve the allocation targets in the below table. Recognizing that returns may vary, causing fluctuations in the relative dollar value levels of assets within classes, the Plan may not maintain strict adherence to the targets in the short-term, but may allow the values to fluctuate within these ranges. Over the long term, the Plan will strive to adhere to the given targets as financially practicable and move toward target allocations in a prudent manner consistent with its fiduciary duty.

The adopted asset allocation policy as of September 30, 2022, was as follows:

#### December 31, 2022

|                               |            | Allocatio | on Range |
|-------------------------------|------------|-----------|----------|
|                               | Target     |           |          |
| Asset Class                   | Allocation | Minimum   | Maximum  |
| Equity                        | 50%        | 40%       | 70%      |
| Domestic fixed income         | 20%        | 5%        | 50%      |
| International fixed income    | 0%         | 0%        | 20%      |
| Real estate                   | 15%        | 5%        | 20%      |
| Alternative investments       | 15%        | 10%       | 20%      |
| Michigan-based private equity | 0%         | 0%        | 2%       |
| Short-term or cash            | 0%         | 0%        | 5%       |
|                               | 100%       |           |          |

*Rate of Return*. For the year ended September 30, 2022, the annual money-weighted rate of return on plan investments, net of investment expenses, was negative 12.85 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

### (e) Net Pension Liability

The Authority has chosen to use September 30, 2022 as its measurement date for the net pension liability. The December 31, 2022 reported net pension liability was determined using a measure of the total pension liability and the pension net position as of September 30, 2022. The September 30, 2022 total pension liability was determined by an actuarial valuation performed as of September 30, 2021.

Changes in the net pension liability during the measurement year were as follows:

|                                     |    | Total Pension<br>Liability | <br>Plan Net Position | Net Pension<br>Liability |
|-------------------------------------|----|----------------------------|-----------------------|--------------------------|
| Balance at September 30, 2020       | \$ | 190,594,400                | \$<br>165,113,711     | \$<br>25,480,689         |
| Changes for the year:               |    |                            |                       |                          |
| Service cost                        |    | 1,632,034                  | —                     | 1,632,034                |
| Interest                            |    | 12,531,150                 | —                     | 12,531,150               |
| Changes to benefit terms            |    | —                          | —                     | —                        |
| Experience differences              |    | (3,351,015)                | —                     | (3,351,015)              |
| Changes in actuarial assumptions    |    | —                          |                       |                          |
| Contributions - employer            |    | —                          | 6,494,867             | (6,494,867)              |
| Contributions - employee            |    | —                          | 434,529               | (434,529)                |
| Net investment income               |    | —                          | (20,743,013)          | 20,743,013               |
| Benefit payments, including refunds |    | (11,531,238)               | (11,531,238)          | —                        |
| Administrative expenses             |    | —                          | (441,867)             | 441,867                  |
| Other                               | _  | 3,740                      |                       | <br>3,740                |
| Balance at September 30, 2021       | \$ | 189,879,071                | \$<br>139,326,989     | \$<br>50,552,082         |

#### December 31, 2022

For the year ended December 31, 2022, the Authority recognized pension expense of \$6,518,765. At fiscal year end, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   |    | Deferred<br>Outflows of<br>Resources |    | Deferred<br>Inflows of<br>Resources |
|---|----|--------------------------------------|----|-------------------------------------|
| Net difference between projected and actual | -  |                                      | _  |                                     |
| earnings on pension plan investments        | \$ | 13,316,795                           | \$ |                                     |
| Changes in actuarial assumptions            |    | 4,311,381                            |    | —                                   |
| Difference between projected and actual     |    |                                      |    |                                     |
| experience                                  |    | —                                    |    | (5,057,260)                         |
| Employer contributions to the plan          |    |                                      |    |                                     |
| subsequent to the measurement date          |    | 1,789,119                            |    | —                                   |
| Total                                       | \$ | 19,417,295                           | \$ | (5,057,260)                         |

Deferred outflows of pension resources related to contributions after the measurement date will be a reduction of the net pension liability at September 30, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal Year |     | Ouflow     |
|-------------|-----|------------|
| 2022        | \$  | 2,858,616  |
| 2023        |     | 2,530,153  |
| 2024        |     | 838,555    |
| 2025        |     | 6,343,592  |
| 2026        |     | —          |
| Thereafter  | _   |            |
| Total       | \$_ | 12,570,916 |
|             | -   |            |

Actuarial Assumptions. The total pension liability in the September 30, 2021 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

| Inflation                 | 3.0%                               |
|---------------------------|------------------------------------|
| Salary increases          | 3.0% to 13.15% including inflation |
| Investment rate of return | 6.75%                              |

The mortality tables used to measure post-retirement mortality was 105% of the PubG-2010 Retiree Mortality tables for males and females. Mortality rates for a particular calendar year are determined by applying the MP-2020 Mortality Improvement scale to the above described tables. The corresponding disabled and employee tables were used for disability and pre-retirement mortality, respectively.

The actuarial assumptions used to calculate contribution rates in the September 30, 2021 valuation were determined using an experience-based table of rates specific to the type of eligibility

### December 31, 2022

condition. The experience-based table of rates was last updated for the 2021 valuation pursuant to an experience study of the period beginning October 1, 2015 and ending September 30, 2020.

*Discount Rate.* The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine this rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The assumed rate of investment return was adopted by the plan's trustees after considering input from the plan's investment consultant(s) and actuary. Additional information about the assumed rate of investment return is included in the September 30, 2021 actuarial valuation report.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rate of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class, and in conjunction with a formal study of experience during the period October 1, 2015 through September 30, 2020. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For each major asset class that is included in the pension plan's target asset allocation as of September 30, 2022, these best estimates of the arithmetic real rates of return are as follows:

| Long Term   |
|-------------|
| Real Return |
| 4.82%       |
| 4.91%       |
| 1.05%       |
| 2.51%       |
| 6.37%       |
| 5.08%       |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the Authority, calculated using the discounted rate of 6.75 percent, as well as what the Authority's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate.

WAYNE COUNTY AIRPORT AUTHORITY

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued financial report. For purposes of measuring the net pension liability, deferred outflows of resources or deferred inflow of resources related to pension and pension expense, information about the Plan's fiduciary net position and addition to/deduction from fiduciary net position have been determined on the same basis as they are reported by the Plan. The Plan uses the economic resources measurement focus and the full accrual basis of accounting, and investments are stated at fair value. Member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with benefit terms.

# (f) Pre-2002 Retirees

The Authority participates in the Wayne County Employees' Retirement System with the County, an agent multiple employer defined benefit plan. Pursuant to Public Act 90 and Michigan Public Act of 2002, the Authority was granted operational jurisdiction of the Detroit Metropolitan Wayne County Airport, the Willow Run Airport, and the Airport Hotel, with the exclusive right, responsibility, and authority to occupy, operate, control, and use them. Prior to the Act, the Authority and its employees were employees of the County. In connection with the Authority's assumption of control and operation of the Airports pursuant to Act 90, the Authority was responsible for funding any retirement obligations for those employees that were previously County employees. During fiscal year 2016, the Authority committed to a five-year payment schedule of \$1.1 million per guarter for its estimated share (10.25 percent) of the Combined Pre-2002 Retiree Liability of \$20,948,822 as of September 30, 2015. The terms of this commitment were memorialized in a memorandum of understanding between the Authority, Wayne County and WCERS in fiscal year 2017. The Authority has concluded that this arrangement represents a special funding situation under GASB 68. The Authority has made all payments as required by the memorandum of understanding. The Authority has recorded an estimated liability for further obligations related to pre-2002 retirees of approximately \$6.8 million at December 31, 2022.

### December 31, 2022

#### (g) Retirement System Wayne County Employees' Defined Contribution Plan

The Wayne County Employees' Retirement System instituted a Defined Contribution Plan (Plan Option 4, Plan Option 4A, Plan Option 5 and Plan Option 5A) under the County's Enrolled Ordinance No. 86-486 (November 20, 1986), as amended. The Plan was established to provide retirement, survivor, and disability benefits to County and Authority employees. The administration, management, and responsibility for the proper operation of the Plan are vested in the trustees of the Wayne County Retirement Commission.

Under Plan Option 4, the Authority contributes \$4.00 for every \$1.00 contributed by each member or, for eligible executives, \$5.00 for every \$1.00 contributed by each member, with the member contributions ranging from 1.0 percent to 2.5 percent (3 percent for employees with 20 or more years of service and 3 percent for eligible executives with 10 or more years of service) of base compensation. Employees hired prior to July 1, 1984 were eligible to transfer from the WCERS Defined Benefit Plan to the Plan through September 30, 2002. Effective September 30, 2012, the Authority closed the Plan Option 4 to new hires.

Classified employees are vested as to employer contributions after three years of service, and executive members are vested after two years of service.

In Plan Option 4, members are able to receive loans from the Defined Contribution Plan. Only active employees with a vested account balance of \$2,000 or more are eligible. Interest on the loans is at the rate of five-year Treasury notes plus 300 basis points (3 percent), rounded to the nearest quarter of a percent.

Participants in Plan Option 4A must contribute 4 percent and can elect to contribute an additional 7.5 percent of their compensation. The Authority makes matching contribution of 8 percent of an employee's compensation. Employees are vested after three years.

Participants in Plan Option 5 and Plan Option 5A contribute 3 percent of gross pay. The Authority makes matching contributions at a rate equal to the amount contributed by each employee. Employees are vested at 50 percent after one year of service, 75 percent after two years of service, and 100 percent after three years of service.

The obligation to contribute and to maintain the Plan for these employees was established by negotiations with the Authority's collective bargaining units. Total Authority employer and employee contributions to the Plan during the year ended December 31, 2022 were \$3,955,439 and \$2,634,316, respectively.

### (h) Assumption Changes

There were no new assumption changes in effect during the measurement period.

### (11) Other Post-Employment Benefits

#### Wayne County Airport Authority Retiree Health Care Plan

### (a) Plan Description

As provided for in the Authority Act, the Authority provides hospitalization and other health insurance benefits for retirees, pursuant to agreements with various collective bargaining units or other actions of the Authority Board. Benefits are provided through the Wayne County Airport Authority Retiree Health Care Plan, a single employer defined benefit plan administered by the Municipal Employees' Retirement System (MERS). The plan does not issue a separate stand-alone financial statement.

At the September 30, 2021 valuation date, the following members were covered by the plan:

| Retirees and Beneficiaries Currently Receiving Benefits          | 338 |
|--|-----|
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits | 0   |
| Active Plan Members  | 290 |
| Total Plan Members   | 628 |

### (b) Benefits Provided

Benefits are provided after normal retirement or non-duty disability subject to age and service requirements established in respective collective bargaining agreements. Benefits are provided after duty disability with no age or service requirement. Medical and prescription drug coverage is provided to retirees under the age of 65 and their eligible dependents, and the cost of federal Medicare premiums and supplemental hospitalization is paid for retirees over 65 and their eligible dependents, as these costs are incurred by the retirees.

### (c) Contributions

In September 2008, the Authority created and began funding an Act 149 Health Care Trust (Trust). The Trust provides a funding mechanism for the Wayne County Airport Authority Retiree Healthcare Plan. In September 2012, the Authority transferred the assets of the Trust into a MERS of Michigan Retiree Health Funding Vehicle, which is held in a separate reserve, but invested on a pooled basis by MERS with other governmental units. The balance as of December 31, 2022 in this restricted plan is \$89,960,505.

Retiree healthcare costs are generally paid by the Authority on a "pay-as-you-go" basis, and funds are accumulated in the Trust for the payment of future benefits. The Authority is under no obligation to make contributions to the Trust in advance of when costs are incurred; however, the Authority's financial plan is to fund these obligations annually based upon the actuarial recommended contribution. Non-Medicare retirees are required to contribute either 10 percent of

the Blue Cross Blue Shield illustrative rate or 10 percent of the lesser of HAP active and HAP retiree premium. For the fiscal year ended December 31, 2021 the Authority paid postemployment healthcare benefits of \$5,280,830 while retiree contributions totaled \$659,485. No contributions to the Trust were made in 2022.

# (d) Net OPEB Liability

The Authority has chosen to use December 31, 2022 as its measurement date for the net OPEB liability. The December 31, 2022 fiscal year end reported net OPEB liability was determined using a measure of the total OPEB liability and the OPEB net position as of the December 31, 2022 measurement date. The December 31, 2022 total OPEB liability was determined by an actuarial valuation performed as of September 30, 2021. Update procedures were performed to roll forward the estimated liability to December 31, 2022.

Changes in the net OPEB liability during the measurement year were as follows:

| Total OPEB                          |     |                | Net OPEB          |             |
|-------------------------------------|-----|----------------|-------------------|-------------|
| Changes in Net OPEB Liability       |     | Liability      | Plan Net Position | Liability   |
| Balance at December 31, 2021        | \$  | 118,996,082 \$ | 100,601,942 \$    | 18,394,140  |
| Changes for the year:               |     |                |                   |             |
| Service cost                        |     | 1,011,983      | -                 | 1,011,983   |
| Interest                            |     | 8,180,316      | -                 | 8,180,316   |
| Differences between expected and    |     |                | -                 | -           |
| actual experience                   |     | 3,592,762      | -                 | 3,592,762   |
| Changes in actuarial assumptions    |     | 834,448        | -                 | 834,448     |
| Contributions - Employer            |     | -              | 5,280,830         | (5,280,830) |
| Contributions - Employee            |     | -              | 659,485           | (659,485)   |
| Net investment income               |     | -              | (10,641,437)      | 10,641,437  |
| Benefit payments, including refunds | _   | (5,280,830)    | (5,940,315)       | 659,485     |
| Net changes                         | -   | 8,338,679      | (10,641,437)      | 18,980,116  |
| Balance at December 31, 2022        | \$_ | 127,334,761 \$ | 89,960,505 \$     | 37,374,256  |

The Plan's fiduciary net position represents 70.65 percent of the total OPEB liability.

For the year ended December 31, 2022, the Authority recognized OPEB expense of \$65,591. At year end, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

# December 31, 2022

#### NOTES TO BASIC FINANCIAL STATEMENTS December 31, 2022 Deferred Deferred Outflows of Inflows of Resources Resources Difference between expected and actual experience Ś 2,497,141 \$ (9,042,424) Changes in actuarial assumptions 2,577,389 (70,483) Net difference between projected and actual earnings on OPEB plan investments 9,360,352 Total 14,434,882 \$ (9,112,907)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Fiscal Year |     | Amount      |
|-------------|-----|-------------|
| 2022        | \$  | (1,522,964) |
| 2023        |     | 326,232     |
| 2024        |     | 2,981,998   |
| 2025        |     | 3,536,709   |
| 2026        |     | -           |
| Thereafter  | _   | -           |
| Total       | \$_ | 5,321,975   |

Actuarial Assumptions. The total OPEB liability in the September 30, 2021 actuarial valuation was determined using a wage inflation assumption of 3.0 percent; assumed salary increases (including inflation) ranging from 3.0 percent to 13.15 percent; an investment rate of return (net of investment expenses) of 7.0 percent; an initial healthcare cost trend rate of 7.50/6.25 percent (non-Medicare, Medicare) for 2022, gradually decreasing to an ultimate rate of 3.5 percent for 2033 and later years; and using the PubG-2010 Retiree Mortality table with the MP-2020 mortality improvement scale. These assumptions were applied to all periods included in the measurement.

The actuarial assumptions used to calculate contribution rates in the September 30, 2021 valuation were determined using an experience-based table of rates specific to the type of eligibility condition. The experience-based table of rates was last updated pursuant to an experience study of the period beginning October 1, 2015 and ending September 30, 2020.

*Discount Rate.* The discount rate used to measure the total OPEB liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. The discount rate reflects 1) the long-term expected rate of return on OPEB plan investments of 7.0 percent and 2) a municipal bond rate of 4.05 percent (based on fixed-income municipal bonds with 20 years to

maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year GO AA Index" as of December 31, 2022).

Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

*Investment Rate of Return.* The long-term expected rate of return on OPEB plan investments was determined using a forward-looking estimate of capital market returns model for each investment major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and investment percentages. The target allocation and best estimate of arithmetic real rates of return for each asset class are summarized in the following table:

|                     | Target     | Long Term   |
|---------------------|------------|-------------|
| Asset Class         | Allocation | Real Return |
| Global Equity       | 60%        | 4.50%       |
| Global Fixed Income | 20%        | 2.00%       |
| Private Investments | 20%        | 7.00%       |

Sensitivity of Net OPEB Liability to Changes in the Discount Rate. The following presents the net OPEB liability of the Authority, calculated using the discount rate of 7.0 percent, as well as what the Authority's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

|                       |               | Current Rate  |             |
|-----------------------|---------------|---------------|-------------|
|                       | 1% Decrease   | Assumption    | 1% Increase |
| _                     | 6.0%          | 7.0%          | 8.0%        |
| Net OPEB Liability \$ | 53,633,750 \$ | 37,374,256 \$ | 23,889,176  |

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the net OPEB liability of the Authority, calculated using the healthcare cost trend rate of 8.25 percent, as well as what the Authority's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point lower or one percentage point higher than the current rate:

|                       | Current Healthcare |               |             |  |  |  |  |  |

|                       | Cost Trend Rate    |               |             |  |  |  |  |  |
|                       | 1% Decrease        | Assumption    | 1% Increase |  |  |  |  |  |
|                       | 7.25%              | 8.25%         | 9.25%       |  |  |  |  |  |
| Net OPEB Liability \$ | 22,145,327 \$      | 37,374,256 \$ | 55,824,522  |  |  |  |  |  |

## December 31, 2022

Assumption Changes. Based upon an experience study performed by the pension actuary, assumptions were updated beginning with the September 30, 2021 valuation, which develops the contribution rate for the fiscal year ending December 31, 2023. The assumption updates include the use of a version of the Pub-2010 Mortality Tables with generational mortality improvement using scale MP 2020. The new assumptions were also reflected in development of the Total OPEB Liability as of December 31, 2022.

# (12) Due to Other Governmental Units - Wayne County Health and Welfare Plan (Pre-2002)

As provided for in the Authority Act, the Authority, through the County, provides hospitalization and other health insurance for retirees pursuant to agreements with various collective bargaining units or other actions of the Wayne County Board of Commissioners, the Wayne County Retirement Board, or the Authority Board. Benefits are provided to retirees under the age of 65 and their eligible dependents, and the cost of federal Medicare premiums and supplemental hospitalization is paid for retirees over 65 and their eligible dependents as these costs are incurred by the retirees. Currently, the plan's members include retirees for the County and the Authority that retired before September 1, 2002. The plan is closed to new members.

During the year ended September 30, 2016, the County Commission adopted an ordinance amending the 1990 Wayne County Health and Welfare Plan. The ordinance provided for stipend payments in lieu of healthcare benefits for Plan members that meet certain eligibility requirements. Plan members that receive the stipend benefit are required to file annual certifications related to the use of this stipend for health care benefits. Plan members may become ineligible for this stipend benefit upon eligibility for another health care plan.

The Authority's liability under this arrangement as of December 31, 2022 is \$3,793,000. To date, the Authority has made \$1,727,205 in payments related to these stipend benefits.

## (13) Leases

## Lessor

For the year ended December 31, 2022, the Authority's financial statements include the adoption of GASB Statement No. 87, Leases ("GASB No. 87"). The primary objective of GASB No. 87 is to enhance the relevance and consistency of information about the leasing activities of governmental entities. GASB No. 87 establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under GASB No. 87, a lessee is required to recognize a lease receivable and a deferred inflow of resources. For additional information, refer to the disclosures below.

The Authority leases certain assets to various third parties. The assets leased include space and land leases on the Airport premises and within the terminal buildings. Payments are generally fixed monthly. Certain variable payments, such as excess amounts due over fixed payments, are not included in the measurement of the lease receivable.

### December 31, 2022

During the year ended December 31, 2022 the Authority recognized the following related to its lessor agreements:

|  | <br>DTW          | <br>YIP      | <br>Total        |
|--|------------------|--------------|------------------|
| Lease Revenue  | \$<br>12,176,978 | \$<br>36,790 | \$<br>12,213,768 |
| Interest income related to leases                    | 309,104          | 6,650        | 315,754          |
| Revenue from variable payments not previously        |                  |              |                  |
| included in the measurement of the lease receivables | <br>15,247,883   | <br>5,436    | 15,253,319       |
|  | \$<br>27,733,965 | \$<br>48,876 | \$<br>27,782,841 |

Summary of lease activities as of December 31, 2022:

| Space               |    | DTW              | YIP |
|---------------------|----|------------------|-----|
| Term                |    | 60 to 263 months | NA  |
| Lease receivable    | \$ | 3,497,083        | NA  |
| Lease revenue       | \$ | 419,812          | NA  |
| Termination options |    | None             | NA  |
| Number of leases    |    | 6                | 0   |

| Premises            | DTW              | YIP               |  |  |  |
|---------------------|------------------|-------------------|--|--|--|
| Term                | 120 months       | 240 to 360 months |  |  |  |
| Lease receivable    | \$<br>18,507,023 | \$ 853,467        |  |  |  |
| Lease revenue       | \$<br>11,757,166 | \$ 36,790         |  |  |  |
| Termination options | None             | None              |  |  |  |
| Number of leases    | 7                | 3                 |  |  |  |

The balance of the lease receivables for DTW at December 31, 2022 is pledged to secure certain debt obligations. Pursuant to the Master Bond Ordinance, the Authority has irrevocably pledged net revenues on a senior lien basis for the payment of outstanding senior lien bonds, and on a junior lien basis for the payment of outstanding junior lien bonds.

## December 31, 2022

## **Regulated Leases**

The Authority leases certain assets to various third parties as regulated leases, as defined by GASB Statement No. 87. The leased assets include passenger gates, ticket counters, airline ticket offices, gate hold rooms, and operational space and are regulated under the FAA Rates and Charges Policy and Grant Assurance 22. Certain assets are subject to preferential or exclusive use by the counterparties to these agreements, as follows:

For the Evans Terminal:

- Passenger Gates 23 of the 29 passenger gates are designated preferential use
- Ticket Counters 63% of available space is designated preferential use
- Airline Ticket Offices 68% of available space is designated preferential use
- Gate Hold Rooms 72% of available space is designated preferential use
- Operational Space 47% of available space is designated preferential use

For the McNamara Terminal:

- Passenger Gates 93 of the 104 passenger gates are designated preferential use
- Ticket Counters 100% of available space is designated preferential use
- Gate Hold Rooms 67% of available space is designated preferential use
- Operational Space 97% of available space is designated preferential use

During the year ended June 30, 2022, the Authority recognized the following from regulated leases:

|  | <br>Airport      | Willo | w Run Aiport | <br>Total        |
|--|------------------|-------|--------------|------------------|
| Regulated Lease Revenue                          | \$<br>5,916,132  | \$    | 509,603      | \$<br>6,425,735  |
| Revenue from variable payments excluded from the |                  |       |              |                  |
| schedule of expected future minimum payments     | \$<br>79,517,674 | \$    | -            | \$<br>79,517,674 |

Future expected minimum payments related to the Authority's regulated leases at December 31, 2022 are as follows:

|             | <br>Future Minimum |                 |       |            |  |

December 31, 2022

## (14) Upcoming Reporting Changes

In March, 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which improves accounting and financial reporting for arrangements where a governmental entity contracts with an operator to provide public services by conveying control of the right to operate or use nonfinancial assets, such as infrastructure or other capital asset, for a period of time in an exchange or exchange-like transaction. It establishes the definitions of public-private and public-public partnerships (PPP's) and availability payment arrangements (APA's) and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. It requires governments to report assets and liabilities related to PPP's consistently and disclose important information about PPP transactions. The Authority is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Authority's financial statements for the year ending December 31, 2023.

In May 2020, the Governmental Accounting Standards Board issued GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), which defines SBITAs and provides accounting and financial reporting for SBITAs by governments. This statement requires a government to recognize a subscription liability and an intangible right-to-use subscription asset for SBITAs. The Authority is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Authority's financial statements for the year ending December 31, 2023.

In April 2022, the Governmental Accounting Standards Board issued GASB Statement No. 99, Omnibus 2022, which establishes or amends accounting and financial reporting requirements for specific issues related to financial guarantees, derivative instruments, leases, public-public and public-private partnerships (PPPs), subscription-based information technology arrangements (SBITAs), the transition from the London Interbank Offered Rate (LIBOR), the Supplemental Nutrition Assistance Program (SNAP), nonmonetary transactions, pledges of future revenues, the focus of government-wide financial statements, and terminology. The standard has various effective dates. The Authority does not believe this pronouncement will have a significant impact on its financial statements but is still making a full evaluation.

In June 2022, the Governmental Accounting Standards Board issued GASB Statement No. 100, Accounting Changes and Error Corrections, which enhances the accounting and financial reporting requirements for accounting changes and error corrections. The provisions of this statement are effective for the Authority's financial statements for the year ending December 31, 2024.

In June 2022, the Governmental Accounting Standards Board issued GASB Statement No. 101, Compensated Absences, which updates the recognition and measurement guidance for compensated absences under a unified model. This statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means and establishes guidance for

## December 31, 2022

measuring a liability for leave that has not been used. It also updates disclosure requirements for compensated absences. The provisions of this statement are effective for the Authority's financial statements for the year ending December 31, 2024.

[1] –A three-month stub period (October 1, 2019 through December 31, 2020) was completed to facilitate a change in the fiscal year end from September 30 to December 31. All other periods are one-year periods.

GASB Statement No. 68 was implemented on September 30, 2015 and does not require retroactive implementation. Data will be added as information is available until 10 years of such information is available.

# **REQUIRED SUPPLEMENTARY INFORMATION**

# December 31, 2022

# Notes to Schedule of Authority Contributions

| Valuation date                  | Actuarially determined contribution rates are calculated as of September 30 each year, which is one period prior to the beginning of the fiscal year in which contributions are reported.   |
|---------------------------------|---|
| Methods and assumptions used to | o determine contribution rates  |
| Actuarial cost method           | Entry Age Normal  |
| Amortization method             | Layered Level Dollar, Closed  |
| Remaining amortization period   | 15 years  |
| Asset valuation method          | 4-year smoothed market; 20% corridor  |
| Wage inflation                  | 3.00%   |
| Salary increases                | 3.00% to 13.15% including inflation   |
| Investment rate of return       | 7.25%   |
| Retirement age                  | Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2016 valuation pursuant to an experience study of the period October 1, 2010 - September 30, 2015.   |
| Mortality                       | <b>As of September 30, 2020:</b> RP-2014 Healthy Annuitant Mortality table for males and females, adjusted for mortality improvement back to the base year of 2006. Mortality rates for particular calendar year are determined by applying the MP-2016 Mortality Improvement scale to the above described tables. The corresponding Disabled and Employee tables were used for diability and pre-retirement, respectively.   |
| Cost of living adjustment       | None  |
| Other Information               |   |
| Changes in assumptions          | Although the report for measurement period ending September 30, 2021 was a roll forward of the September 30, 2020 funding valuation, the report included demographic and economic assumption changes in the liabilities (includnig an interest rate of 6.75%) as adopted by the WCERS Board pursuant to the 5-year Experience Study dated August 24, 2021, since the effectivedate of the assumption changes were as of the measurement date of September 30, 2021. |
| Changes in assumptions          | For the valuation dated September 30, 2016, the report included demographic<br>and economic assumption changes in the liabilities as adopted by the WCERS<br>Board pursuant to the 5-year Experience Study dated October 26, 2016   |

[1] –A three-month stub period (October 1, 2019 through December 31, 2020) was completed to facilitate a change in the fiscal year end from September 30 to December 31. All other periods are one-year periods.

[2] - Calculation not reported for the stub period as covered payroll presented includes only three months of activity.

GASB Statement No. 75 was implemented September 30, 2018 and does not require retroactive implementation. Data will be added as information is available until 10 years of such information is available.

### **REQUIRED SUPPLEMENTARY INFORMATION**

### December 31, 2022

### Notes to Schedule of Authority Contributions

Valuation dateActuarially determined contribution amounts for the year ended December 31,<br/>2022 were based on the September 30, 2021 actuarial valuation.

### Methods and assumptions used to determine contribution rates

|   | Actuarial cost method         | Entry-Age Normal  |
|---|-------------------------------|---|
|   | Amortization method           | Level Dollar  |
|   | Remaining amortization period | 20 years, Closed  |
|   | Asset valuation method        | Market Value of Assets  |
|   | Price inflation               | 2.50%   |
|   | Wage inflation                | 3.00%   |
|   | Salary increases              | 3.00% to 13.15%   |
|   | Investment rate of return     | 7.00%, net of OPEB plan investment expense  |
|   | Retirement age                | Experience-based table of rates that are specific to the type of eligibility condition.   |
|   | Mortality                     | RP-2014 Healthy Annuitant Mortality table, adjusted back to the base year of 2006.<br>Mortality rates are determined by applying the MP-2016 Mortality Improvement scale. |
|   | Healthcare trend rates        | Non-Medicare: Initial rate of 7.50% decreasing to 3.50% long-term in year 12<br>Medicare: Initial rate of 6.25% decreasing to a 3.50% long-term rate in year 12           |
|   | Excise Tax                    | No load was applied in connection with the "Cadillac" tax   |
|   | Aging Factors                 | Based on the 2013 SOA Study "Health Care Costs - From Birth to Death"   |
| D | ther Information              |   |

### Other Informa Notes

Changes in assumptions Based on an experience study performed by the pension actuary, assumptions were updated beginning with the December 31, 2021 valuation, which develops the contribution rate for the fiscal year ending December 31, 2023. These assumption updates include the use of a version of the Pub-2010 Mortality Tables with generational mortality improvement using scale MP 2020. The new assumptions were also reflected in the development of the Total OPEB Liability as of December 31, 2022.

Changes in assumptions - 2020 The total OPEB liability reflects a benefit change which instituted a 10% cost share for all current and future retirees post-65. Additionally, the total OPEB liability reflects reported benefit corrections applicable to the benefit eligibility conditions.

Changes in assumptions - 2019 The initial health care trend assumption was reduced from 8.5% to 8.25%

## STATISTICAL SECTION

This section of the Wayne County Airport Authority's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Authority's overall financial health.

## CONTENTS

Financial Trends – Exhibits S-1, S-2

These exhibits contain trend information to help the reader understand how the Authority's financial performance and well-being have changed over time.

## Revenue Capacity – Exhibits S-3, S-5

These exhibits contain information to help the reader assess the factors affecting the Authority's ability to generate revenue.

## Debt Capacity - Exhibits S-6 to S-8

These exhibits present information to help the reader assess the affordability of the Authority's current levels of outstanding debt and the Authority's ability to issue additional debt in the future.

## Demographic & Economic Information – Exhibits S-10 series

These exhibits offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place and to help make comparisons over time with other entities. In certain instances, due to the nature of the Authority's operations, 10 years of data may not be necessary for readers to understand the Authority's environment or to make comparisons with other entities. In these instances, less than 10 years of data may be presented.

## Operating Information – Exhibits S-4, S-5, S-9, S-11, S-12

These exhibits contain information about the Authority's operations and resources to help the reader understand how the Authority's financial information relates to the services the Authority provides and the activities it performs. In the case of *S*-11 and *S*-12, due to the nature of the Authority's operations, 10 years of data may not be necessary for readers to understand the Authority's environment or to make comparisons with other entities. In these instances, less than 10 years of data may be presented.

**Sources:** Unless otherwise noted, the information in these exhibits is derived from the Annual Comprehensive Financial Reports of the relevant year.

<sup>1</sup> In 2014, the Authority restated beginning net position by \$13,053,561. This amount less the increase/decrease in net position is used to arrive at ending net position.

<sup>2</sup> In 2015, the Authority restated beginning net position by \$44,371,051. This amount less the increase/decrease in net position is used to arrive at ending net position.

<sup>3</sup> In 2018, the Authority restated beginning net position by \$67,956,302. This amount less the increase/decrease in net position is used to arrive at ending net position.

<sup>4</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

<sup>1</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period

encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

\*\* The revenue bases to which these rates are applied and their principal payers can be found in Schedules S-2 and S-4.

<sup>1</sup> Calculated pursuant to the formulas set forth in the Airport Use and Lease Agreement. The agreement provides the calculation of the annual landing fee and terminal rental rates, with rate adjustments at mid-year, if required.

<sup>2</sup> Average billed rate per 1,000 lbs. MGLW.

<sup>3</sup> Billing rate at Willow Run Airport for aircraft weighing 150,000 lbs. and over, charged per 1,000 lbs. MGLW. A tiered rate structure exists for smaller aircraft.

<sup>4</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

<sup>5</sup> During the stub period, the rate was \$2.32 until October 31, 2019. Thereafter the rate was \$2.50

<sup>1</sup>Signatory Affiliate Airlines are associated based on 2022 affiliations and shown in parentheses to major carrier name. All historical landed weights for these affiliates are shown on one line regardless of prior affiliations.

<sup>2</sup> Atlantic Southwest Airlines acquired Expresslet on November 22, 2011 and began operating as Expresslet. For comparative purposes, entities are shown as one on this report.

<sup>3</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

<sup>4</sup> Includes airlines no longer serving Detroit Metro or carriers with insignificant activity.

<sup>5</sup> Effective April 15, 2014, American Eagle changed its legal name to Envoy Air.

<sup>6</sup> US Airways merged with American Airlines on April 8, 2015 and, for comparative purposes, are shown as one on this report.

<sup>1</sup> Signatory Affiliate Airlines are associated based on 2020 affiliations and shown in parentheses to major carrier name.

All historical enplanements for these affiliates are shown on one line regardless of prior affiliations.

 $^{\rm 2}$  Includes airlines no longer serving Detroit Metro or carriers with insignificant activity.

<sup>3</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period

encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

<sup>4</sup> Effective August 1, 2013, Pinnacle Airlines changed its legal name to Endeavor Air.

<sup>5</sup> Atlantic Southwest Airlines acquired ExpressJet on November 22, 2011 and began operating as ExpressJet. For comparative purposes, entities are shown as one on this report.

<sup>6</sup> Effective April 15, 2014, American Eagle changed its legal name to Envoy Air.

<sup>7</sup> US Airways merged with American Airlines on April 8, 2015 and for comparative purposes, are shown as one in this report.

<sup>1</sup> Interest does not include adjustments for capitalized interest, amortization of issuance costs, discount, premium,

or refunding costs, and arbitrage.

<sup>2</sup> Amount of debt service paid through issuance of refunding bonds.

<sup>3</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period

encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

(a) In October 2015, the Authority entered into a new hotel management agreement and the 2001A Hotel Bonds, which were special facility revenue bonds, were refunded by the 2015G-H Airport Revenue Refunding Bonds. As a result, the operations of the Airport Hotel have been included with the operations of Detroit Metro Airport (see Note 2 of 2016 financial statements for additional discussion).

Notes: The Authority has pledged all net Airport revenues solely for the payment of the Airport Revenue Bonds and the Parity Obligations, and a statutory first lien has been granted upon all net revenues for such purpose.

<sup>1</sup> Interest does not include adjustments for capitalized interest, amortization of issuance costs/ bond insurance premiums, discount, premium, refunding costs, or arbitrage.

<sup>2</sup> Coverage calculations presented in this schedule differ from those required by the Master Bond Ordinance and all series ordinances as shown in the Continuing Disclosures.

<sup>3</sup> Principal payments do not include bond refunding payoffs.

<sup>a</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

(a) In October 2015, the Authority entered into a new hotel agreement and the 2001A Hotel Bonds, which were special facility bonds, were refunded by the 2015G-H Aiport Revenue Refunding Bonds. As a result, the operations of the Airport Hotel have been included with the operations of Detroit Metro Airport (see Note 2 of 2016 financial statements for additional discussion).

\* Represents both filled and budget-approved full-time positions as of each fiscal year end. Headcount actuals are lower due to employee turnover and amount of available positions at different times during the year.

<sup>1</sup> The Authority converted from a September 30 fiscal year end to a December 31 fiscal year end. To facilitate the fiscal year end conversion a "stub" reporting period encompassing the three month period from October 1, 2019 through December 31, 2019 was completed.

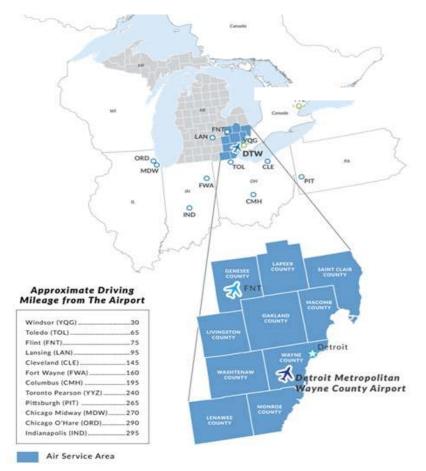

# Exhibit S-10: Demographic and Economic Information

The Authority is a regional entity that spans multiple jurisdictions. The Authority has operational jurisdiction of Detroit Metropolitan Wayne County Airport (DTW) and Willow Run Airport (YIP), as well as the Airport Hotel.

Detroit Metropolitan Wayne County Airport is a major commercial airport located in Romulus, Michigan classified a large hub by the FAA with 1 percent or more of total U.S. passengers enplaned. As of 2021, Detroit Metro Airport is the eighteenth busiest airport in the United States and the twenty-eighth busiest airport in the world (by operations). Nearby to DTW is the smaller non-commercial airport Willow Run that serves freight, corporate, and general aviation clients. Together, these airports serve a Primary Air Trade Area commonly referred to as Metropolitan Detroit (Metro Detroit).

The United States Office of Management and Budget (OMB) defines the ten-county region in which DTW is located the *Detroit-Warren-Ann Arbor Combined Statistical Area (CSA)*. The region is comprised of the ten Michigan counties of Genesee, Lapeer, Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw and Wayne. This area is defined based on commuting patterns and constitutes the labor market region of Metro Detroit with a population of approximately 5.3 million.

Detroit Metro Airport also serves the Toledo, Ohio, area, which is located approximately 47 miles south of the airport, and the city of Windsor, Ontario in nearby Canada. The Total Air Trade Area incorporates these regions along with the Primary Air Trade Area of Metro Detroit.

(a) On October 15, 2015, the Authority entered into a new hotel management agreement and the 2001A Hotel Bonds, which were special facility revenue bonds, were refunded by the 2015G-H Airport Revenue Refunding Bonds. As a result, as of October 15, 2015, the net revenues of the Hotel are included in the Net Revenues pledged toward the repayment of all the Authority's general airport revenue bonds and hotel management expenses are included in the Authority's operation and management expenses. At this time, all outstanding bonds, including the 2015G-H Airport Revenue Refunding Bonds, are all general airport revenue bonds.

(a) Includes shuttle bus revenue, badging fees, miscellaneous fees, chargebacks, insurance recoveries, and state and federal grants

(b) On October 15, 2015, the Authority entered into a new hotel management agreement and the 2001A Hotel Bonds, which were special facility revenue bonds, were refunded by the 2015G-H Airport Revenue Refunding Bonds. As a result, as of October 15, 2015, the net revenues of the Hotel are included in the Net Revenues pledged toward the repayment of all the Authority's general airport revenue bonds and hotel management expenses are included in the Authority's operation and management expenses. At this time, all outstanding bonds, including the 2015G-H Airport Revenue Refunding Bonds, are all general airport revenue bonds.

 Effective October 2015, the operations of the Airport Hotel have been included with the operations of Detroit Metro Airport (see Note 2 of 2016 financial statements for additional discussion).

[2] - In 2018, Detroit Metro Airport restated beginning net position to \$74,127 (see Note 2 of 2018 financial statements for additional discussion). This amount less the 2018 decrease in net position is used to arrive at ending net position.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 

## **Independent Auditor's Report**

To Management and the Wayne County Airport Authority Board Wayne County Airport Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of each major fund and the aggregate remaining funds of the Wayne County Airport Authority (the "Authority") as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated April 25, 2023.

## **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Wayne County Airport Authority Board Wayne County Airport Authority

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance; Report on Compliance for the Passenger Facility Charge Program as Required by the Guide

## Independent Auditor's Report

To the Wayne County Airport Authority Board Wayne County Airport Authority

## Report on Compliance for Each Major Federal Program and Passenger Facility Charge Program

## **Opinion on Each Major Federal Program and Passenger Facility Charge Program**

We have audited Wayne County Airport Authority's (the "Authority") compliance with the types of compliance requirements identified as subject to audit in the Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on the Authority's major federal program for the year ended December 31, 2022. The Authority's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. In addition, we audited compliance with the applicable requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration, and the requirements in 14 CFR 158.63 (collectively, the "Guide") for the year ended December 31, 2022. The passenger facility charge program is identified in the schedule of passenger facility charge program is identified in the schedule of passenger facility charge program is identified in the schedule of passenger facility charge program is identified in the schedule of passenger facility charge program is identified in the schedule of passenger facility charge program is identified in the schedule of passenger facility charge program is identified in the schedule of passenger facility charges collected and expended.

In our opinion, the Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the major federal program and the passenger facility charge program for the year ended December 31, 2022.

## Basis for Opinion on Each Major Federal Program and Passenger Facility Charge Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"); and the applicable requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies* and the requirements in 14 CFR 158.63, issued by the Federal Aviation Administration. Our responsibilities under those standards, the Uniform Guidance, and the Guide are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the Authority and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and the passenger facility charge program. Our audit does not provide a legal determination of the Authority's compliance with the compliance requirements referred to above.

## **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Authority's major federal program and the passenger facility charge program.

To the Wayne County Airport Authority Board Wayne County Airport Authority

## Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Authority's compliance with the requirements of each major federal program and the passenger facility charge program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Authority's internal control over compliance relevant to the audit in order to
  design audit procedures that are appropriate in the circumstances and to test and report on internal control
  over compliance in accordance with the Uniform Guidance and the Guide, but not for the purpose of
  expressing an opinion on the effectiveness of the Authority's internal control over compliance. Accordingly, no
  such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or the passenger facility charge program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or the passenger facility charge program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or a combination of compliance is a deficiency, or a combination of ver compliance with a type of compliance requirement of a federal program or the passenger facility charge program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or the passenger facility charge program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

To the Wayne County Airport Authority Board Wayne County Airport Authority

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Guide. Accordingly, this report is not suitable for any other purpose.

## WAYNE COUNTY AIRPORT AUTHORITY

# NOTES TO SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS December 31, 2022

## (1) Summary of Significant Accounting Policies

## A. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) summarizes the expenditures of the Wayne County Airport Authority (the Authority) under programs of the federal government and is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). The Authority's reporting entity is defined in the notes to the Authority's basic financial statements.

For the purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into between the Authority and agencies and departments of the federal government and all sub-awards to the Authority by nonfederal organizations pursuant to federal grants, contracts, and similar agreements.

Federal awards are reported in the Authority's Statement of Revenues, Expenses, and Changes in Net Position included with federal and state grants as well as capital contributions. The Schedule presents only a selected portion of the operations of the Authority. It is not intended to and does not present the financial position, changes in net position or cash flows of the Authority.

## B. Basis of Accounting

The accompanying Schedule is presented on the accrual basis of accounting. Expenditures are recorded, accordingly, when incurred rather than when paid. Expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available. The Authority has not elected to use the 10-percent de minimus indirect cost rate to recover indirect costs as allowed under the Uniform Guidance.

## C. Subrecipients

The Authority did not pass through any federal awards to subrecipients.

## WAYNE COUNTY AIRPORT AUTHORITY

# NOTES TO SCHEDULE OF PASSENGER FACILITY CHARGE REVENUES AND EXPENDITURES December 31, 2022

## (1) General

The Aviation Safety and Capacity Expansion Act of 1990 (Public Law 101-508, Title II, Subtitle B) authorized domestic airports to impose a Passenger Facility Charge (PFC) on enplaning passengers. PFCs may be used for airport projects which meet at least one of the following criteria: (1) preserve or enhance safety, security, or capacity of the national air transportation system; (2) reduce noise or mitigate noise impacts resulting from an airport; or (3) furnish opportunities for enhanced competition between or among carriers.

Since 1992, the Federal Aviation Administration (FAA) has approved six PFC applications and amendments submitted by the Authority. The most recent application was approved during fiscal year 2008 and resulted in an additional \$.3 billion of collection authority from the FAA. The Authority is currently authorized to collect PFCs in the amount of \$4.50 per enplaned passenger up to a total for approved collections of \$3.2 billion. Project expenditures may include amounts for the payment of principal, interest, and other financing costs on bonds for which the proceeds are used to pay PFC-eligible costs on approved projects.

As of December 31, 2022, the Authority had received approximately \$1.67 billion of PFC revenue and interest earnings of approximately \$73.8 million. The Authority had expended approximately \$1.74 billion on approved projects.

## (2) Basis of Accounting

The accompanying Schedule of Passenger Facility Charge Revenues and Expenditures (the Schedule) has been prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles (GAAP).

PFC charges collected, expended, and interest earned represent amounts reported to the FAA on the Passenger Facility Charge Quarterly Status Reports and total \$55 million, \$55.1 million, and \$42,789, respectively, for the year ending December 31, 2022. The Authority also maintained a receivable of approximately \$7.1 million for PFCs collected by the airlines but not remitted to the Authority as of December 31, 2022.

## (3) Interest Earned

Interest income is allocated to the PFC program (the Program) based on a ratio of the Program's cash and investments to the total Authority cash and investments included in the pooled cash funds.
