INTRODUCTION

The Wayne County Airport Authority (Airport Authority) is a recipient of airport planning and development federal grants exceeding $250,000 per fiscal year which are used to enhance airport safety, capacity, security, and environmental concerns. As a recipient of these funds, the Airport Authority must maintain a Disadvantaged Business Enterprise (DBE) Program in accordance with the Code of Federal Regulations (CFR). The rules and regulations governing this DBE Program are found in Title 49 CFR, Part 26; included in Appendix 1: Exhibit A of this program.

The most recent final rule, dated November 3, 2014, improves DBE program implementation in the following three major areas:

1. The rule revises the uniform certification application and reporting forms, creates a uniform personal net worth form for use by applicant owners, and collects data required by the Department’s surface transportation reauthorization, Moving Ahead for Progress in the 21st Century Act (MAP-21).
2. The rule strengthens the certification-related program provisions, which includes adding a new section authorizing summary suspensions under specified circumstances.
3. The rule modifies several other program provisions concerning such subjects as: overall goal setting, good faith efforts, transit vehicle manufacturers, and counting for trucking companies.
POLICY STATEMENT

The Wayne County Airport Authority (Airport Authority) has established a Disadvantaged Business Enterprise (DBE) Program in accordance with regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. The Airport Authority has received Federal financial assistance from the Department of Transportation, and as a condition of receiving this assistance, the Airport Authority has signed an assurance that it will comply with 49 CFR Part 26.

It is the policy of the Airport Authority to ensure that DBEs as defined in Part 26, have an equal opportunity to receive and participate in DOT-assisted contracts. It is also our policy:

1. To ensure nondiscrimination in the award and administration of DOT-assisted contracts;
2. To create a level playing field on which DBEs can compete fairly for DOT-assisted contracts;
3. To ensure that the DBE Program is narrowly tailored in accordance with applicable law;
4. To ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs;
5. To help remove barriers to the participation of DBEs in DOT-assisted contracts;
6. To promote the use of DBEs in all types of federally-assisted contracts and procurement activities;
7. To assist the development of firms that can compete successfully in the market place outside the DBE Program; and
8. To provide appropriate flexibility to recipients of Federal financial assistance in establishing and providing opportunities for DBEs.

Audrey Jones, Deputy Director of Business Diversity, has been delegated as the DBE Liaison Officer. In that capacity, Audrey Jones is responsible for implementing all aspects of the DBE program. Implementation of the DBE program is accorded the same priority as compliance with all other legal obligations incurred by the Airport Authority in its financial assistance agreements with the Department of Transportation.

The Airport Authority has disseminated this policy statement to the Wayne County Airport Authority Board and all of the components of the organization. This statement has been disseminated to DBE and non-DBE business communities that perform work for us on DOT-assisted contracts. This Policy Statement will be made available electronically to the public through the Wayne County Airport Authority website at www.WCAA.us or by requesting a copy using the following address:

DBE Program Policy Statement Request
Detroit Metro Airport, Wayne County Airport Authority
11050 Rogell Drive #602
Detroit, MI 48242
Attn.: Business Diversity Unit

Joseph Nardone
Wayne County Airport Authority
Chief Executive Officer

Date: 11-6-17
SUBPART A – GENERAL REQUIREMENTS

SECTION 26.1 OBJECTIVES

The objectives are found in the policy statement on the first page of this program.

SECTION 26.3 APPLICABILITY

The Airport Authority is a recipient of Federal airport funds authorized by 49 U.S.C. 47101, et seq.

SECTION 26.5 DEFINITIONS

The Airport Authority adopts the definitions provided in 49 CFR Part 26.5 for this program.

SECTION 26.7 NON-DISCRIMINATION REQUIREMENTS

The Airport Authority will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR Part 26 on the basis of race, color, sex, or national origin.

In administering its DBE program, the Airport Authority will not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing the accomplishment of the objectives of the DBE program with respect to individuals of a particular race, color, sex, or national origin.

SECTION 26.11 RECORD KEEPING REQUIREMENTS

26.11 (a) & (b) Reporting to DOT
The Airport Authority will electronically transmit DBE participation to DOT/FAA annually on December 1, using the “Uniform Report of DBE Awards or Commitments and Payments” form found in Appendix 1: Exhibit C of this program. The Airport Authority will also report all DBE contractor firm information either on the FAA DBE Contractor’s Form or a form using the similar format.

26.11 (c) Bidders List
The Airport Authority will create and maintain a bidders list. The purpose of the list is to provide data as accurate as possible about the universe of DBE and non-DBE contractors and subcontractors who seek to work on DOT-assisted contracts, for use in helping to set overall goals. The bidders list will include the following:

- Firm Name;
- Owner’s Name;
- Firm Address;
- Firm Contact Information (phone & Email);
- Firm’s Status as a DBE or non-DBE;
- Firm’s NAICS Codes;
- Age of the Firm; and
- Annual Gross Receipts of the Firm.
The information for the list will be collected on the Bidders List Collection Form found in Appendix 1: Exhibit D of this program. This form will be required to be submitted by each contractor as a minimum qualification to bid on federally funded contracts.

SECTION 26.13 FEDERAL FINANCIAL ASSISTANCE AGREEMENT

The Airport Authority has signed the following assurances, applicable to all DOT-assisted contracts and their administration:

26.13 (a) Assurance – Federal Assistance Agreement
Each financial assistance agreement the Airport Authority signs with a DOT operating administration (or a primary recipient) will include the following assurance:

The Airport Authority shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Airport Authority shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts. The Airport Authority’s DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Airport Authority of its failure to carry out its approved program, the Department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.).

26.13 (b) Assurance – Contracts
The Airport Authority will ensure that each Authority contract with a contractor (and each subcontract the prime contractor signs with a subcontractor) includes the following clause:

The contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the Airport Authority deems appropriate, which may include, but is not limited to:

- Withholding monthly progress payments;
- Assessing sanctions;
- Liquidated damages; and/or
- Disqualifying the contractor from future bidding as non-responsible.
SUBPART B - ADMINISTRATIVE REQUIREMENTS

SECTION 26.21 DBE PROGRAM UPDATES

The Airport Authority is required to have a DBE program meeting the requirements of 49 CFR Part 26, as it is expected to receive grants through the FAA’s Airport Improvement Program (AIP) for airport planning or development and will award prime contracts a cumulative total value in excess of $250,000 in a federal fiscal year. The Authority is not eligible to receive DOT financial assistance unless DOT has approved the DBE program and is in compliance with 49 CFR Part 26. The Authority will continue to carry out the DBE program until all funds from DOT financial assistance have been expended.

All significant changes to the DBE program will be submitted to DOT for approval.

SECTION 26.23 POLICY STATEMENT

The Policy Statement is elaborated on page 2 of this DBE Program.

SECTION 26.25 DBE LIAISON OFFICER (DBELO)

The Airport Authority has designated the following individual as the DBE Liaison Officer:

Audrey Jones, Procurement Deputy Director – Supplier Diversity
Detroit Metro Airport, Wayne County Airport Authority
11050 Rogell Drive #602
Detroit, MI 48242
Phone: (734) 247-7919 / Fax: (734) 955-5648
Audrey.Jones@wcaa.us

In that capacity, the DBELO is responsible for implementing all aspects of the DBE program and ensuring that the Airport Authority complies with all provisions of 49 CFR Part 26. The DBELO has direct, independent access to the CEO, Joseph Nardone, concerning DBE program matters. An organization chart displaying the DBELO’s position in the organization is found in Appendix 1: Exhibit B of this program.

The DBELO is responsible for developing, implementing and monitoring the DBE program in coordination with other appropriate officials. The DBELO has primary responsibility over the administration of the program, however, duties may be conducted and/or delegated to any of the four (4) Business Diversity Unit (DBU) staff members who assist in the administration of the program. The DBELO’s duties and responsibilities completed to ensure 49 CFR Part 26 compliance are as follows:

- Gather and report statistical data and other information as required by DOT;
- Identify contracts and procurements so that DBE goals are included in solicitations to ensure non-discrimination in the award and administration of DOT-assisted contract;
- Provide DBEs with information and assistance in preparing bids, obtaining bonding, insurance and other business needs;
- Act as liaison to the Uniform Certification Process in Michigan;
- Ensure that bid notices and requests for proposals are available to DBEs in a timely manner;
- Work with all departments to set overall three-year goals;
- Ensure that solicitations/contracts contain the clauses and goals required by this program;
- Analyze DBE goal attainment and review good faith efforts to identify ways to improve progress;
- Advise contractors on DBE matters and of available opportunities through outreach, pre-bid meetings, etc.;
- Plan and participate in DBE training seminars;
- Maintain an updated directory on certified DBEs; and
- Advise the CEO and Board on DBE matters and achievement.

SECTION 26.27 DBE FINANCIAL INSTITUTIONS

It is the policy of the Airport Authority to investigate the full extent of services offered by financial institutions owned and controlled by socially and economically disadvantaged individuals in the community, to make reasonable efforts to use these institutions and to encourage prime contractors on DOT-assisted contracts to make use of these institutions.

The Airport Authority’s Business Diversity staff will participate in multi-project and contract specific outreach events several times a year and will include locally based financial assistance presenters to provide valuable advice on loans and banking services. The Airport Authority will also partner with other local agencies to obtain and share bonding and insurance information with DBEs that participate on airport projects.

SECTION 26.29 PROMPT PAYMENT MECHANISMS

Payment
The Airport Authority will ensure that prime contractors pay subcontractors for satisfactory performance of their contracts no later than ten (10) calendar days from receipt of each payment made to the prime contractor. Prime contractors will also be required to promptly return full payment of subcontractor retainage within ten (10) calendar days after the subcontractor’s work is satisfactorily completed. Pursuant to §26.29 (b) (3), the Authority will hold retainage from prime contractors and provide for prompt and regular incremental acceptances of portions of the prime contract, pay retainage to prime contractors based on these acceptances, and require a contract clause obligating the prime contractor to pay all retainage owed to the subcontractor for satisfactory completion of the accepted work within ten (10) days after payment to the prime contractor.

To implement this measure, the Airport Authority will include the following clause from FAA Advisory Circular 150/5370-10 in each DOT-assisted prime contract:

The Contractor is required to pay all subcontractors for satisfactory performance of their contracts no later than 10 days after the Contractor has received a partial payment from the Airport Authority. The Airport Authority must ensure prompt and full payment of retainage from the prime Contractor to the subcontractor within 10 days after the subcontractor’s work is satisfactorily completed. A subcontractor’s work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the Airport Authority. When the Airport Authority has made an incremental acceptance of a portion of a prime contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.
From the total of the amount determined to be payable on a partial payment, [insert amount of retainage, not to exceed 10 percent] percent of such total amount will be deducted and retained by the Airport Authority until the final payment is made, except as may be provided (at the Contractor’s option) in the subsection 90-08 titled PAYMENT OF WITHHELD FUNDS of FAA Advisory Circular 150/5370-10. The balance [insert balance] of the amount payable, less all previous payments, shall be certified for payment. Should the Contractor exercise his or her option, as provided above, no such percent retainage shall be deducted.

When at least 95% of the work has been completed, the Engineer shall, at the Airport Authority’s discretion and with the consent of the surety, prepare estimates of both the contract value and the cost of the remaining work to be done.

The Owner may retain an amount not less than twice the contract value or estimated cost, whichever is greater, of the work remaining to be done. The remainder, less all previous payments and deductions, will then be certified for payment to the Contractor.

This clause applies to DBE and non-DBE subcontractors.

The following penalties may be actively used in addition to the withholding of payment, should a contractor fail to comply with the Airport Authority’s prompt payment policies:

- Assessing liquidated damages against the prime contractor for each day beyond the required time period the prime contractor fails to pay the subcontractor;
- Pay subcontractors directly and deduct this amount from the retainage owed to the prime;
- Issue a stop-work order until payments are released to subcontractors, specifying in the contract that such orders constitute unauthorized delays for the purposes of calculating liquidated damages if milestones are not met;
- Contract cancellation;
- Contractor debarment; and/or
- Other mechanisms consistent with 49 CFR Part 26 and applicable state and local law which will ensure that DBEs and other subcontractors are fully and promptly paid.

Records
The Airport Authority will require prime contractors to maintain records and documents of payments to DBEs for at least six (6) years following the final payment on the contract. These records will be made available for inspection upon request by any authorized representative of the Airport Authority or DOT. This reporting requirement also extends to any certified DBE subcontractor.

Interim audits of contract payments to DBEs will be performed to ensure that the actual amount paid to DBE subcontractors equals the dollar amounts stated in the DBE participation reporting.

SECTION 26.31 DIRECTORY

The Airport Authority uses the Michigan Unified Certification Program (MUCP) DBE directory, maintained by the Michigan Department of Transportation (MDOT).
The directory lists the DBE firm’s name, address, phone number, date of the most recent certification, and the type of work the firm has been certified to perform as a DBE, using the most specific NAICS code available to describe each type of work.

The Directory is continuously updated by the certifying agencies each time a DBE becomes certified or decertified. The directory can be found at: http://mdotcf.state.mi.us/public/docs/mucp/files/DBEUCPDirectory.pdf.

SECTION 26.33 OVER-CONCENTRATION

The Airport Authority has not identified that over-concentration exists in the types of work that DBEs perform. The Airport Authority will continue to review DBE participation reports and statistical reports each year to determine whether there is an over concentration of DBEs.

SECTION 26.35 BUSINESS DEVELOPMENT PROGRAMS

The Airport Authority has not established a business development program.

SECTION 26.37 MONITORING AND ENFORCEMENT MECHANISMS

The Airport Authority will take the following monitoring and enforcement mechanisms to ensure compliance with 49 CFR Part 26. Federally-assisted Airport Authority contracts typically contain the following provisions germane to enforcement:

*Failure to carry out the commitments and policies set forth in this Article constitutes a material breach of the Contract and may result in the termination of the Contract, or such remedy as the Owner deems appropriate including, but not limited to a finding of non-responsibility, assessment of liquidated damages, retainage of hold-backs, declaration of a breach of a material contract term or debarment.*

**AND**

1. Each of the following constitutes a material breach of this Contract’s DBE provisions and entitles the Owner to deny a pay application, deem the Contractor non-responsible, declare a default, terminate the Contract, seek debarment and/or exercise those remedies provided for in the Contract, at law or in equity:

   a. *Failure to make good-faith efforts to satisfy the Contract DBE Participation Commitment Contractor proposed and that was accepted by the Owner;*

   b. *Decertification as a DBE of a Contractor, Subcontractor, or supplier;*

   c. *the submission of false or fraudulent information to the Owner by the Contractor or the omission of material information from other information provided to the Owner; and/or*
d. the submission of false or fraudulent information to the Owner or the omission of material information related to a subcontractor, regardless of tier or whether subcontractor is a DBE or non-DBE where the Contractor had reason to know that the information was false, fraudulent or omitted or could have learned that it was false fraudulent or omitted with the exercise of reasonable care.

2. If Contractor is determined by the Owner not to have been involved in any misrepresentation of the status of a decertified subcontractor or supplier, or the provision of false, fraudulent information or the omission of material information related to a Subcontractor, Contractor must discharge the Subcontractor or supplier and, if possible, identify and engage a qualified DBE as its replacement pursuant to the substitution procedure set forth herein. The Owner may also withhold payments due to Contractor until corrective action is taken.

3. For each one percent (or fraction thereof) of shortfall toward the Contract DBE Participation Commitment at the time this Contract is closed and in the absence of a written good-faith efforts waiver from the Owner, one percent of the base bid for this contract shall be surrendered by the Contractor to the Owner in payment as liquidated damages, in addition to any other sanctions the Owner deems appropriate such as a finding of non-responsibility, declaration of a breach of contract or debarment.

Additional monitoring and enforcement mechanisms are as follows:

(1) Monitoring of Vendor Conduct

- Notify the Department of Transportation of any false, fraudulent, or dishonest conduct in connection with the program, so that DOT can take the steps (e.g., referral to the Department of Justice for criminal prosecution, referral to the DOT Inspector General, action under suspension and debarment or Program Fraud and Civil Penalties rules) provided in 26.107.

  - Implement similar action under the Airport Authority’s legal authorities, including responsibility determinations in future contracts. Appendix 1: Exhibit E of this program lists the regulation, provisions, and contract remedies available in the event of non-compliance with the DBE regulation by a participant in the DBE Program.

(2) Monitoring of DBE Participation

- Verification that work committed to DBEs at contract award or subsequently (i.e., as the result of modification to the contract) is actually performed by the DBEs to which the work was committed.

- Written certification that a review of contracting records and work sites are completed for this purpose. BDU staff will accomplish this by conducting on-site visits as well as records audits to confirm that DBEs are genuinely participating on a contract in the commercially useful function anticipated.
Use of a tracking mechanism that will provide for a running tally of actual DBE attainments (e.g., payment actually made to DBE firms), including a means of comparing these attainments to commitments. The annual Uniform Report of DBE participation to DOT will show both commitments and attainments, as required by the DOT reporting form.

(3) Monitoring of DBE Payments

- Require contractors to certify that all payments by the contractor due to subcontractors from the last payment estimate have been made within the ten (10) calendar day payment period. The certification shall also attest that the contractor will make payment within ten (10) calendar days of all obligations due from the current payment estimate. No progress payments will be processed until the contractor’s certification is received. The Airport Authority presently uses the following language in DOT-assisted contracts:

  
  A Subcontractor Monthly Participation Report must be provided on a monthly basis to the Business Diversity Unit no later than the fifteenth (15th) business day of each month and must have all blank spaces filled in correctly.

  **Please Note:** Consistent with provisions in the Section Entitled “Subcontractors,” (a) a duly authorized Subcontractor principal must sign all documents where required to be signed by the Subcontractor; and (b) A duly authorized Subcontractor principal may not sign any document to be provided to the Owner in blank or where any such document is blank as to any material provision such as price, quantity or scope of services. Both of these prohibitions apply with equal force to documents to be provided by DBE Subcontractors.

  Failure to provide complete and accurate Subcontractor Monthly Participation Reports or the failure to provide the pay application on or before the fifteenth (15th) business day of each month will result in the denial of the next pay application in amount that represents twice the overall percentage of the DBE Participation Goal for the Contract until the problem is remedied. Any subsequent failures to provide complete and accurate DBE and Non-DBE Subcontractor Monthly Payment or the failure to provide the pay application on or before the fifth business day of each month will result in the denial of the next pay application in total and the Owner may designate any such Contractor as a non-responsible business on this Contract and/or a non-responsible bidder for future performance or participation on any Owner contract, may result in the declaration of a material breach of the Contract, imposition of the liquidated damages provision of this Contract or may initiate debarment proceedings pursuant to the Airport Authority’s Procurement and Contracting ordinance, among other remedies at law or equity.

- Quarterly reviews of contract payments to subcontractors including DBEs to evaluate whether the actual amount paid to DBE subcontractors is equivalent to the amounts reported by the prime contractor.
Ongoing electronic database of dates of payments made to prime contractors over the course of any covered contract. These updates will be used to alert subcontractors to the start of the ten (10) day clock for payment and allow for reporting of prompt payment violations.

- Prime contractors will be required to maintain records and documents of payments to subcontractors, including DBEs, for a minimum of three (3) years unless otherwise provided by applicable record retention requirements for the Airport Authority’s financial assistance agreement, whichever is longer. These records will be made available for inspection upon request by any authorized representative of the Airport Authority or DOT. This reporting requirement extends to all subcontractors, both DBE and non-DBE.

4 Prompt Payment Complaint Procedure

- The prime contractor will be required to submit a detailed alternative dispute resolution plan as a matter of responsiveness when submitting their solicitation response. Once the alternative dispute resolution (ADR) plan is approved by the Airport Authority, it will be incorporated into the contract and enforced using the penalties outlined in section 26.29 of this program.

- In the event of a dispute between the prime contractor and a subcontractor with regard to whether work has been satisfactorily completed for purposes of 26.29, a meeting between all interested parties, to include the contractors and Airport Authority project manager and DBELO.

  - The standard order of escalation of a complaint will be to the prime contractor, Airport Authority then FAA.

    - The approved ADR Plan will provide the initial resolution steps to take place between the affected subcontractor and the prime.

    - The affected subcontractor may approach the Airport Authority DBELO directly if they do not feel comfortable contacting the prime or are unable to resolve the payment discrepancies on their own.

    - If filing a prompt payment complaint with the DBELO does not result in timely and meaningful action by the Airport Authority to resolve the prompt payment dispute, the affected contractor may then contact the FAA.

- Airport Authority contracts that are DOT assisted will contain the following language:

  In the event of a dispute between the Contractor and a subcontractor with regard to whether work has been satisfactorily completed for purposes of 49 CFR Part 26 the Airport Authority may, at its sole discretion, require the Contractor and the subcontractor(s) to utilize one or both of the following alternative dispute resolution mechanisms: (i) the mechanism(s) provided by
the Contractor in its Bid, Proposal, Response, or Quote, as is applicable; or (ii) the Airport Authority’s then-standard alternative dispute resolution process.

SECTION 26.39  FOSTERING SMALL BUSINESS PARTICIPATION

The Airport Authority has created a small business element to structure contracting requirements to facilitate competition by small business concerns, taking all reasonable steps to eliminate obstacles to their participation, including unnecessary and unjustified bundling of contract requirements that may preclude small business participation in procurements as prime contractors or subcontractors.

This Airport Authority’s small business program element is incorporated as Appendix 1: Exhibit F of this DBE Program. The program elements are actively implemented to foster small business participation, which is a requirement of good faith implementation of the DBE program.
SUBPART C – GOALS, GOOD FAITH EFFORTS, AND COUNTING

SECTION 26.43  SET-ASIDES OR QUOTAS

The Airport Authority does not use quotas in any way in the administration of this DBE program.

SECTION 26.45  OVERALL GOALS

26.45 (b)  3 Year Goal Setting

The Airport Authority will establish an overall DBE goal covering three federal fiscal year periods if it anticipates awarding FAA funded prime contracts exceeding $250,000 during any one or more of the reporting fiscal years. In accordance with 49 CFR 26.45(f) the Airport Authority will submit its Overall Three-Year DBE Goal to the FAA by August 1 as required by the established schedule below.

<table>
<thead>
<tr>
<th>Airport Type</th>
<th>Region</th>
<th>Date Due (Goal Period)</th>
<th>Next Goal Due (Goal Period)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Large &amp; Medium Hub Primary</td>
<td>All</td>
<td>8/1/16 (2017/2018/2019)</td>
<td>8/1/19 (2020/2021/2022)</td>
</tr>
</tbody>
</table>

DBE goals will be established in accordance with the 2-step process specified in 49 CFR Part 26.45. If the Airport Authority does not anticipate awarding more than $250,000 in DOT-assisted prime contracts during any of the years within the three-year reporting period, an overall goal will not be developed; however this DBE Program will remain in effect and the Airport Authority will seek to fulfill the objectives outlined in 49 CFR Part 26.1. The process and methodology used to calculate the overall goal is shown in Appendix 1: Exhibit G of this program.

The Airport Authority will express the overall goal as a percentage of all federal funds that will be expended on FAA-assisted contracts in the three forthcoming fiscal years. The project goals will be adjusted to reflect changed circumstances, with the concurrence of the appropriate operating administration.

In establishing the overall goal, the Airport Authority will consult with minority, women’s and general contractor groups, community organizations, and other officials or organizations which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and the Airport Authority’s efforts to establish a level playing field for the participation of DBEs. The consultation will include a scheduled, direct, interactive exchange (e.g., face-to-face meeting, video conference, and teleconference) with as many interested stakeholders as possible focused on obtaining information relevant to the Airport Authority’s goal setting process, and it will occur before the goal methodology is required to be submitted to DOT. The goal submission will include documentation of the consultation process which was engaged as well as the names of persons or groups of the members of the consultation.

26.45 (e)  Project Goals

The project goals will meet all the substantive and procedural requirements of 49 CFR 26 pertaining to overall goals with the exception of the base figure used to calculate the goal which will be project specific. Each project goal will cover the entire length of the project goal which applies and include a projection of the DBE participation anticipated to be obtained during each fiscal year covered by the project goal.
26.45 (g)  Goal Distribution/Notice

Following the goal setting consultations, the Airport Authority will publish a notice announcing the proposed overall goal before submission to the operating administration on August 1. The notice will be posted on the Airport Authority’s official website and may be posted in any other sources (e.g. minority-focused media, trade association publications). If the proposed goal changes following review by the operating administration, the revised goal will be posted on the official website. The public will be informed that the proposed overall goal and its rationale will be available for inspection during normal business hours at the following address:

Detroit Metro Airport  
Wayne County Airport Authority  
Procurement Department – Business Diversity Unit  
11050 Rogell Drive #602  
Detroit, MI 48242

The public will also be informed that the Airport Authority and DOT/FAA will accept comments on the goals for 30 days from the date of the notice. Notice will be issued in general circulation media and available minority focused media and trade publications. The public comment period will not extend the August 1st deadline. The goal implementation schedule to be followed on a tri-annual basis is as follows:

<table>
<thead>
<tr>
<th>Event</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Notice/Publication of Proposed Goal</td>
<td>June 1</td>
</tr>
<tr>
<td>Public comment</td>
<td>June 1 – 30</td>
</tr>
<tr>
<td>Goal Revisions/Finalization</td>
<td>July 1 – 31</td>
</tr>
<tr>
<td>Goal submittal to DOT/FAA</td>
<td>August 1</td>
</tr>
<tr>
<td>Goal Effective</td>
<td>October 1</td>
</tr>
</tbody>
</table>

The Overall Three-Year DBE Goal submission to DOT/FAA will include a summary of information and comments received, if any, during the public participation process and the respective responses.

The submitted goal will be used beginning October 1 of the reporting period, unless DOT directs the Airport Authority to complete further instructions. If goals are established on a project basis, the goal will be used by the time of the first solicitation for a DOT-assisted contract for the project.

SECTION 26.47  FAILURE TO MEET OVERALL GOALS

The Airport Authority’s will maintain an approved DBE Program and overall DBE goal, if applicable, as well as administer its DBE Program in good faith to be considered to be in compliance with 49 CFR 26.

If the Airport Authority awards and commitments submitted on the Uniform Report of Awards or Commitments and Payments at the end of any fiscal year are less than the overall goal applicable to that fiscal year, the following will be done in order to be regarded by the Department as implementing the DBE Program in good faith:

1. Analyze in detail the reasons for the difference between the overall goal and the awards and commitments in that fiscal year;
(2) Establish specific steps and milestones to correct the problems identified in the analysis and to meet the next fiscal year goal; and
(3) Submit, within 90 days of the end of the fiscal year, the analysis and corrective actions developed under steps (1) and (2) above to the FAA for approval.

SECTION 26.49 TRANSIT VEHICLE MANUFACTURER GOALS

This section is not applicable.

SECTION 26.51 MEETING OVERALL GOALS

26.51 (a-c) Breakout of Estimated Race-Neutral & Race-Conscious Participation

The Airport Authority will meet the maximum feasible portion of its overall goal by using race-neutral means of facilitating race-neutral DBE participation.

Race-neutral DBE participation includes any time a DBE wins a prime contract through customary competitive procurement procedures, is awarded a subcontract on a prime contract that does not carry a DBE contract goal, or DBE participation which exceeds the contract goal.

Race-neutral means include, but are not limited to the following:

- Arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate participation by DBEs and other small businesses and by making contracts more accessible to small businesses, by means such as those provided under 49 CFR 26.39 (e.g. Unbundling large contracts to make them more accessible to small businesses, or requiring or encouraging prime contractors to subcontract portions of work that they might otherwise perform on their own);

- Providing assistance in overcoming limitations such as inability to obtain bonding or financing (e.g. Simplifying the bonding process, reducing bonding requirements, eliminating the impact of surety costs from bids, and providing services to help DBEs and other small businesses obtain bonding and financing);

- Providing technical assistance and other services;

- Carrying out information and communications programs on contracting procedures and specific contract opportunities (e.g. ensuring the inclusion of DBEs and other small businesses on recipient mailing lists for bidders, ensuring the dissemination to bidders on prime contracts of lists of potential subcontractors, provision of information in languages other than English, where appropriate);

- Implementing a supportive services program to develop and improve immediate and long-term business management, record keeping, and financial and accounting capability for DBEs and other small businesses;
Providing services to help DBEs and other small businesses improve long-term development, increase opportunities to participate in a variety of kinds of work, handle increasingly significant projects, and achieve eventual self-sufficiency;

Establishing a program to assist new, start-up firms, particularly in fields in which DBE participation has historically been low;

Ensuring distribution of your DBE directory, through print and electronic means, to the widest feasible universe of potential prime contractors; and

Assisting DBEs, and other small businesses, to develop their capability to utilize emerging technology and conduct business through electronic media.

The breakout of estimated race-neutral and race-conscious participation is shown in Appendix 1: Exhibit G of this program.

26.51 (d-g) Contract Goals

If the goal projection estimates that the entire overall goal for a given year can be met through race-neutral means, the DBE program will be implemented without setting contract goals during that year, unless it becomes necessary in order to meet the overall goal.

Contract goals will only be established on DOT-assisted contracts that have subcontracting possibilities. The Airport Authority need not establish a contract goal on every such contract, and the size of contract goals will be adapted to the circumstances of each such contract (e.g. type and location of work, availability of DBEs to perform the particular type of work, etc.).

The Authority will express contract goals as a percentage of the total amount of a DOT-assisted contract.

SECTION 26.53 GOOD FAITH EFFORT PROCEDURES

26.53 (a) & (c) Bids - Demonstration of Good Faith Efforts (GFEs)

The obligation of the bidder/offeror is to make good faith efforts towards meeting the DBE contract goal. The bidder/offeror can demonstrate that it has done so either by meeting the contract goal or documenting sufficient good faith efforts; the sufficiency of which will be determined by the DBELO.

Bidders are to make good faith efforts to identify and subcontract portions of DOT-assisted contracts to DBEs. Bidders who do not succeed in obtaining enough DBE participation to meet the established contract goal are required to, and must submit prior to award, evidence as outlined in 49 CFR Part 26, Appendix A, in order to remain under consideration for a contract.

A list of efforts that a bidder may make, and the DBELO may use, in making a determination as to the acceptability of the bidder's good faith effort documents, are as follows:

1. Whether the bidder attended any pre-solicitation or pre-bid meetings, which were scheduled by the Airport Authority to inform DBEs of contracting and subcontracting opportunities;
2. Whether the bidder advertised in general circulation, trade association, and minority-focused media concerning the sub-contracting opportunities;
(3) Whether the bidder provided written notice to a reasonable number of specific DBEs that their interest in the contract was being solicited, in sufficient time to allow the DBEs to participate effectively;
(4) Whether the bidder followed up initial solicitations of interest by contracting DBEs to determine, with certainty, whether the DBEs were interested;
(5) Whether the bidder selected portions of work to be performed by DBEs in order to increase the possibility of meeting the DBE goal (including, where appropriate, breaking down contracts into economically feasible units to facilitate DBE participation);
(6) Whether the bidder provided interested DBEs with adequate information about the plans, specifications and requirements of the contract;
(7) Whether the bidder negotiated in good faith with interested DBEs, not rejecting DBEs as unqualified without sound reasons based on a thorough investigation of their capabilities;
(8) Whether the bidder made efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance required by the Authority or contractor; and
(9) Whether the bidder effectively used the services of available minority and women community organizations; minority and women contractors’ groups; local, state and Federal minority business assistance offices; and other organizations which provide assistance in the recruitment and placement of socially and economically individuals.

26.53 (b)  Bids - Information to be Submitted

The Airport Authority treats bidder/offerors’ compliance with good faith effort requirements as a matter of responsiveness. As a result each solicitation for which a contract goal has been established will require the bidders/offerors to submit the following information by bid deadline and verified before the contract is executed:

(1) The names and addresses of DBE firms that will participate in the contract;
(2) A description of the work that each DBE will perform (in order to be counted toward meeting the goal, each DBE firm must be certified in a NAICS code applicable to the kind of work the firm would perform on the contract);
(3) The dollar amount of the participation of each DBE firm participating;
(4) Written and signed documentation of commitment to use a DBE subcontractor whose participation it submits to meet a contract goal; and
(5) Written and signed confirmation from each listed DBE that it is participating in the contract in the kind and amount of work provided in the prime contractor’s commitment.

If the contract goal is not met, evidence of adequate good faith efforts which include copies of each DBE and non-DBE subcontractor quote submitted to the bidder when a non-DBE subcontractor was selected over a DBE for work on the contract.
26.53 (d) Bids – Administrative reconsideration

Within 7 business days of being informed by the Airport Authority that it is not responsive because it has not documented sufficient good faith efforts, a bidder/offeror may request administrative reconsideration. Bidder/offerors should make this request in writing to the following reconsideration official:

    Samuel Nouhan  
    Vice President - Procurement Department  
    Detroit Metro Airport, WCAA  
    11050 Rogell Drive #602  
    Detroit, MI 48242

The reconsideration official will not have played any role in the original determination that the bidder/offeror did not document sufficient good faith efforts.

As part of this reconsideration, the bidder/offeror will have the opportunity to provide written documentation or argument concerning the issue of whether it met the goal or made adequate good faith efforts to do so. The bidder/offeror will have the opportunity to meet in person with the reconsideration official to discuss the issue of whether it met the goal or made adequate good faith efforts to do so. The Airport Authority will send the bidder/offeror a written decision on reconsideration, explaining the basis for finding that the bidder did or did not meet the goal or make adequate good faith efforts to do so. The result of the reconsideration process is not administratively appealable to the Department of Transportation.

26.53 (f) & (g) Termination of DBE Contractors

The prime contractor will not be allowed to terminate a DBE subcontractor listed in the prime contract without written consent from the Airport Authority. In addition to post-award terminations, the pre-award deletions of or substitutions for DBE firms put forward by offerors in negotiated procurements must also be approved by the Airport Authority.

To enforce this requirement, the Airport Authority will include in each prime contract, a provision stating:

    Contractor must not make arbitrary changes to the commitments earlier certified in any of the DBE and Non-DBE subcontract Monthly Participation Reports or Proposed Credit Forms. Further, after once entering into each DBE subcontract or other agreement, Contractor may neither terminate the DBE nor reduce the scope of the work to be performed by the DBE, nor decrease the payment to the DBE, without in each instance (i) having just cause; (ii) providing subcontractor with opportunity to respond; (iii) making Good-Faith Efforts to find another DBE subcontractor to substitute for the original DBE (these Good-Faith Efforts must be directed at finding another DBE to perform at least the same amount of Work under the Contract as the DBE that was terminated, to the extent needed to meet the Contract DBE Participation Goal); and (iv) receiving the prior written approval of the Owner in all instances.

The subcontractors must also ensure that all subcontracts or agreements with DBEs to supply labor or materials require that the subcontract and all lower tier subcontractors be performed in accordance with 49 CFR 26.
Written consent will only be provided if the Airport Authority agrees, for reasons stated in the concurrence document, that the prime contractor has good cause to terminate the DBE firm.

Good cause includes the following circumstances:

1. The listed DBE subcontractor fails or refuses to execute a written contract;
2. The listed DBE subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the prime contractor;
3. The listed DBE subcontractor fails or refuses to meet the prime contractor’s reasonable, non-discriminatory bond requirements.
4. The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness;
5. The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant to 2 CFR Parts 180, 215 and 1,200 or applicable state law;
6. The Airport Authority has determined that the listed DBE subcontractor is not a responsible contractor;
7. The listed DBE subcontractor voluntarily withdraws from the project and provides to the Airport Authority written notice of its withdrawal;
8. The listed DBE is ineligible to receive DBE credit for the type of work required;
9. A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract;
10. Other documented good cause that the Airport Authority has determined compels the termination of the DBE subcontractor. Provided, that good cause does not exist if the prime contractor seeks to terminate a DBE it relied upon to obtain the contract so that the prime contractor can self-perform the work for which the DBE contractor was engaged or so that the prime contractor can substitute another DBE or non-DBE contractor after contract award.

Before transmitting to the Airport Authority its request to terminate and/or substitute a DBE subcontractor, the prime contractor must give notice in writing to the DBE subcontractor, with a copy to the Airport Authority, of its intent to request to terminate and/or substitute, and the reason for the request.

The prime contractor must give the DBE five (5) days to respond to the prime contractor’s notice and advise the Airport Authority and the contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why the Airport Authority should not approve the prime contractor’s action. If required in a particular case as a matter of public necessity (e.g., safety), the Airport Authority may provide a response period shorter than five (5) days.

In accordance with 29 CFR 26.53(f)(2) the Airport Authority will require a contractor to make good faith efforts to replace a DBE that is terminated or has otherwise failed to complete its work on a contract with another certified DBE, to the extent needed to meet the contract goal. In this instance, the Airport Authority will require the prime contractor to make available upon request, a copy of all new, amended DBE subcontracts or good faith efforts.
If the contractor fails or refuses to comply in the time specified, the Airport Authority’s CEO or designee will assess penalties until satisfactory action has been taken up to and including: stop payment; liquidated damages; fines; and debarment. If the contractor still fails to comply, the contracting officer may issue a contract termination for default proceeding.

Forms that are used to collect the information necessary to determine whether a bidder/offeror has satisfied the bid specifications can be found in Appendix 1: Exhibit H of this program.

**SECTION 26.55 COUNTING DBE PARTICIPATION**

The Airport Authority will count DBE participation toward overall and contract goals as provided in 49 CFR 26.55.

In order to have a DBE firm’s participation count toward DBE goals, the firm must be certified as a DBE in accordance with the standards of 49 CFR Part 26 Subpart D, except as provided for in 49 CFR 26.87 (j).

Participation of a DBE subcontract toward a contractor’s final compliance with its DBE obligations on a current contract will not count until the DBE has actually been paid.
**SUBPART D – CERTIFICATION STANDARDS**

**SECTION 26.61 – 26.73 CERTIFICATION PROCESS**

While the Airport Authority is not a certifying agency, it does participate in the Michigan Unified Certification Program (MUCP) that has three certifying agencies in Michigan that use the certification standards of Subpart D of 49 CFR Part 26 to determine the eligibility of firms to participate as DBEs in DOT-assisted contracts. To be certified as a DBE, a firm must meet all certification eligibility standards. All certification decisions are based on the facts as a whole.

For information about the certification process or to apply for certification, firms should contact:

Detroit Department of Transportation (DDOT)

SUBPART E – CERTIFICATION PROCEDURES

SECTION 26.81  UNIFIED CERTIFICATION PROGRAMS

The Airport Authority is the member of a Unified Certification Program (UCP) administered by the State of Michigan Department of Transportation (MDOT). The UCP will meet all of the requirements of 49 CFR 26.81.

The signed agreement page of the Airport Authority’s membership with the MUCP is found in Appendix 1: Exhibit J of this program.
SUBPART F – COMPLIANCE AND ENFORCEMENT

SECTION 26.109 INFORMATION, CONFIDENTIALITY, COOPERATION

The Airport Authority will safeguard from disclosure to third parties information that may reasonably be regarded as confidential business information, consistent with Federal, state, and local law.

Personal and business information will only be shared with others if:

- Consent has been given to share the information;
- The information needs to be shared to provide the product or service which was requested; or
- Lawful authorization has been given to do so. (e.g. to respond to subpoenas, court orders, legal process, or to requests pursuant to a statute requiring or permitting disclosure such as the Michigan Freedom of Information Act, MCL 15.231, et seq.)

Appendix G to Part 26—Personal Net Worth Statement
Subpart A—General

§26.1 What are the objectives of this part?

This part seeks to achieve several objectives:

(a) To ensure nondiscrimination in the award and administration of DOT-assisted contracts in the Department's highway, transit, and airport financial assistance programs;

(b) To create a level playing field on which DBEs can compete fairly for DOT-assisted contracts;

(c) To ensure that the Department's DBE program is narrowly tailored in accordance with applicable law;

(d) To ensure that only firms that fully meet this part's eligibility standards are permitted to participate as DBEs;

(e) To help remove barriers to the participation of DBEs in DOT-assisted contracts;

(f) To promote the use of DBEs in all types of federally-assisted contracts and procurement activities conducted by recipients.

(g) To assist the development of firms that can compete successfully in the marketplace outside the DBE program; and

(h) To provide appropriate flexibility to recipients of Federal financial assistance in establishing and providing opportunities for DBEs.

§26.3 To whom does this part apply?

(a) If you are a recipient of any of the following types of funds, this part applies to you:

(3) Airport funds authorized by 49 U.S.C. 47101, et seq.

(b) [Reserved]
(c) If you are letting a contract, and that contract is to be performed entirely outside the United States, its territories and possessions, Puerto Rico, Guam, or the Northern Marianas Islands, this part does not apply to the contract.

(d) If you are letting a contract in which DOT financial assistance does not participate, this part does not apply to the contract.

§26.5 What do the terms used in this part mean?

Affiliation has the same meaning the term has in the Small Business Administration (SBA) regulations, 13 CFR part 121.

(1) Except as otherwise provided in 13 CFR part 121, concerns are affiliates of each other when, either directly or indirectly:

(i) One concern controls or has the power to control the other; or

(ii) A third party or parties controls or has the power to control both; or

(iii) An identity of interest between or among parties exists such that affiliation may be found.

(2) In determining whether affiliation exists, it is necessary to consider all appropriate factors, including common ownership, common management, and contractual relationships. Affiliates must be considered together in determining whether a concern meets small business size criteria and the statutory cap on the participation of firms in the DBE program.

Alaska Native means a citizen of the United States who is a person of one-fourth degree or more Alaskan Indian (including Tsimshian Indians not enrolled in the Metlaktla Indian Community), Eskimo, or Aleut blood, or a combination of those bloodlines. The term includes, in the absence of proof of a minimum blood quantum, any citizen whom a Native village or Native group regards as an Alaska Native if their father or mother is regarded as an Alaska Native.

Alaska Native Corporation (ANC) means any Regional Corporation, Village Corporation, Urban Corporation, or Group Corporation organized under the laws of the State of Alaska in accordance with the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1601, et seq.).

Assets mean all the property of a person available for paying debts or for distribution, including one's respective share of jointly held assets. This includes, but is not limited to, cash on hand and in banks, savings accounts, IRA or other retirement accounts, accounts receivable, life insurance, stocks and bonds, real estate, and personal property.

Business, business concern or business enterprise means an entity organized for profit with a place of business located in the United States, and which operates primarily within the United States or which makes a significant contribution to the United States economy through payment of taxes or use of American products, materials, or labor.

Compliance means that a recipient has correctly implemented the requirements of this part.

Contingent Liability means a liability that depends on the occurrence of a future and uncertain event. This includes, but is not limited to, guaranty for debts owed by the applicant concern, legal claims and judgments, and provisions for federal income tax.
**Contract** means a legally binding relationship obligating a seller to furnish supplies or services (including, but not limited to, construction and professional services) and the buyer to pay for them. For purposes of this part, a lease is considered to be a contract.

**Contractor** means one who participates, through a contract or subcontract (at any tier), in a DOT-assisted highway, transit, or airport program.

**Days** mean calendar days. In computing any period of time described in this part, the day from which the period begins to run is not counted, and when the last day of the period is a Saturday, Sunday, or Federal holiday, the period extends to the next day that is not a Saturday, Sunday, or Federal holiday. Similarly, in circumstances where the recipient's offices are closed for all or part of the last day, the period extends to the next day on which the agency is open.

**Department or DOT** means the U.S. Department of Transportation, including the Office of the Secretary, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), and the Federal Aviation Administration (FAA).

**Disadvantaged business enterprise or DBE** means a for-profit small business concern—

1. That is at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged or, in the case of a corporation, in which 51 percent of the stock is owned by one or more such individuals; and

2. Whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

**DOT-assisted contract** means any contract between a recipient and a contractor (at any tier) funded in whole or in part with DOT financial assistance, including letters of credit or loan guarantees, except a contract solely for the purchase of land.

**Good faith efforts** means efforts to achieve a DBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, can reasonably be expected to fulfill the program requirement.

**Home state** means the state in which a DBE firm or applicant for DBE certification maintains its principal place of business.

**Immediate family member** means father, mother, husband, wife, son, daughter, brother, sister, grandfather, grandmother, father-in-law, mother-in-law, sister-in-law, brother-in-law, and domestic partner and civil unions recognized under State law.

**Indian tribe** means any Indian tribe, band, nation, or other organized group or community of Indians, including any ANC, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians, or is recognized as such by the State in which the tribe, band, nation, group, or community resides. See definition of “tribally-owned concern” in this section.

**Joint venture** means an association of a DBE firm and one or more other firms to carry out a single, for-profit business enterprise, for which the parties combine their property, capital, efforts, skills and knowledge, and in which the DBE is responsible for a distinct, clearly defined portion of the work of the contract and whose share in the capital contribution, control, management, risks, and profits of the joint venture are commensurate with its ownership interest.

**Liabilities** mean financial or pecuniary obligations. This includes, but is not limited to, accounts payable, notes payable to bank or others, installment accounts, mortgages on real estate, and unpaid taxes.
Native Hawaiian means any individual whose ancestors were natives, prior to 1778, of the area which now comprises the State of Hawaii.

Native Hawaiian Organization means any community service organization serving Native Hawaiians in the State of Hawaii which is a not-for-profit organization chartered by the State of Hawaii, is controlled by Native Hawaiians, and whose business activities will principally benefit such Native Hawaiians.

Noncompliance means that a recipient has not correctly implemented the requirements of this part.

Operating Administration or OA means any of the following parts of DOT: the Federal Aviation Administration (FAA), Federal Highway Administration (FHWA), and Federal Transit Administration (FTA). The “Administrator” of an operating administration includes his or her designees.

Personal net worth means the net value of the assets of an individual remaining after total liabilities are deducted. An individual's personal net worth does not include: The individual's ownership interest in an applicant or participating DBE firm; or the individual's equity in his or her primary place of residence. An individual's personal net worth includes only his or her own share of assets held jointly or as community property with the individual's spouse.

Primary industry classification means the most current North American Industry Classification System (NAICS) designation which best describes the primary business of a firm. The NAICS is described in the North American Industry Classification Manual—United States, which is available on the Internet at the U.S. Census Bureau Web site: http://www.census.gov/eos/www/naics/.

Primary recipient means a recipient which receives DOT financial assistance and passes some or all of it on to another recipient.

Principal place of business means the business location where the individuals who manage the firm's day-to-day operations spend most working hours. If the offices from which management is directed and where the business records are kept are in different locations, the recipient will determine the principal place of business.

Program means any undertaking on a recipient's part to use DOT financial assistance, authorized by the laws to which this part applies.

Race-conscious measure or program is one that is focused specifically on assisting only DBEs, including women-owned DBEs.

Race-neutral measure or program is one that is, or can be, used to assist all small businesses. For the purposes of this part, race-neutral includes gender-neutrality.

Recipient is any entity, public or private, to which DOT financial assistance is extended, whether directly or through another recipient, through the programs of the FAA, FHWA, or FTA, or who has applied for such assistance.

Secretary means the Secretary of Transportation or his/her designee.

Set-aside means a contracting practice restricting eligibility for the competitive award of a contract solely to DBE firms.

Small Business Administration or SBA means the United States Small Business Administration.

SBA certified firm refers to firms that have a current, valid certification from or recognized by the SBA under the 8(a) BD or SDB programs.

Small business concern means, with respect to firms seeking to participate as DBEs in DOT-assisted contracts, a small business concern as defined pursuant to section 3 of the Small Business Act.
Socially and economically disadvantaged individual means any individual who is a citizen (or lawfully admitted permanent resident) of the United States and who has been subjected to racial or ethnic prejudice or cultural bias within American society because of his or her identity as a members of groups and without regard to his or her individual qualities. The social disadvantage must stem from circumstances beyond the individual's control.

(1) Any individual who a recipient finds to be a socially and economically disadvantaged individual on a case-by-case basis. An individual must demonstrate that he or she has held himself or herself out, as a member of a designated group if you require it.

(2) Any individual in the following groups, members of which are rebuttably presumed to be socially and economically disadvantaged:

(i) "Black Americans," which includes persons having origins in any of the Black racial groups of Africa;

(ii) "Hispanic Americans," which includes persons of Mexican, Puerto Rican, Cuban, Dominican, Central or South American, or other Spanish or Portuguese culture or origin, regardless of race;

(iii) "Native Americans," which includes persons who are enrolled members of a federally or State recognized Indian tribe, Alaska Natives, or Native Hawaiians;

(iv) "Asian-Pacific Americans," which includes persons whose origins are from Japan, China, Taiwan, Korea, Burma (Myanmar), Vietnam, Laos, Cambodia (Kampuchea), Thailand, Malaysia, Indonesia, the Philippines, Brunei, Samoa, Guam, the U.S. Trust Territories of the Pacific Islands (Republic of Palau), Republic of the Northern Marianas Islands, Samoa, Macao, Fiji, Tonga, Kirbati, Tuvalu, Nauru, Federated States of Micronesia, or Hong Kong;

(v) "Subcontinent Asian Americans," which includes persons whose origins are from India, Pakistan, Bangladesh, Bhutan, the Maldives Islands, Nepal or Sri Lanka;

(vi) Women;

(vii) Any additional groups whose members are designated as socially and economically disadvantaged by the SBA, at such time as the SBA designation becomes effective.

(3) Being born in a particular country does not, standing alone, mean that a person is necessarily a member of one of the groups listed in this definition.

Spouse means a married person, including a person in a domestic partnership or a civil union recognized under State law.

Transit vehicle manufacturer means any manufacturer whose primary business purpose is to manufacture vehicles specifically built for public mass transportation. Such vehicles include, but are not limited to: Buses, rail cars, trolleys, ferries, and vehicles manufactured specifically for paratransit purposes. Producers of vehicles that receive post-production alterations or retrofitting to be used for public transportation purposes (e.g., so-called cutaway vehicles, vans customized for service to people with disabilities) are also considered transit vehicle manufacturers. Businesses that manufacture, mass-produce, or distribute vehicles solely for personal use and for sale "off the lot" are not considered transit vehicle manufacturers.

Tribally-owned concern means any concern at least 51 percent owned by an Indian tribe as defined in this section.
§26.7 What discriminatory actions are forbidden?
(a) You must never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by this part on the basis of race, color, sex, or national origin.

(b) In administering your DBE program, you must not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the program with respect to individuals of a particular race, color, sex, or national origin.

§26.9 How does the Department issue guidance and interpretations under this part?
(a) Only guidance and interpretations (including interpretations set forth in certification appeal decisions) consistent with this part 26 and issued after March 4, 1999 express the official positions and views of the Department of Transportation or any of its operating administrations.

(b) The Secretary of Transportation, Office of the Secretary of Transportation, FHWA, FTA, and FAA may issue written interpretations of or written guidance concerning this part. Written interpretations and guidance are valid, and express the official positions and views of the Department of Transportation or any of its operating administrations, only if they are issued over the signature of the Secretary of Transportation or if they contain the following statement:

The General Counsel of the Department of Transportation has reviewed this document and approved it as consistent with the language and intent of 49 CFR part 26.

[72 FR 15617, Apr. 2, 2007]

§26.11 What records do recipients keep and report?
(a) You must transmit the Uniform Report of DBE Awards or Commitments and Payments, found in Appendix B to this part, at the intervals stated on the form.

(b) You must continue to provide data about your DBE program to the Department as directed by DOT operating administrations.

(c) You must create and maintain a bidders list.

(1) The purpose of this list is to provide you as accurate data as possible about the universe of DBE and non-DBE contractors and subcontractors who seek to work on your Federally-assisted contracts for use in helping you set your overall goals.
(2) You must obtain the following information about DBE and non-DBE contractors and subcontractors who seek to work on your Federally-assisted contracts:

(i) Firm name;

(ii) Firm address;

(iii) Firm's status as a DBE or non-DBE;

(iv) Age of the firm; and

(v) The annual gross receipts of the firm. You may obtain this information by asking each firm to indicate into what gross receipts bracket they fit (e.g., less than $500,000; $500,000-$1 million; $1-2 million; $2-5 million; etc.) rather than requesting an exact figure from the firm.

(3) You may acquire the information for your bidders list in a variety of ways. For example, you can collect the data from all bidders, before or after the bid due date. You can conduct a survey that will result in statistically sound estimate of the universe of DBE and non-DBE contractors and subcontractors who seek to work on your Federally-assisted contracts. You may combine different data collection approaches (e.g., collect name and address information from all bidders, while conducting a survey with respect to age and gross receipts information).

(d) You must maintain records documenting a firm's compliance with the requirements of this part. At a minimum, you must keep a complete application package for each certified firm and all affidavits of no-change, change notices, and on-site reviews. These records must be retained in accordance with applicable record retention requirements for the recipient's financial assistance agreement. Other certification or compliance related records must be retained for a minimum of three (3) years unless otherwise provided by applicable record retention requirements for the recipient's financial assistance agreement, whichever is longer.

(e) The State department of transportation in each UCP established pursuant to §26.81 of this part must report to the Department of Transportation's Office of Civil Rights, by January 1, 2015, and each year thereafter, the percentage and location in the State of certified DBE firms in the UCP Directory controlled by the following:

(1) Women;

(2) Socially and economically disadvantaged individuals (other than women); and

(3) Individuals who are women and are otherwise socially and economically disadvantaged individuals.

§26.13 What assurances must recipients and contractors make?

(a) Each financial assistance agreement you sign with a DOT operating administration (or a primary recipient) must include the following assurance: The recipient shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements 49 CFR part 26. The recipient shall take all necessary and reasonable steps under 49 CFR part 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement.
Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under 49 CFR part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.).

(b) Each contract you sign with a contractor (and each subcontract the prime contractor signs with a subcontractor) must include the following assurance: The contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

1. Withholding monthly progress payments;
2. Assessing sanctions;
3. Liquidated damages; and/or
4. Disqualifying the contractor from future bidding as non-responsible.

§26.15 How can recipients apply for exemptions or waivers?

(a) You can apply for an exemption from any provision of this part. To apply, you must request the exemption in writing from the Office of the Secretary of Transportation, FHWA, FTA, or FAA. The Secretary will grant the request only if it documents special or exceptional circumstances, not likely to be generally applicable, and not contemplated in connection with the rulemaking that established this part, that make your compliance with a specific provision of this part impractical. You must agree to take any steps that the Department specifies to comply with the intent of the provision from which an exemption is granted. The Secretary will issue a written response to all exemption requests.

(b) You can apply for a waiver of any provision of Subpart B or C of this part including, but not limited to, any provisions regarding administrative requirements, overall goals, contract goals or good faith efforts. Program waivers are for the purpose of authorizing you to operate a DBE program that achieves the objectives of this part by means that may differ from one or more of the requirements of Subpart B or C of this part. To receive a program waiver, you must follow these procedures:

1. You must apply through the concerned operating administration. The application must include a specific program proposal and address how you will meet the criteria of paragraph (b)(2) of this section. Before submitting your application, you must have had public participation in developing your proposal, including consultation with the DBE community and at least one public hearing. Your application must include a summary of the public participation process and the information gathered through it.

   (i) There is a reasonable basis to conclude that you could achieve a level of DBE participation consistent with the objectives of this part using different or innovative means other than those that are provided in subpart B or C of this part;

   (ii) Conditions in your jurisdiction are appropriate for implementing the proposal;

   (iii) Your proposal would prevent discrimination against any individual or group in access to contracting opportunities or other benefits of the program; and
(iv) Your proposal is consistent with applicable law and program requirements of the concerned operating administration's financial assistance program.

(3) The Secretary has the authority to approve your application. If the Secretary grants your application, you may administer your DBE program as provided in your proposal, subject to the following conditions:

(i) DBE eligibility is determined as provided in subparts D and E of this part, and DBE participation is counted as provided in §26.49;

(ii) Your level of DBE participation continues to be consistent with the objectives of this part;

(iii) There is a reasonable limitation on the duration of your modified program; and

(iv) Any other conditions the Secretary makes on the grant of the waiver.

(4) The Secretary may end a program waiver at any time and require you to comply with this part's provisions. The Secretary may also extend the waiver, if he or she determines that all requirements of paragraphs (b)(2) and (3) of this section continue to be met. Any such extension shall be for no longer than period originally set for the duration of the program.
Subpart B—Administrative Requirements for DBE Programs for Federally-Assisted Contracting

§26.21 Who must have a DBE program?

(a) If you are in one of these categories and let DOT-assisted contracts, you must have a DBE program meeting the requirements of this part:

(1) All FHWA primary recipients receiving funds authorized by a statute to which this part applies;

(2) FTA recipients receiving planning, capital and/or operating assistance who will award prime contracts (excluding transit vehicle purchases) the cumulative total value of which exceeds $250,000 in FTA funds in a Federal fiscal year;

(3) FAA recipients receiving grants for airport planning or development who will award prime contracts the cumulative total value of which exceeds $250,000 in FAA funds in a Federal fiscal year.

(b)(1) You must submit a DBE program conforming to this part by August 31, 1999 to the concerned operating administration (OA). Once the OA has approved your program, the approval counts for all of your DOT-assisted programs (except that goals are reviewed by the particular operating administration that provides funding for your DOT-assisted contracts).

(2) You do not have to submit regular updates of your DBE programs, as long as you remain in compliance. However, you must submit significant changes in the program for approval.

(c) You are not eligible to receive DOT financial assistance unless DOT has approved your DBE program and you are in compliance with it and this part. You must continue to carry out your program until all funds from DOT financial assistance have been expended.

§26.23 What is the requirement for a policy statement?

You must issue a signed and dated policy statement that expresses your commitment to your DBE program, states its objectives, and outlines responsibilities for its implementation. You must circulate the statement throughout your organization and to the DBE and non-DBE business communities that perform work on your DOT-assisted contracts.

§26.25 What is the requirement for a liaison officer?

You must have a DBE liaison officer, who shall have direct, independent access to your Chief Executive Officer concerning DBE program matters. The liaison officer shall be responsible for implementing all aspects of your DBE program. You must also have adequate staff to administer the program in compliance with this part.
§26.27 What efforts must recipients make concerning DBE financial institutions?

You must thoroughly investigate the full extent of services offered by financial institutions owned and controlled by socially and economically disadvantaged individuals in your community and make reasonable efforts to use these institutions. You must also encourage prime contractors to use such institutions.

§26.29 What prompt payment mechanisms must recipients have?

(a) You must establish, as part of your DBE program, a contract clause to require prime contractors to pay subcontractors for satisfactory performance of their contracts no later than 30 days from receipt of each payment you make to the prime contractor.

(b) You must ensure prompt and full payment of retainage from the prime contractor to the subcontractor within 30 days after the subcontractor's work is satisfactorily completed. You must use one of the following methods to comply with this requirement:

(1) You may decline to hold retainage from prime contractors and prohibit prime contractors from holding retainage from subcontractors.

(2) You may decline to hold retainage from prime contractors and require a contract clause obligating prime contractors to make prompt and full payment of any retainage kept by prime contractor to the subcontractor within 30 days after the subcontractor's work is satisfactorily completed.

(3) You may hold retainage from prime contractors and provide for prompt and regular incremental acceptances of portions of the prime contract, pay retainage to prime contractors based on these acceptances, and require a contract clause obligating the prime contractor to pay all retainage owed to the subcontractor for satisfactory completion of the accepted work within 30 days after your payment to the prime contractor.

(c) For purposes of this section, a subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the recipient. When a recipient has made an incremental acceptance of a portion of a prime contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.

(d) Your DBE program must provide appropriate means to enforce the requirements of this section. These means may include appropriate penalties for failure to comply, the terms and conditions of which you set. Your program may also provide that any delay or postponement of payment among the parties may take place only for good cause, with your prior written approval.

(e) You may also establish, as part of your DBE program, any of the following additional mechanisms to ensure prompt payment:

(1) A contract clause that requires prime contractors to include in their subcontracts language providing that prime contractors and subcontractors will use appropriate alternative dispute resolution mechanisms to resolve payment disputes. You may specify the nature of such mechanisms.

(2) A contract clause providing that the prime contractor will not be reimbursed for work performed by subcontractors unless and until the prime contractor ensures that the subcontractors are promptly paid for the work they have performed.

(3) Other mechanisms, consistent with this part and applicable state and local law, to ensure that DBEs and other contractors are fully and promptly paid.

[68 FR 35553, June 16, 2003]
§26.31 What information must you include in your DBE directory?
(a) In the directory required under §26.81(g) of this Part, you must list all firms eligible to participate as DBEs in your program. In the listing for each firm, you must include its address, phone number, and the types of work the firm has been certified to perform as a DBE.

(b) You must list each type of work for which a firm is eligible to be certified by using the most specific NAICS code available to describe each type of work. You must make any changes to your current directory entries necessary to meet the requirement of this paragraph (a) by August 26, 2011.

[76 FR 5096, Jan. 28, 2011]

§26.33 What steps must a recipient take to address overconcentration of DBEs in certain types of work?
(a) If you determine that DBE firms are so overconcentrated in a certain type of work as to unduly burden the opportunity of non-DBE firms to participate in this type of work, you must devise appropriate measures to address this overconcentration.

(b) These measures may include the use of incentives, technical assistance, business development programs, mentor-protégé programs, and other appropriate measures designed to assist DBEs in performing work outside of the specific field in which you have determined that non-DBEs are unduly burdened. You may also consider varying your use of contract goals, to the extent consistent with §26.51, to ensure that non-DBEs are not unfairly prevented from competing for subcontracts.

(c) You must obtain the approval of the concerned DOT operating administration for your determination of overconcentration and the measures you devise to address it. Once approved, the measures become part of your DBE program.

§26.35 What role do business development and mentor-protégé programs have in the DBE program?
(a) You may or, if an operating administration directs you to, you must establish a DBE business development program (BDP) to assist firms in gaining the ability to compete successfully in the marketplace outside the DBE program. You may require a DBE firm, as a condition of receiving assistance through the BDP, to agree to terminate its participation in the DBE program after a certain time has passed or certain objectives have been reached. See Appendix C of this part for guidance on administering BDP programs.

(b) As part of a BDP or separately, you may establish a “mentor-protégé” program, in which another DBE or non-DBE firm is the principal source of business development assistance to a DBE firm.

(1) Only firms you have certified as DBEs before they are proposed for participation in a mentor-protégé program are eligible to participate in the mentor-protégé program.

(2) During the course of the mentor-protégé relationship, you must:
   (i) Not award DBE credit to a non-DBE mentor firm for using its own protégé firm for more than one half of its goal on any contract let by the recipient; and

   (ii) Not award DBE credit to a non-DBE mentor firm for using its own protégé firm for more than every other contract performed by the protégé firm.
(3) For purposes of making determinations of business size under this part, you must not treat protégé firms as affiliates of mentor firms, when both firms are participating under an approved mentor-protégé program. See Appendix D of this part for guidance concerning the operation of mentor-protégé programs.

(c) Your BDPs and mentor-protégé programs must be approved by the concerned operating administration before you implement them. Once approved, they become part of your DBE program.

§26.37 What are a recipient's responsibilities for monitoring the performance of other program participants?

(a) You must implement appropriate mechanisms to ensure compliance with the part's requirements by all program participants (e.g., applying legal and contract remedies available under Federal, state and local law). You must set forth these mechanisms in your DBE program.

(b) Your DBE program must also include a monitoring and enforcement mechanism to ensure that work committed to DBEs at contract award or subsequently (e.g., as the result of modification to the contract) is actually performed by the DBEs to which the work was committed. This mechanism must include a written certification that you have reviewed contracting records and monitored work sites in your state for this purpose. The monitoring to which this paragraph refers may be conducted in conjunction with monitoring of contract performance for other purposes (e.g., close-out reviews for a contract).

(c) This mechanism must provide for a running tally of actual DBE attainments (e.g., payments actually made to DBE firms), including a means of comparing these attainments to commitments. In your reports of DBE participation to the Department, you must display both commitments and attainments.

§26.39 Fostering small business participation.

(a) Your DBE program must include an element to structure contracting requirements to facilitate competition by small business concerns, taking all reasonable steps to eliminate obstacles to their participation, including unnecessary and unjustified bundling of contract requirements that may preclude small business participation in procurements as prime contractors or subcontractors.

(b) This element must be submitted to the appropriate DOT operating administration for approval as a part of your DBE program by February 28, 2012. As part of this program element you may include, but are not limited to, the following strategies:

(1) Establishing a race-neutral small business set-aside for prime contracts under a stated amount (e.g., $1 million).

(2) In multi-year design-build contracts or other large contracts (e.g., for “megaprojects”) requiring bidders on the prime contract to specify elements of the contract or specific subcontracts that are of a size that small businesses, including DBEs, can reasonably perform.

(3) On prime contracts not having DBE contract goals, requiring the prime contractor to provide subcontracting opportunities of a size that small businesses, including DBEs, can reasonably perform, rather than self-performing all the work involved.
(4) Identifying alternative acquisition strategies and structuring procurements to facilitate the ability of consortia or joint ventures consisting of small businesses, including DBEs, to compete for and perform prime contracts.

(5) To meet the portion of your overall goal you project to meet through race-neutral measures, ensuring that a reasonable number of prime contracts are of a size that small businesses, including DBEs, can reasonably perform.

(c) You must actively implement your program elements to foster small business participation. Doing so is a requirement of good faith implementation of your DBE program.

[76 FR 5097, Jan. 28, 2011]
Subpart C—Goals, Good Faith Efforts, and Counting

§26.41 What is the role of the statutory 10 percent goal in this program?

(a) The statutes authorizing this program provide that, except to the extent the Secretary determines otherwise, not less than 10 percent of the authorized funds are to be expended with DBEs.

(b) This 10 percent goal is an aspirational goal at the national level, which the Department uses as a tool in evaluating and monitoring DBEs' opportunities to participate in DOT-assisted contracts.

(c) The national 10 percent goal does not authorize or require recipients to set overall or contract goals at the 10 percent level, or any other particular level, or to take any special administrative steps if their goals are above or below 10 percent.

§26.43 Can recipients use set-asides or quotas as part of this program?

(a) You are not permitted to use quotas for DBEs on DOT-assisted contracts subject to this part.

(b) You may not set-aside contracts for DBEs on DOT-assisted contracts subject to this part, except that, in limited and extreme circumstances, you may use set-asides when no other method could be reasonably expected to redress egregious instances of discrimination.

§26.45 How do recipients set overall goals?

(a)(1) Except as provided in paragraph (a)(2) of this section, you must set an overall goal for DBE participation in your DOT-assisted contracts.

(2) If you are a FTA or FAA recipient who reasonably anticipates awarding (excluding transit vehicle purchases) $250,000 or less in FTA or FAA funds in prime contracts in a Federal fiscal year, you are not required to develop overall goals for FTA or FAA respectively for that fiscal year. However, if you have an existing DBE program, it must remain in effect and you must seek to fulfill the objectives outlined in §26.1.

(b) Your overall goal must be based on demonstrable evidence of the availability of ready, willing and able DBEs relative to all businesses ready, willing and able to participate on your DOT-assisted contracts (hereafter, the “relative availability of DBEs”). The goal must reflect your determination of the level of DBE participation you would expect absent the effects of discrimination. You cannot simply rely on either the 10 percent national goal, your previous overall goal or past DBE participation rates in your program without reference to the relative availability of DBEs in your market.

(c) Step 1. You must begin your goal setting process by determining a base figure for the relative availability of DBEs. The following are examples of approaches that you may take toward determining a base figure. These examples are provided as a starting point for your goal setting process. Any percentage figure derived from one of these examples should be considered a basis from which you begin when examining all evidence available in your jurisdiction. These examples are not intended as an exhaustive list. Other methods or combinations of methods to determine a base figure may be used, subject to approval by the concerned operating administration.

(1) Use DBE Directories and Census Bureau Data. Determine the number of ready, willing and able DBEs in your market from your DBE directory. Using the Census Bureau's County Business Pattern (CBP) data base, determine the number of all ready, willing and able businesses available in your market...
that perform work in the same NAICS codes. (Information about the CBP data base may be obtained from the Census Bureau at their web site, www.census.gov/epcd/cbp/view/cbpview.html.) Divide the number of DBEs by the number of all businesses to derive a base figure for the relative availability of DBEs in your market.

(2) Use a bidders list. Determine the number of DBEs that have bid or quoted (successful and unsuccessful) on your DOT-assisted prime contracts or subcontracts in the past three years. Determine the number of all businesses that have bid or quoted (successful and unsuccessful) on prime or subcontracts in the same time period. Divide the number of DBE bidders and quoters by the number of all businesses to derive a base figure for the relative availability of DBEs in your market. When using this approach, you must establish a mechanism (documented in your goal submission) to directly capture data on DBE and non-DBE prime and subcontractors that submitted bids or quotes on your DOT-assisted contracts.

(3) Use data from a disparity study. Use a percentage figure derived from data in a valid, applicable disparity study.

(4) Use the goal of another DOT recipient. If another DOT recipient in the same, or substantially similar, market has set an overall goal in compliance with this rule, you may use that goal as a base figure for your goal.

(5) Alternative methods. Except as otherwise provided in this paragraph, you may use other methods to determine a base figure for your overall goal. Any methodology you choose must be based on demonstrable evidence of local market conditions and be designed to ultimately attain a goal that is rationally related to the relative availability of DBEs in your market. The exclusive use of a list of prequalified contractors or plan holders, or a bidders list that does not comply with the requirements of paragraph (c)(2) of this section, is not an acceptable alternative means of determining the availability of DBEs.

(d) Step 2. Once you have calculated a base figure, you must examine all of the evidence available in your jurisdiction to determine what adjustment, if any, is needed to the base figure to arrive at your overall goal. If the evidence does not suggest an adjustment is necessary, then no adjustment shall be made.

(1) There are many types of evidence that must be considered when adjusting the base figure. These include:

(i) The current capacity of DBEs to perform work in your DOT-assisted contracting program, as measured by the volume of work DBEs have performed in recent years;

(ii) Evidence from disparity studies conducted anywhere within your jurisdiction, to the extent it is not already accounted for in your base figure; and

(iii) If your base figure is the goal of another recipient, you must adjust it for differences in your local market and your contracting program.

(2) If available, you must consider evidence from related fields that affect the opportunities for DBEs to form, grow and compete. These include, but are not limited to:

(i) Statistical disparities in the ability of DBEs to get the financing, bonding and insurance required to participate in your program;

(ii) Data on employment, self-employment, education, training and union apprenticeship programs, to the extent you can relate it to the opportunities for DBEs to perform in your program.

(3) If you attempt to make an adjustment to your base figure to account for the continuing effects of past discrimination (often called the “but for” factor) or the effects of an ongoing DBE program, the
adjustment must be based on demonstrable evidence that is logically and directly related to the effect for which the adjustment is sought.

(e) Once you have determined a percentage figure in accordance with paragraphs (c) and (d) of this section, you should express your overall goal as follows:

(1) If you are an FHWA recipient, as a percentage of all Federal-aid highway funds you will expend in FHWA-assisted contracts in the forthcoming three fiscal years.

(2) If you are an FTA or FAA recipient, as a percentage of all FT or FAA funds (exclusive of FTA funds to be used for the purchase of transit vehicles) that you will expend in FTA or FAA-assisted contracts in the three forthcoming fiscal years.

(3) In appropriate cases, the FHWA, FTA or FAA Administrator may permit or require you to express your overall goal as a percentage of funds for a particular grant or project or group of grants and/or projects, including entire projects. Like other overall goals, a project goal may be adjusted to reflect changed circumstances, with the concurrence of the appropriate operating administration.

(i) A project goal is an overall goal, and must meet all the substantive and procedural requirements of this section pertaining to overall goals.

(ii) A project goal covers the entire length of the project to which it applies.

(iii) The project goal should include a projection of the DBE participation anticipated to be obtained during each fiscal year covered by the project goal.

(iv) The funds for the project to which the project goal pertains are separated from the base from which your regular overall goal, applicable to contracts not part of the project covered by a project goal, is calculated.

(f)(1)(i) If you set your overall goal on a fiscal year basis, you must submit it to the applicable DOT operating administration by August 1 at three-year intervals, based on a schedule established by the FHWA, FTA, or FAA, as applicable, and posted on that agency's Web site.

(ii) You may adjust your three-year overall goal during the three-year period to which it applies, in order to reflect changed circumstances. You must submit such an adjustment to the concerned operating administration for review and approval.

(iii) The operating administration may direct you to undertake a review of your goal if necessary to ensure that the goal continues to fit your circumstances appropriately.

(iv) While you are required to submit an overall goal to FHWA, FTA, or FAA only every three years, the overall goal and the provisions of Sec. 26.47(c) apply to each year during that three-year period.

(v) You may make, for informational purposes, projections of your expected DBE achievements during each of the three years covered by your overall goal. However, it is the overall goal itself, and not these informational projections, to which the provisions of section 26.47(c) of this part apply.

(2) If you are a recipient and set your overall goal on a project or grant basis as provided in paragraph (e)(3) of this section, you must submit the goal for review at a time determined by the FHWA, FTA or FAA Administrator, as applicable.

(3) You must include with your overall goal submission a description of the methodology you used to establish the goal, including your base figure and the evidence with which it was calculated, and the adjustments you made to the base figure and the evidence you relied on for the adjustments. You should also include a summary listing of the relevant available evidence in your jurisdiction and, where applicable, an explanation of why you did not use that evidence to adjust your base figure. You must also
include your projection of the portions of the overall goal you expect to meet through race-neutral and race-conscious measures, respectively (see 26.51(c)).

(4) You are not required to obtain prior operating administration concurrence with your overall goal. However, if the operating administration's review suggests that your overall goal has not been correctly calculated or that your method for calculating goals is inadequate, the operating administration may, after consulting with you, adjust your overall goal or require that you do so. The adjusted overall goal is binding on you. In evaluating the adequacy or soundness of the methodology used to derive the overall goal, the operating administration will be guided by goal setting principles and best practices identified by the Department in guidance issued pursuant to §26.9.

(5) If you need additional time to collect data or take other steps to develop an approach to setting overall goals, you may request the approval of the concerned operating administration for an interim goal and/or goal-setting mechanism. Such a mechanism must:

(i) Reflect the relative availability of DBEs in your local market to the maximum extent feasible given the data available to you; and

(ii) Avoid imposing undue burdens on non-DBEs.

(6) Timely submission and operating administration approval of your overall goal is a condition of eligibility for DOT financial assistance.

(7) If you fail to establish and implement goals as provided in this section, you are not in compliance with this part. If you establish and implement goals in a way different from that provided in this part, you are not in compliance with this part. If you fail to comply with this requirement, you are not eligible to receive DOT financial assistance.

(g)(1) In establishing an overall goal, you must provide for consultation and publication. This includes:

(i) Consultation with minority, women's and general contractor groups, community organizations, and other officials or organizations which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and your efforts to establish a level playing field for the participation of DBEs. The consultation must include a scheduled, direct, interactive exchange (e.g., a face-to-face meeting, video conference, teleconference) with as many interested stakeholders as possible focused on obtaining information relevant to the goal setting process, and it must occur before you are required to submit your methodology to the operating administration for review pursuant to paragraph (f) of this section. You must document in your goal submission the consultation process you engaged in. Notwithstanding paragraph (f)(4) of this section, you may not implement your proposed goal until you have complied with this requirement.

(ii) A published notice announcing your proposed overall goal before submission to the operating administration on August 1st. The notice must be posted on your official Internet Web site and may be posted in any other sources (e.g., minority-focused media, trade association publications). If the proposed goal changes following review by the operating administration, the revised goal must be posted on your official Internet Web site.

(2) At your discretion, you may inform the public that the proposed overall goal and its rationale are available for inspection during normal business hours at your principal office and for a 30-day comment period. Notice of the comment period must include addresses to which comments may be sent. The public comment period will not extend the August 1st deadline set in paragraph (f) of this section.

(h) Your overall goals must provide for participation by all certified DBEs and must not be subdivided into group-specific goals.
§26.47 Can recipients be penalized for failing to meet overall goals?

(a) You cannot be penalized, or treated by the Department as being in noncompliance with this rule, because your DBE participation falls short of your overall goal, unless you have failed to administer your program in good faith.

(b) If you do not have an approved DBE program or overall goal, or if you fail to implement your program in good faith, you are in noncompliance with this part.

(c) If the awards and commitments shown on your Uniform Report of Awards or Commitments and Payments at the end of any fiscal year are less than the overall goal applicable to that fiscal year, you must do the following in order to be regarded by the Department as implementing your DBE program in good faith:

1. Analyze in detail the reasons for the difference between the overall goal and your awards and commitments in that fiscal year;

2. Establish specific steps and milestones to correct the problems you have identified in your analysis and to enable you to meet fully your goal for the new fiscal year;

3. (i) If you are a state highway agency; one of the 50 largest transit authorities as determined by the FTA; or an Operational Evolution Partnership Plan airport or other airport designated by the FAA, you must submit, within 90 days of the end of the fiscal year, the analysis and corrective actions developed under paragraphs (c)(1) and (2) of this section to the appropriate operating administration for approval. If the operating administration approves the report, you will be regarded as complying with the requirements of this section for the remainder of the fiscal year.

   (ii) As a transit authority or airport not meeting the criteria of paragraph (c)(3)(i) of this section, you must retain analysis and corrective actions in your records for three years and make it available to FTA or FAA on request for their review.

4. FHWA, FTA, or FAA may impose conditions on the recipient as part of its approval of the recipient's analysis and corrective actions including, but not limited to, modifications to your overall goal methodology, changes in your race-conscious/race-neutral split, or the introduction of additional race-neutral or race-conscious measures.

5. You may be regarded as being in noncompliance with this Part, and therefore subject to the remedies in §26.103 or §26.105 of this part and other applicable regulations, for failing to implement your DBE program in good faith if any of the following things occur:

   (i) You do not submit your analysis and corrective actions to FHWA, FTA, or FAA in a timely manner as required under paragraph (c)(3) of this section;

   (ii) FHWA, FTA, or FAA disapproves your analysis or corrective actions; or

   (iii) You do not fully implement the corrective actions to which you have committed or conditions that FHWA, FTA, or FAA has imposed following review of your analysis and corrective actions.

6. If, as recipient, your Uniform Report of DBE Awards or Commitments and Payments or other information coming to the attention of FTA, FHWA, or FAA, demonstrates that current trends make it unlikely that you will achieve DBE awards and commitments that would be necessary to allow you to meet your overall goal at the end of the fiscal year, FHWA, FTA, or FAA, as applicable, may require you
to make further good faith efforts, such as by modifying your race-conscious/race-neutral split or introducing additional race-neutral or race-conscious measures for the remainder of the fiscal year.

§26.49 How are overall goals established for transit vehicle manufacturers?

(a) If you are an FTA recipient, you must require in your DBE program that each transit vehicle manufacturer, as a condition of being authorized to bid or propose on FTA-assisted transit vehicle procurements, certify that it has complied with the requirements of this section. You do not include FTA assistance used in transit vehicle procurements in the base amount from which your overall goal is calculated.

(1) Only those transit vehicle manufacturers listed on FTA's certified list of Transit Vehicle Manufacturers, or that have submitted a goal methodology to FTA that has been approved or has not been disapproved, at the time of solicitation are eligible to bid.

(2) A TVM's failure to implement the DBE Program in the manner as prescribed in this section and throughout 49 CFR part 26 will be deemed as non-compliance, which will result in removal from FTA's certified TVMs list, resulting in that manufacturer becoming ineligible to bid.

(3) FTA recipient's failure to comply with the requirements set forth in paragraph (a) of this section may result in formal enforcement action or appropriate sanction as determined by FTA (e.g., FTA declining to participate in the vehicle procurement).

(4) FTA recipients are required to submit within 30 days of making an award, the name of the successful bidder, and the total dollar value of the contract in the manner prescribed in the grant agreement.

(b) If you are a transit vehicle manufacturer, you must establish and submit for FTA's approval an annual overall percentage goal.

(1) In setting your overall goal, you should be guided, to the extent applicable, by the principles underlying §26.45. The base from which you calculate this goal is the amount of FTA financial assistance included in transit vehicle contracts you will bid on during the fiscal year in question, less the portion(s) attributable to the manufacturing process performed entirely by the transit vehicle manufacturer's own forces.

(i) You must consider and include in your base figure all domestic contracting opportunities made available to non-DBE firms; and

(ii) You must exclude from this base figure funds attributable to work performed outside the United States and its territories, possessions, and commonwealths.

(iii) In establishing an overall goal, the transit vehicle manufacturer must provide for public participation. This includes consultation with interested parties consistent with §26.45(g).

(2) The requirements of this part with respect to submission and approval of overall goals apply to you as they do to recipients.

(c) Transit vehicle manufacturers awarded must comply with the reporting requirements of §26.11 of this part including the requirement to submit the Uniform Report of Awards or Commitments and Payments, in order to remain eligible to bid on FTA assisted transit vehicle procurements.
(d) Transit vehicle manufacturers must implement all other applicable requirements of this part, except those relating to UCPs and DBE certification procedures.

(e) If you are an FHWA or FAA recipient, you may, with FHWA or FAA approval, use the procedures of this section with respect to procurements of vehicles or specialized equipment. If you choose to do so, then the manufacturers of this equipment must meet the same requirements (including goal approval by FHWA or FAA) as transit vehicle manufacturers must meet in FTA-assisted procurements.

(f) As a recipient you may, with FTA approval, establish project-specific goals for DBE participation in the procurement of transit vehicles in lieu of complying through the procedures of this section.

[79 FR 59594, Oct. 2, 2014]

§26.51 What means do recipients use to meet overall goals?

(a) You must meet the maximum feasible portion of your overall goal by using race-neutral means of facilitating race-neutral DBE participation. Race-neutral DBE participation includes any time a DBE wins a prime contract through customary competitive procurement procedures or is awarded a subcontract on a prime contract that does not carry a DBE contract goal.

(b) Race-neutral means include, but are not limited to, the following:

(1) Arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate participation by DBEs and other small businesses and by making contracts more accessible to small businesses, by means such as those provided under §26.39 of this part.

(2) Providing assistance in overcoming limitations such as inability to obtain bonding or financing (e.g., by such means as simplifying the bonding process, reducing bonding requirements, eliminating the impact of surety costs from bids, and providing services to help DBEs, and other small businesses, obtain bonding and financing);

(3) Providing technical assistance and other services;

(4) Carrying out information and communications programs on contracting procedures and specific contract opportunities (e.g., ensuring the inclusion of DBEs, and other small businesses, on recipient mailing lists for bidders; ensuring the dissemination to bidders on prime contracts of lists of potential subcontractors; provision of information in languages other than English, where appropriate);

(5) Implementing a supportive services program to develop and improve immediate and long-term business management, record keeping, and financial and accounting capability for DBEs and other small businesses;

(6) Providing services to help DBEs, and other small businesses, improve long-term development, increase opportunities to participate in a variety of kinds of work, handle increasingly significant projects, and achieve eventual self-sufficiency;

(7) Establishing a program to assist new, start-up firms, particularly in fields in which DBE participation has historically been low;

(8) Ensuring distribution of your DBE directory, through print and electronic means, to the widest feasible universe of potential prime contractors; and

(9) Assisting DBEs, and other small businesses, to develop their capability to utilize emerging technology and conduct business through electronic media.
(c) Each time you submit your overall goal for review by the concerned operating administration, you must also submit your projection of the portion of the goal that you expect to meet through race-neutral means and your basis for that projection. This projection is subject to approval by the concerned operating administration, in conjunction with its review of your overall goal.

(d) You must establish contract goals to meet any portion of your overall goal you do not project being able to meet using race-neutral means.

(e) The following provisions apply to the use of contract goals:

(1) You may use contract goals only on those DOT-assisted contracts that have subcontracting possibilities.

(2) You are not required to set a contract goal on every DOT-assisted contract. You are not required to set each contract goal at the same percentage level as the overall goal. The goal for a specific contract may be higher or lower than that percentage level of the overall goal, depending on such factors as the type of work involved, the location of the work, and the availability of DBEs for the work of the particular contract. However, over the period covered by your overall goal, you must set contract goals so that they will cumulatively result in meeting any portion of your overall goal you do not project being able to meet through the use of race-neutral means.

(3) Operating administration approval of each contract goal is not necessarily required. However, operating administrations may review and approve or disapprove any contract goal you establish.

(4) Your contract goals must provide for participation by all certified DBEs and must not be subdivided into group-specific goals.

(f) To ensure that your DBE program continues to be narrowly tailored to overcome the effects of discrimination, you must adjust your use of contract goals as follows:

(1) If your approved projection under paragraph (c) of this section estimates that you can meet your entire overall goal for a given year through race-neutral means, you must implement your program without setting contract goals during that year, unless it becomes necessary in order meet your overall goal.

   Example to paragraph (f)(1): Your overall goal for Year 1 is 12 percent. You estimate that you can obtain 12 percent or more DBE participation through the use of race-neutral measures, without any use of contract goals. In this case, you do not set any contract goals for the contracts that will be performed in Year 1. However, if part way through Year 1, your DBE awards or commitments are not at a level that would permit you to achieve your overall goal for Year 1, you could begin setting race-conscious DBE contract goals during the remainder of the year as part of your obligation to implement your program in good faith.

(2) If, during the course of any year in which you are using contract goals, you determine that you will exceed your overall goal, you must reduce or eliminate the use of contract goals to the extent necessary to ensure that the use of contract goals does not result in exceeding the overall goal. If you determine that you will fall short of your overall goal, then you must make appropriate modifications in your use of race-neutral and/or race-conscious measures to allow you to meet the overall goal.

   Example to paragraph (f)(2): In Year II, your overall goal is 12 percent. You have estimated that you can obtain 5 percent DBE participation through use of race-neutral measures. You therefore plan to obtain the remaining 7 percent participation through use of DBE goals. By September, you have already obtained 11 percent DBE participation for the year. For contracts let during the remainder of the year, you use contract goals only to the extent necessary to obtain an additional one percent DBE participation. However, if you determine in September that your participation for the year is likely to be only 8 percent total, then you would increase your use of race-neutral and/or race-conscious means during the remainder of the year in order to achieve your overall goal.

(3) If the DBE participation you have obtained by race-neutral means alone meets or exceeds your overall goals for two consecutive years, you are not required to make a projection of the amount of your goal you can meet using such means in the next year. You do not set contract goals on any contracts in
the next year. You continue using only race-neutral means to meet your overall goals unless and until you
do not meet your overall goal for a year.

Example to paragraph (f)(3): Your overall goal for Years I and Year II is 10 percent. The DBE participation you
obtain through race-neutral measures alone is 10 percent or more in each year. (For this purpose, it does not matter
whether you obtained additional DBE participation through using contract goals in these years.) In Year III and
following years, you do not need to make a projection under paragraph (c) of this section of the portion of your overall
goal you expect to meet using race-neutral means. You simply use race-neutral means to achieve your overall goals.
However, if in Year VI your DBE participation falls short of your overall goal, then you must make a paragraph (c)
projection for Year VII and, if necessary, resume use of contract goals in that year.

(4) If you obtain DBE participation that exceeds your overall goal in two consecutive years through
the use of contract goals (i.e., not through the use of race-neutral means alone), you must reduce your
use of contract goals proportionately in the following year.

Example to paragraph (f)(4): In Years I and II, your overall goal is 12 percent, and you obtain 14 and 16 percent
DBE participation, respectively. You have exceeded your goals over the two-year period by an average of 25 percent.
In Year III, your overall goal is again 12 percent, and your paragraph (c) projection estimates that you will obtain 4
percent DBE participation through race-neutral means and 8 percent through contract goals. You then reduce the
contract goal projection by 25 percent (i.e., from 8 to 6 percent) and set contract goals accordingly during the year. If
in Year III you obtain 11 percent participation, you do not use this contract goal adjustment mechanism for Year IV,
because there have not been two consecutive years of exceeding overall goals.

(g) In any year in which you project meeting part of your goal through race-neutral means and the
remainder through contract goals, you must maintain data separately on DBE achievements in those
contracts with and without contract goals, respectively. You must report this data to the concerned
operating administration as provided in §26.11.

(iii) The dollar amount of the participation of each DBE firm participating;

(iv) Written documentation of the bidder/offeror's commitment to use a DBE subcontractor whose participation it submits to meet a contract goal; and

(v) Written confirmation from each listed DBE firm that it is participating in the contract in the kind and amount of work provided in the prime contractor's commitment.

(vi) If the contract goal is not met, evidence of good faith efforts (see Appendix A of this part). The documentation of good faith efforts must include copies of each DBE and non-DBE subcontractor quote submitted to the bidder when a non-DBE subcontractor was selected over a DBE for work on the contract; and

(3)(i) At your discretion, the bidder/offeror must present the information required by paragraph (b)(2) of this section—

(A) Under sealed bid procedures, as a matter of responsiveness, or with initial proposals, under contract negotiation procedures; or

(B) No later than 7 days after bid opening as a matter of responsibility. The 7 days shall be reduced to 5 days beginning January 1, 2017.

(ii) Provided that, in a negotiated procurement, including a design-build procurement, the bidder/offeror may make a contractually binding commitment to meet the goal at the time of bid submission or the presentation of initial proposals but provide the information required by paragraph (b)(2) of this section before the final selection for the contract is made by the recipient.

(c) You must make sure all information is complete and accurate and adequately documents the bidder/offeror's good faith efforts before committing yourself to the performance of the contract by the bidder/offeror.

(d) If you determine that the apparent successful bidder/offeror has failed to meet the requirements of paragraph (a) of this section, you must, before awarding the contract, provide the bidder/offeror an opportunity for administrative reconsideration.

(1) As part of this reconsideration, the bidder/offeror must have the opportunity to provide written documentation or argument concerning the issue of whether it met the goal or made adequate good faith efforts to do so.

(2) Your decision on reconsideration must be made by an official who did not take part in the original determination that the bidder/offeror failed to meet the goal or make adequate good faith efforts to do so.

(3) The bidder/offeror must have the opportunity to meet in person with your reconsideration official to discuss the issue of whether it met the goal or made adequate good faith efforts to do so.

(4) You must send the bidder/offeror a written decision on reconsideration, explaining the basis for finding that the bidder did or did not meet the goal or make adequate good faith efforts to do so.

(5) The result of the reconsideration process is not administratively appealable to the Department of Transportation.

(e) In a "design-build" or "turnkey" contracting situation, in which the recipient lets a master contract to a contractor, who in turn lets subsequent subcontracts for the work of the project, a recipient may establish a goal for the project. The master contractor then establishes contract goals, as appropriate, for the subcontracts it lets. Recipients must maintain oversight of the master contractor's activities to ensure that they are conducted consistent with the requirements of this part.
(f)(1)(i) You must require that a prime contractor not terminate a DBE subcontractor listed in response to paragraph (b)(2) of this section (or an approved substitute DBE firm) without your prior written consent. This includes, but is not limited to, instances in which a prime contractor seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm.

(ii) You must include in each prime contract a provision stating:

(A) That the contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains your written consent as provided in this paragraph (f); and

(B) That, unless your consent is provided under this paragraph (f), the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE.

(2) You may provide such written consent only if you agree, for reasons stated in your concurrence document, that the prime contractor has good cause to terminate the DBE firm.

(3) For purposes of this paragraph, good cause includes the following circumstances:

(i) The listed DBE subcontractor fails or refuses to execute a written contract;

(ii) The listed DBE subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the prime contractor;

(iii) The listed DBE subcontractor fails or refuses to meet the prime contractor's reasonable, nondiscriminatory bond requirements.

(iv) The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness;

(v) The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant 2 CFR Parts 180, 215 and 1,200 or applicable state law;

(vi) You have determined that the listed DBE subcontractor is not a responsible contractor;

(vi) The listed DBE subcontractor voluntarily withdraws from the project and provides to you written notice of its withdrawal;

(vii) The listed DBE is ineligible to receive DBE credit for the type of work required;

(viii) A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract;

(ix) Other documented good cause that you determine compels the termination of the DBE subcontractor. Provided, that good cause does not exist if the prime contractor seeks to terminate a DBE it relied upon to obtain the contract so that the prime contractor can self-perform the work for which the DBE contractor was engaged or so that the prime contractor can substitute another DBE or non-DBE contractor after contract award.

(4) Before transmitting to you its request to terminate and/or substitute a DBE subcontractor, the prime contractor must give notice in writing to the DBE subcontractor, with a copy to you, of its intent to request to terminate and/or substitute, and the reason for the request.

(5) The prime contractor must give the DBE five days to respond to the prime contractor's notice and advise you and the contractor of the reasons, if any, why it objects to the proposed termination of its
subcontract and why you should not approve the prime contractor’s action. If required in a particular case as a matter of public necessity (e.g., safety), you may provide a response period shorter than five days.

(6) In addition to post-award terminations, the provisions of this section apply to preaward deletions of or substitutions for DBE firms put forward by offerors in negotiated procurements.

(g) When a DBE subcontractor is terminated as provided in paragraph (f) of this section, or fails to complete its work on the contract for any reason, you must require the prime contractor to make good faith efforts to find another DBE subcontractor to substitute for the original DBE. These good faith efforts shall be directed at finding another DBE to perform at least the same amount of work under the contract as the DBE that was terminated, to the extent needed to meet the contract goal you established for the procurement. The good faith efforts shall be documented by the contractor. If the recipient requests documentation under this provision, the contractor shall submit the documentation within 7 days, which may be extended for an additional 7 days if necessary at the request of the contractor, and the recipient shall provide a written determination to the contractor stating whether or not good faith efforts have been demonstrated.

(h) You must include in each prime contract the contract clause required by §26.13(b) stating that failure by the contractor to carry out the requirements of this part is a material breach of the contract and may result in the termination of the contract or such other remedies set forth in that section you deem appropriate if the prime contractor fails to comply with the requirements of this section.

(i) You must apply the requirements of this section to DBE bidders/offerors for prime contracts. In determining whether a DBE bidder/offeror for a prime contract has met a contract goal, you count the work the DBE has committed to performing with its own forces as well as the work that it has committed to be performed by DBE subcontractors and DBE suppliers.

(j) You must require the contractor awarded the contract to make available upon request a copy of all DBE subcontracts. The subcontractor shall ensure that all subcontracts or an agreement with DBEs to supply labor or materials require that the subcontract and all lower tier subcontractors be performed in accordance with this part’s provisions.

§26.55 How is DBE participation counted toward goals?

(a) When a DBE participates in a contract, you count only the value of the work actually performed by the DBE toward DBE goals.

(1) Count the entire amount of that portion of a construction contract (or other contract not covered by paragraph (a)(2) of this section) that is performed by the DBE’s own forces. Include the cost of supplies and materials obtained by the DBE for the work of the contract, including supplies purchased or equipment leased by the DBE (except supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate).

(2) Count the entire amount of fees or commissions charged by a DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of a DOT-assisted contract, toward DBE goals, provided you determine the fee to be reasonable and not excessive as compared with fees customarily allowed for similar services.

(3) When a DBE subcontracts part of the work of its contract to another firm, the value of the subcontracted work may be counted toward DBE goals only if the DBE’s subcontractor is itself a DBE. Work that a DBE subcontracts to a non-DBE firm does not count toward DBE goals.
(b) When a DBE performs as a participant in a joint venture, count a portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the DBE performs with its own forces toward DBE goals.

(c) Count expenditures to a DBE contractor toward DBE goals only if the DBE is performing a commercially useful function on that contract.

(1) A DBE performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a commercially useful function, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether a DBE is performing a commercially useful function, you must evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the DBE credit claimed for its performance of the work, and other relevant factors.

(2) A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, you must examine similar transactions, particularly those in which DBEs do not participate.

(3) If a DBE does not perform or exercise responsibility for at least 30 percent of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, you must presume that it is not performing a commercially useful function.

(4) When a DBE is presumed not to be performing a commercially useful function as provided in paragraph (c)(3) of this section, the DBE may present evidence to rebut this presumption. You may determine that the firm is performing a commercially useful function given the type of work involved and normal industry practices.

(5) Your decisions on commercially useful function matters are subject to review by the concerned operating administration, but are not administratively appealable to DOT.

(d) Use the following factors in determining whether a DBE trucking company is performing a commercially useful function:

(1) The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE goals.

(2) The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.

(3) The DBE receives credit for the total value of the transportation services it provides on the contract using trucks it owns, insures, and operates using drivers it employs.

(4) The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the contract.

(5) The DBE may also lease trucks from a non-DBE firm, including from an owner-operator. The DBE that leases trucks equipped with drivers from a non-DBE is entitled to credit for the total value of transportation services provided by non-DBE leased trucks equipped with drivers not to exceed the value of transportation services on the contract provided by DBE-owned trucks or leased trucks with DBE employee drivers. Additional participation by non-DBE owned trucks equipped with drivers receives credit
only for the fee or commission it receives as a result of the lease arrangement. If a recipient chooses this approach, it must obtain written consent from the appropriate DOT operating administration.

Example to paragraph (d)(5): DBE Firm X uses two of its own trucks on a contract. It leases two trucks from DBE Firm Y and six trucks equipped with drivers from non-DBE Firm Z. DBE credit would be awarded for the total value of transportation services provided by Firm X and Firm Y, and may also be awarded for the total value of transportation services provided by four of the six trucks provided by Firm Z. In all, full credit would be allowed for the participation of eight trucks. DBE credit could be awarded only for the fees or commissions pertaining to the remaining trucks Firm X receives as a result of the lease with Firm Z.

(6) The DBE may lease trucks without drivers from a non-DBE truck leasing company. If the DBE leases trucks from a non-DBE truck leasing company and uses its own employees as drivers, it is entitled to credit for the total value of these hauling services.

Example to paragraph (d)(6): DBE Firm X uses two of its own trucks on a contract. It leases two additional trucks from non-DBE Firm Z. Firm X uses its own employees to drive the trucks leased from Firm Z. DBE credit would be awarded for the total value of the transportation services provided by all four trucks.

(7) For purposes of this paragraph (d), a lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

(e) Count expenditures with DBEs for materials or supplies toward DBE goals as provided in the following:

(1)(i) If the materials or supplies are obtained from a DBE manufacturer, count 100 percent of the cost of the materials or supplies toward DBE goals.

(ii) For purposes of this paragraph (e)(1), a manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

(2)(i) If the materials or supplies are purchased from a DBE regular dealer, count 60 percent of the cost of the materials or supplies toward DBE goals.

(ii) For purposes of this section, a regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business.

(A) To be a regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question.

(B) A person may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone, or asphalt without owning, operating, or maintaining a place of business as provided in this paragraph (e)(2)(ii) if the person both owns and operates distribution equipment for the products. Any supplementing of regular dealers' own distribution equipment shall be by a long-term lease agreement and not on an ad hoc or contract-by-contract basis.

(C) Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not regular dealers within the meaning of this paragraph (e)(2).

(3) With respect to materials or supplies purchased from a DBE which is neither a manufacturer nor a regular dealer, count the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on a job site, toward DBE goals, provided you determine the fees to be reasonable and not excessive as compared with fees customarily allowed for similar services. Do not count any portion of the cost of the materials and supplies themselves toward DBE goals, however.
(4) You must determine the amount of credit awarded to a firm for the provisions of materials and supplies (e.g., whether a firm is acting as a regular dealer or a transaction expediter) on a contract-by-contract basis.

(f) If a firm is not currently certified as a DBE in accordance with the standards of subpart D of this part at the time of the execution of the contract, do not count the firm’s participation toward any DBE goals, except as provided for in §26.87(i)).

(g) Do not count the dollar value of work performed under a contract with a firm after it has ceased to be certified toward your overall goal.

(h) Do not count the participation of a DBE subcontractor toward a contractor's final compliance with its DBE obligations on a contract until the amount being counted has actually been paid to the DBE.

Subpart D—Certification Standards

§26.61 How are burdens of proof allocated in the certification process?

(a) In determining whether to certify a firm as eligible to participate as a DBE, you must apply the standards of this subpart.

(b) The firm seeking certification has the burden of demonstrating to you, by a preponderance of the evidence, that it meets the requirements of this subpart concerning group membership or individual disadvantage, business size, ownership, and control.

(c) You must rebuttably presume that members of the designated groups identified in §26.67(a) are socially and economically disadvantaged. This means they do not have the burden of proving to you that they are socially and economically disadvantaged. In order to obtain the benefit of the rebuttable presumption, individuals must submit a signed, notarized statement that they are a member of one of the groups in §26.67(a). Applicants do have the obligation to provide you information concerning their economic disadvantage (see §26.67).

(d) Individuals who are not presumed to be socially and economically disadvantaged, and individuals concerning whom the presumption of disadvantage has been rebutted, have the burden of proving to you, by a preponderance of the evidence, that they are socially and economically disadvantaged. (See Appendix E of this part.)

(e) You must make determinations concerning whether individuals and firms have met their burden of demonstrating group membership, ownership, control, and social and economic disadvantage (where disadvantage must be demonstrated on an individual basis) by considering all the facts in the record, viewed as a whole.

§26.63 What rules govern group membership determinations?

(a)(1) If, after reviewing the signed notarized statement of membership in a presumptively disadvantaged group (see §26.61(c)), you have a well founded reason to question the individual's claim of membership in that group, you must require the individual to present additional evidence that he or she is a member of the group.

(2) You must provide the individual a written explanation of your reasons for questioning his or her group membership and a written request for additional evidence as outlined in paragraph (b) of this section.

(3) In implementing this section, you must take special care to ensure that you do not impose a disproportionate burden on members of any particular designated group. Imposing a disproportionate burden on members of a particular group could violate §26.7(b) and/or Title VI of the Civil Rights Act of 1964 and 49 CFR part 21.

(b) In making such a determination, you must consider whether the person has held himself out to be a member of the group over a long period of time prior to application for certification and whether the person is regarded as a member of the group by the relevant community. You may require the applicant to produce appropriate documentation of group membership.
(1) If you determine that an individual claiming to be a member of a group presumed to be disadvantaged is not a member of a designated disadvantaged group, the individual must demonstrate social and economic disadvantage on an individual basis.

(2) Your decisions concerning membership in a designated group are subject to the certification appeals procedure of §26.89.

§26.65 WHAT RULES GOVERN BUSINESS SIZE DETERMINATIONS?

(a) To be an eligible DBE, a firm (including its affiliates) must be an existing small business, as defined by Small Business Administration (SBA) standards. As a recipient, you must apply current SBA business size standard(s) found in 13 CFR part 121 appropriate to the type(s) of work the firm seeks to perform in DOT-assisted contracts, including the primary industry classification of the applicant.

(b) Even if it meets the requirements of paragraph (a) of this section, a firm is not an eligible DBE in any Federal fiscal year if the firm (including its affiliates) has had average annual gross receipts, as defined by SBA regulations (see 13 CFR 121.402), over the firm's previous three fiscal years, in excess of $23.98 million.

(c) The Department adjusts the number in paragraph (b) of this section annually using the Department of Commerce price deflators for purchases by State and local governments as the basis for this adjustment.

§26.67 WHAT RULES DETERMINE SOCIAL AND ECONOMIC DISADVANTAGE?

(a) Presumption of disadvantage. (1) You must rebuttably presume that citizens of the United States (or lawfully admitted permanent residents) who are women, Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Subcontinent Asian Americans, or other minorities found to be disadvantaged by the SBA, are socially and economically disadvantaged individuals. You must require applicants to submit a signed, notarized certification that each presumptively disadvantaged owner is, in fact, socially and economically disadvantaged.

(2)(i) You must require each individual owner of a firm applying to participate as a DBE, whose ownership and control are relied upon for DBE certification, to certify that he or she has a personal net worth that does not exceed $1.32 million.

(ii) You must require each individual who makes this certification to support it with a signed, notarized statement of personal net worth, with appropriate supporting documentation. To meet this requirement, you must use the DOT personal net worth form provided in appendix G to this part without change or revision. Where necessary to accurately determine an individual's personal net worth, you may, on a case-by-case basis, require additional financial information from the owner of an applicant firm (e.g., information concerning the assets of the owner's spouse, where needed to clarify whether assets have been transferred to the spouse or when the owner's spouse is involved in the operation of the company). Requests for additional information shall not be unduly burdensome or intrusive.

(iii) In determining an individual's net worth, you must observe the following requirements:

(A) Exclude an individual's ownership interest in the applicant firm;
(B) Exclude the individual's equity in his or her primary residence (except any portion of such equity that is attributable to excessive withdrawals from the applicant firm). The equity is the market value of the residence less any mortgages and home equity loan balances. Recipients must ensure that home equity loan balances are included in the equity calculation and not as a separate liability on the individual's personal net worth form. Exclusions for net worth purposes are not exclusions for asset valuation or access to capital and credit purposes.

(C) Do not use a contingent liability to reduce an individual's net worth.

(D) With respect to assets held in vested pension plans, Individual Retirement Accounts, 401(k) accounts, or other retirement savings or investment programs in which the assets cannot be distributed to the individual at the present time without significant adverse tax or interest consequences, include only the present value of such assets, less the tax and interest penalties that would accrue if the asset were distributed at the present time.

(iv) Notwithstanding any provision of Federal or State law, you must not release an individual's personal net worth statement nor any documents pertaining to it to any third party without the written consent of the submitter. Provided, that you must transmit this information to DOT in any certification appeal proceeding under §26.89 of this part or to any other State to which the individual's firm has applied for certification under §26.85 of this part.

(b) Rebuttal of presumption of disadvantage. (1) An individual's presumption of economic disadvantage may be rebutted in two ways.

(i) If the statement of personal net worth and supporting documentation that an individual submits under paragraph (a)(2) of this section shows that the individual's personal net worth exceeds $1.32 million, the individual's presumption of economic disadvantage is rebutted. You are not required to have a proceeding under paragraph (b)(2) of this section in order to rebut the presumption of economic disadvantage in this case.

Example to paragraph (b)(1)(i): An individual with very high assets and significant liabilities may, in accounting terms, have a PNW of less than $1.32 million. However, the person's assets collectively (e.g., high income level, a very expensive house, a yacht, extensive real or personal property holdings) may lead a reasonable person to conclude that he or she is not economically disadvantaged. The recipient may rebut the individual's presumption of economic disadvantage under these circumstances, as provided in this section, even though the individual's PNW is less than $1.32 million.

(ii)(A) If the statement of personal net worth and supporting documentation that an individual submits under paragraph (a)(2) of this section demonstrates that the individual is able to accumulate substantial wealth, the individual's presumption of economic disadvantage is rebutted. In making this determination, as a certifying agency, you may consider factors that include, but are not limited to, the following:

1. Whether the average adjusted gross income of the owner over the most recent three year period exceeds $350,000;
2. Whether the income was unusual and not likely to occur in the future;
3. Whether the earnings were offset by losses;
4. Whether the income was reinvested in the firm or used to pay taxes arising in the normal course of operations by the firm;
5. Other evidence that income is not indicative of lack of economic disadvantage; and
6. Whether the total fair market value of the owner's assets exceed $6 million.

(B) You must have a proceeding under paragraph (b)(2) of this section in order to rebut the presumption of economic disadvantage in this case.
(2) If you have a reasonable basis to believe that an individual who is a member of one of the designated groups is not, in fact, socially and/or economically disadvantaged you may, at any time, start a proceeding to determine whether the presumption should be regarded as rebutted with respect to that individual. Your proceeding must follow the procedures of §26.87.

(3) In such a proceeding, you have the burden of demonstrating, by a preponderance of the evidence, that the individual is not socially and economically disadvantaged. You may require the individual to produce information relevant to the determination of his or her disadvantage.

(4) When an individual's presumption of social and/or economic disadvantage has been rebutted, his or her ownership and control of the firm in question cannot be used for purposes of DBE eligibility under this subpart unless and until he or she makes an individual showing of social and/or economic disadvantage. If the basis for rebutting the presumption is a determination that the individual's personal net worth exceeds $1.32 million, the individual is no longer eligible for participation in the program and cannot regain eligibility by making an individual showing of disadvantage, so long as his or her PNW remains above that amount.

(c) Transfers within two years. (1) Except as set forth in paragraph (c)(2) of this section, recipients must attribute to an individual claiming disadvantaged status any assets which that individual has transferred to an immediate family member, to a trust a beneficiary of which is an immediate family member, or to the applicant firm for less than fair market value, within two years prior to a concern's application for participation in the DBE program or within two years of recipient's review of the firm's annual affidavit, unless the individual claiming disadvantaged status can demonstrate that the transfer is to or on behalf of an immediate family member for that individual's education, medical expenses, or some other form of essential support.

(2) Recipients must not attribute to an individual claiming disadvantaged status any assets transferred by that individual to an immediate family member that are consistent with the customary recognition of special occasions, such as birthdays, graduations, anniversaries, and retirements.

(d) Individual determinations of social and economic disadvantage. Firms owned and controlled by individuals who are not presumed to be socially and economically disadvantaged (including individuals whose presumed disadvantage has been rebutted) may apply for DBE certification. You must make a case-by-case determination of whether each individual whose ownership and control are relied upon for DBE certification is socially and economically disadvantaged. In such a proceeding, the applicant firm has the burden of demonstrating to you, by a preponderance of the evidence, that the individuals who own and control it are socially and economically disadvantaged. An individual whose personal net worth exceeds $1.32 million shall not be deemed to be economically disadvantaged. In making these determinations, use the guidance found in Appendix E of this part. You must require that applicants provide sufficient information to permit determinations under the guidance of appendix E of this part.

[79 FR 59596, Oct. 2, 2014]

§26.69 What rules govern determinations of ownership?

(a) In determining whether the socially and economically disadvantaged participants in a firm own the firm, you must consider all the facts in the record viewed as a whole, including the origin of all assets and how and when they were used in obtaining the firm. All transactions for the establishment and ownership (or transfer of ownership) must be in the normal course of business, reflecting commercial and arms-length practices.

(b) To be an eligible DBE, a firm must be at least 51 percent owned by socially and economically disadvantaged individuals.
(1) In the case of a corporation, such individuals must own at least 51 percent of the each class of voting stock outstanding and 51 percent of the aggregate of all stock outstanding.

(2) In the case of a partnership, 51 percent of each class of partnership interest must be owned by socially and economically disadvantaged individuals. Such ownership must be reflected in the firm's partnership agreement.

(3) In the case of a limited liability company, at least 51 percent of each class of member interest must be owned by socially and economically disadvantaged individuals.

(c)(1) The firm's ownership by socially and economically disadvantaged individuals, including their contribution of capital or expertise to acquire their ownership interests, must be real, substantial, and continuing, going beyond pro forma ownership of the firm as reflected in ownership documents. Proof of contribution of capital should be submitted at the time of the application. When the contribution of capital is through a loan, there must be documentation of the value of assets used as collateral for the loan.

(2) Insufficient contributions include a promise to contribute capital, an unsecured note payable to the firm or an owner who is not a disadvantaged individual, mere participation in a firm's activities as an employee, or capitalization not commensurate with the value for the firm.

(3) The disadvantaged owners must enjoy the customary incidents of ownership, and share in the risks and be entitled to the profits and loss commensurate with their ownership interests, as demonstrated by the substance, not merely the form, of arrangements. Any terms or practices that give a non-disadvantaged individual or firm a priority or superior right to a firm's profits, compared to the disadvantaged owner(s), are grounds for denial.

(4) Debt instruments from financial institutions or other organizations that lend funds in the normal course of their business do not render a firm ineligible, even if the debtor's ownership interest is security for the loan.

Examples to paragraph (c): (i) An individual pays $100 to acquire a majority interest in a firm worth $1 million. The individual's contribution to capital would not be viewed as substantial.

(ii) A 51% disadvantaged owner and a non-disadvantaged 49% owner contribute $100 and $10,000, respectively, to acquire a firm grossing $1 million. This may be indicative of a pro forma arrangement that does not meet the requirements of (c)(1).

(iii) The disadvantaged owner of a DBE applicant firm spends $250 to file articles of incorporation and obtains a $100,000 loan, but makes only nominal or sporadic payments to repay the loan. This type of contribution is not of a continuing nature.

(d) All securities that constitute ownership of a firm shall be held directly by disadvantaged persons. Except as provided in this paragraph (d), no securities or assets held in trust, or by any guardian for a minor, are considered as held by disadvantaged persons in determining the ownership of a firm. However, securities or assets held in trust are regarded as held by a disadvantaged individual for purposes of determining ownership of the firm, if—

(1) The beneficial owner of securities or assets held in trust is a disadvantaged individual, and the trustee is the same or another such individual; or

(2) The beneficial owner of a trust is a disadvantaged individual who, rather than the trustee, exercises effective control over the management, policy-making, and daily operational activities of the firm. Assets held in a revocable living trust may be counted only in the situation where the same disadvantaged individual is the sole grantor, beneficiary, and trustee.

(e) The contributions of capital or expertise by the socially and economically disadvantaged owners to acquire their ownership interests must be real and substantial. Examples of insufficient contributions include a promise to contribute capital, an unsecured note payable to the firm or an owner who is not a disadvantaged individual, or mere participation in a firm's activities as an employee. Debt instruments
from financial institutions or other organizations that lend funds in the normal course of their business do not render a firm ineligible, even if the debtor's ownership interest is security for the loan.

(f) The following requirements apply to situations in which expertise is relied upon as part of a disadvantaged owner's contribution to acquire ownership:

(1) The owner's expertise must be—

(i) In a specialized field;

(ii) Of outstanding quality;

(iii) In areas critical to the firm's operations;

(iv) Indispensable to the firm's potential success;

(v) Specific to the type of work the firm performs; and

(vi) Documented in the records of the firm. These records must clearly show the contribution of expertise and its value to the firm.

(2) The individual whose expertise is relied upon must have a significant financial investment in the firm.

(g) You must always deem as held by a socially and economically disadvantaged individual, for purposes of determining ownership, all interests in a business or other assets obtained by the individual—

(1) As the result of a final property settlement or court order in a divorce or legal separation, provided that no term or condition of the agreement or divorce decree is inconsistent with this section; or

(2) Through inheritance, or otherwise because of the death of the former owner.

(h)(1) You must presume as not being held by a socially and economically disadvantaged individual, for purposes of determining ownership, all interests in a business or other assets obtained by the individual as the result of a gift, or transfer without adequate consideration, from any non-disadvantaged individual or non-DBE firm who is—

(i) Involved in the same firm for which the individual is seeking certification, or an affiliate of that firm;

(ii) Involved in the same or a similar line of business; or

(iii) Engaged in an ongoing business relationship with the firm, or an affiliate of the firm, for which the individual is seeking certification.

(2) To overcome this presumption and permit the interests or assets to be counted, the disadvantaged individual must demonstrate to you, by clear and convincing evidence, that—

(i) The gift or transfer to the disadvantaged individual was made for reasons other than obtaining certification as a DBE; and

(ii) The disadvantaged individual actually controls the management, policy, and operations of the firm, notwithstanding the continuing participation of a non-disadvantaged individual who provided the gift or transfer.

(i) You must apply the following rules in situations in which marital assets form a basis for ownership of a firm:

(1) When marital assets (other than the assets of the business in question), held jointly or as community property by both spouses, are used to acquire the ownership interest asserted by one spouse,
you must deem the ownership interest in the firm to have been acquired by that spouse with his or her own individual resources, provided that the other spouse irrevocably renounces and transfers all rights in the ownership interest in the manner sanctioned by the laws of the state in which either spouse or the firm is domiciled. You do not count a greater portion of joint or community property assets toward ownership than state law would recognize as belonging to the socially and economically disadvantaged owner of the applicant firm.

(2) A copy of the document legally transferring and renouncing the other spouse's rights in the jointly owned or community assets used to acquire an ownership interest in the firm must be included as part of the firm's application for DBE certification.

(j) You may consider the following factors in determining the ownership of a firm. However, you must not regard a contribution of capital as failing to be real and substantial, or find a firm ineligible, solely because—

(1) A socially and economically disadvantaged individual acquired his or her ownership interest as the result of a gift, or transfer without adequate consideration, other than the types set forth in paragraph (h) of this section;

(2) There is a provision for the co-signature of a spouse who is not a socially and economically disadvantaged individual on financing agreements, contracts for the purchase or sale of real or personal property, bank signature cards, or other documents; or

(3) Ownership of the firm in question or its assets is transferred for adequate consideration from a spouse who is not a socially and economically disadvantaged individual to a spouse who is such an individual. In this case, you must give particularly close and careful scrutiny to the ownership and control of a firm to ensure that it is owned and controlled, in substance as well as in form, by a socially and economically disadvantaged individual.

§26.71 What rules govern determinations concerning control?

(a) In determining whether socially and economically disadvantaged owners control a firm, you must consider all the facts in the record, viewed as a whole.

(b) Only an independent business may be certified as a DBE. An independent business is one the viability of which does not depend on its relationship with another firm or firms.

(1) In determining whether a potential DBE is an independent business, you must scrutinize relationships with non-DBE firms, in such areas as personnel, facilities, equipment, financial and/or bonding support, and other resources.

(2) You must consider whether present or recent employer/employee relationships between the disadvantaged owner(s) of the potential DBE and non-DBE firms or persons associated with non-DBE firms compromise the independence of the potential DBE firm.

(3) You must examine the firm's relationships with prime contractors to determine whether a pattern of exclusive or primary dealings with a prime contractor compromises the independence of the potential DBE firm.

(4) In considering factors related to the independence of a potential DBE firm, you must consider the consistency of relationships between the potential DBE and non-DBE firms with normal industry practice.
(c) A DBE firm must not be subject to any formal or informal restrictions which limit the customary
discretion of the socially and economically disadvantaged owners. There can be no restrictions through
corporate charter provisions, by-law provisions, contracts or any other formal or informal devices (e.g.,
cumulative voting rights, voting powers attached to different classes of stock, employment contracts,
requirements for concurrence by non-disadvantaged partners, conditions precedent or subsequent,
executory agreements, voting trusts, restrictions on or assignments of voting rights) that prevent the
socially and economically disadvantaged owners, without the cooperation or vote of any non-
disadvantaged individual, from making any business decision of the firm. This paragraph does not
preclude a spousal co-signature on documents as provided for in §26.69(j)(2).

(d) The socially and economically disadvantaged owners must possess the power to direct or cause
the direction of the management and policies of the firm and to make day-to-day as well as long-term
decisions on matters of management, policy and operations.

(1) A disadvantaged owner must hold the highest officer position in the company (e.g., chief
executive officer or president).

(2) In a corporation, disadvantaged owners must control the board of directors.

(3) In a partnership, one or more disadvantaged owners must serve as general partners, with control
over all partnership decisions.

(e) Individuals who are not socially and economically disadvantaged or immediate family members
may be involved in a DBE firm as owners, managers, employees, stockholders, officers, and/or directors.
Such individuals must not, however possess or exercise the power to control the firm, or be
disproportionately responsible for the operation of the firm.

(f) The socially and economically disadvantaged owners of the firm may delegate various areas of
the management, policymaking, or daily operations of the firm to other participants in the firm, regardless
of whether these participants are socially and economically disadvantaged individuals. Such delegations
of authority must be revocable, and the socially and economically disadvantaged owners must retain the
power to hire and fire any person to whom such authority is delegated. The managerial role of the socially
and economically disadvantaged owners in the firm's overall affairs must be such that the recipient can
reasonably conclude that the socially and economically disadvantaged owners actually exercise control
over the firm's operations, management, and policy.

(g) The socially and economically disadvantaged owners must have an overall understanding of,
and managerial and technical competence and experience directly related to, the type of business in
which the firm is engaged and the firm's operations. The socially and economically disadvantaged owners
are not required to have experience or expertise in every critical area of the firm's operations, or to have
greater experience or expertise in a given field than managers or key employees. The socially and
economically disadvantaged owners must have the ability to intelligently and critically evaluate
information presented by other participants in the firm's activities and to use this information to make
independent decisions concerning the firm's daily operations, management, and policymaking. Generally,
expertise limited to office management, administration, or bookkeeping functions unrelated to the
principal business activities of the firm is insufficient to demonstrate control.

(h) If state or local law requires the persons to have a particular license or other credential in order
to own and/or control a certain type of firm, then the socially and economically disadvantaged persons
who own and control a potential DBE firm of that type must possess the required license or credential. If
state or local law does not require such a person to have such a license or credential to own and/or
control a firm, you must not deny certification solely on the ground that the person lacks the license or
credential. However, you may take into account the absence of the license or credential as one factor in
determining whether the socially and economically disadvantaged owners actually control the firm.

(i)(1) You may consider differences in remuneration between the socially and economically
disadvantaged owners and other participants in the firm in determining whether to certify a firm as a DBE.
Such consideration shall be in the context of the duties of the persons involved, normal industry practices, the firm's policy and practice concerning reinvestment of income, and any other explanations for the differences proffered by the firm. You may determine that a firm is controlled by its socially and economically disadvantaged owner although that owner's remuneration is lower than that of some other participants in the firm.

(2) In a case where a non-disadvantaged individual formerly controlled the firm, and a socially and economically disadvantaged individual now controls it, you may consider a difference between the remuneration of the former and current controller of the firm as a factor in determining who controls the firm, particularly when the non-disadvantaged individual remains involved with the firm and continues to receive greater compensation than the disadvantaged individual.

(j) In order to be viewed as controlling a firm, a socially and economically disadvantaged owner cannot engage in outside employment or other business interests that conflict with the management of the firm or prevent the individual from devoting sufficient time and attention to the affairs of the firm to control its activities. For example, absentee ownership of a business and part-time work in a full-time firm are not viewed as constituting control. However, an individual could be viewed as controlling a part-time business that operates only on evenings and/or weekends, if the individual controls it all the time it is operating.

(k)(1) A socially and economically disadvantaged individual may control a firm even though one or more of the individual's immediate family members (who themselves are not socially and economically disadvantaged individuals) participate in the firm as a manager, employee, owner, or in another capacity. Except as otherwise provided in this paragraph, you must make a judgment about the control the socially and economically disadvantaged owner exercises vis-a-vis other persons involved in the business as you do in other situations, without regard to whether or not the other persons are immediate family members.

(2) If you cannot determine that the socially and economically disadvantaged owners—as distinct from the family as a whole—control the firm, then the socially and economically disadvantaged owners have failed to carry their burden of proof concerning control, even though they may participate significantly in the firm's activities.

(l) Where a firm was formerly owned and/or controlled by a non-disadvantaged individual (whether or not an immediate family member), ownership and/or control were transferred to a socially and economically disadvantaged individual, and the nondisadvantaged individual remains involved with the firm in any capacity, there is a rebuttable presumption of control by the non-disadvantaged individual unless the disadvantaged individual now owning the firm demonstrates to you, by clear and convincing evidence, that:

(1) The transfer of ownership and/or control to the disadvantaged individual was made for reasons other than obtaining certification as a DBE; and

(2) The disadvantaged individual actually controls the management, policy, and operations of the firm, notwithstanding the continuing participation of a nondisadvantaged individual who formerly owned and/or controlled the firm.

(m) In determining whether a firm is controlled by its socially and economically disadvantaged owners, you may consider whether the firm owns equipment necessary to perform its work. However, you must not determine that a firm is not controlled by socially and economically disadvantaged individuals solely because the firm leases, rather than owns, such equipment, where leasing equipment is a normal industry practice and the lease does not involve a relationship with a prime contractor or other party that compromises the independence of the firm.

(n) You must grant certification to a firm only for specific types of work in which the socially and economically disadvantaged owners have the ability to control the firm. To become certified in an additional type of work, the firm need demonstrate to you only that its socially and economically disadvantaged owners are able to control the firm with respect to that type of work. You must not require
that the firm be recertified or submit a new application for certification, but you must verify the disadvantaged owner's control of the firm in the additional type of work.

(1) The types of work a firm can perform (whether on initial certification or when a new type of work is added) must be described in terms of the most specific available NAICS code for that type of work. If you choose, you may also, in addition to applying the appropriate NAICS code, apply a descriptor from a classification scheme of equivalent detail and specificity. A correct NAICS code is one that describes, as specifically as possible, the principal goods or services which the firm would provide to DOT recipients. Multiple NAICS codes may be assigned where appropriate. Program participants must rely on, and not depart from, the plain meaning of NAICS code descriptions in determining the scope of a firm’s certification. If your Directory does not list types of work for any firm in a manner consistent with this paragraph (a)(1), you must update the Directory entry for that firm to meet the requirements of this paragraph (a)(1) by August 28, 2011.

(2) Firms and recipients must check carefully to make sure that the NAICS codes cited in a certification are kept up-to-date and accurately reflect work which the UCP has determined the firm's owners can control. The firm bears the burden of providing detailed company information the certifying agency needs to make an appropriate NAICS code designation.

(3) If a firm believes that there is not a NAICS code that fully or clearly describes the type(s) of work in which it is seeking to be certified as a DBE, the firm may request that the certifying agency, in its certification documentation, supplement the assigned NAICS code(s) with a clear, specific, and detailed narrative description of the type of work in which the firm is certified. A vague, general, or confusing description is not sufficient for this purpose, and recipients should not rely on such a description in determining whether a firm's participation can be counted toward DBE goals.

(4) A certifier is not precluded from changing a certification classification or description if there is a factual basis in the record. However, certifiers must not make after-the-fact statements about the scope of a certification, not supported by evidence in the record of the certification action.

(o) A business operating under a franchise or license agreement may be certified if it meets the standards in this subpart and the franchiser or licensor is not affiliated with the franchisee or licensee. In determining whether affiliation exists, you should generally not consider the restraints relating to standardized quality, advertising, accounting format, and other provisions imposed on the franchisee or licensee by the franchise agreement or license, provided that the franchisee or licensee has the right to profit from its efforts and bears the risk of loss commensurate with ownership. Alternatively, even though a franchisee or licensee may not be controlled by virtue of such provisions in the franchise agreement or license, affiliation could arise through other means, such as common management or excessive restrictions on the sale or transfer of the franchise interest or license.

(p) In order for a partnership to be controlled by socially and economically disadvantaged individuals, any non-disadvantaged partners must not have the power, without the specific written concurrence of the socially and economically disadvantaged partner(s), to contractually bind the partnership or subject the partnership to contract or tort liability.

(q) The socially and economically disadvantaged individuals controlling a firm may use an employee leasing company. The use of such a company does not preclude the socially and economically disadvantaged individuals from controlling their firm if they continue to maintain an employer-employee relationship with the leased employees. This includes being responsible for hiring, firing, training, assigning, and otherwise controlling the on-the-job activities of the employees, as well as ultimate responsibility for wage and tax obligations related to the employees.

§26.73    What are other rules affecting certification?

(a)(1) Consideration of whether a firm performs a commercially useful function or is a regular dealer pertains solely to counting toward DBE goals the participation of firms that have already been certified as DBEs. Except as provided in paragraph (a)(2) of this section, you must not consider commercially useful function issues in any way in making decisions about whether to certify a firm as a DBE.

(2) You may consider, in making certification decisions, whether a firm has exhibited a pattern of conduct indicating its involvement in attempts to evade or subvert the intent or requirements of the DBE program.

(b)(1) You must evaluate the eligibility of a firm on the basis of present circumstances. You must not refuse to certify a firm based solely on historical information indicating a lack of ownership or control of the firm by socially and economically disadvantaged individuals at some time in the past, if the firm currently meets the ownership and control standards of this part.

(2) You must not refuse to certify a firm solely on the basis that it is a newly formed firm, has not completed projects or contracts at the time of its application, has not yet realized profits from its activities, or has not demonstrated a potential for success. If the firm meets disadvantaged, size, ownership, and control requirements of this Part, the firm is eligible for certification.

(c) DBE firms and firms seeking DBE certification shall cooperate fully with your requests (and DOT requests) for information relevant to the certification process. Failure or refusal to provide such information is a ground for a denial or removal of certification.

(d) Only firms organized for profit may be eligible DBEs. Not-for-profit organizations, even though controlled by socially and economically disadvantaged individuals, are not eligible to be certified as DBEs.

(e) An eligible DBE firm must be owned by individuals who are socially and economically disadvantaged. Except as provided in this paragraph, a firm that is not owned by such individuals, but instead is owned by another firm—even a DBE firm—cannot be an eligible DBE.

(1) If socially and economically disadvantaged individuals own and control a firm through a parent or holding company, established for tax, capitalization or other purposes consistent with industry practice, and the parent or holding company in turn owns and controls an operating subsidiary, you may certify the subsidiary if it otherwise meets all requirements of this subpart. In this situation, the individual owners and controllers of the parent or holding company are deemed to control the subsidiary through the parent or holding company.

(2) You may certify such a subsidiary only if there is cumulatively 51 percent ownership of the subsidiary by socially and economically disadvantaged individuals. The following examples illustrate how this cumulative ownership provision works:

Example 1: Socially and economically disadvantaged individuals own 100 percent of a holding company, which has a wholly-owned subsidiary. The subsidiary may be certified, if it meets all other requirements.

Example 2: Disadvantaged individuals own 100 percent of the holding company, which owns 51 percent of a subsidiary. The subsidiary may be certified, if all other requirements are met.

Example 3: Disadvantaged individuals own 80 percent of the holding company, which in turn owns 70 percent of a subsidiary. In this case, the cumulative ownership of the subsidiary by disadvantaged individuals is 56 percent (80 percent of the 70 percent). This is more than 51 percent, so you may certify the subsidiary, if all other requirements are met.

Example 4: Same as Example 2 or 3, but someone other than the socially and economically disadvantaged owners of the parent or holding company controls the subsidiary. Even though the subsidiary is owned by disadvantaged individuals, through the holding or parent company, you cannot certify it because it fails to meet control requirements.

Example 5: Disadvantaged individuals own 60 percent of the holding company, which in turn owns 51 percent of a subsidiary. In this case, the cumulative ownership of the subsidiary by disadvantaged individuals is about 31 percent. This is less than 51 percent, so you cannot certify the subsidiary.

Example 6: The holding company, in addition to the subsidiary seeking certification, owns several other companies. The combined gross receipts of the holding companies and its subsidiaries are greater than the size
standard for the subsidiary seeking certification and/or the gross receipts cap of §26.65(b). Under the rules concerning affiliation, the subsidiary fails to meet the size standard and cannot be certified.

(f) Recognition of a business as a separate entity for tax or corporate purposes is not necessarily sufficient to demonstrate that a firm is an independent business, owned and controlled by socially and economically disadvantaged individuals.

(g) You must not require a DBE firm to be prequalified as a condition for certification.

(h) A firm that is owned by an Indian tribe or Native Hawaiian organization, rather than by Indians or Native Hawaiians as individuals, may be eligible for certification. Such a firm must meet the size standards of §26.65. Such a firm must be controlled by socially and economically disadvantaged individuals, as provided in §26.71.

(i) The following special rules apply to the certification of firms related to Alaska Native Corporations (ANCs).

(1) Notwithstanding any other provisions of this subpart, a direct or indirect subsidiary corporation, joint venture, or partnership entity of an ANC is eligible for certification as a DBE if it meets all of the following requirements:

(i) The Settlement Common Stock of the underlying ANC and other stock of the ANC held by holders of the Settlement Common Stock and by Natives and descendents of Natives represents a majority of both the total equity of the ANC and the total voting power of the corporation for purposes of electing directors;

(ii) The shares of stock or other units of common ownership interest in the subsidiary, joint venture, or partnership entity held by the ANC and by holders of its Settlement Common Stock represent a majority of both the total equity of the entity and the total voting power of the entity for the purpose of electing directors, the general partner, or principal officers; and

(iii) The subsidiary, joint venture, or partnership entity has been certified by the Small Business Administration under the 8(a) or small disadvantaged business program.

(2) As a recipient to whom an ANC-related entity applies for certification, you do not use the DOT uniform application form (see Appendix F of this part). You must obtain from the firm documentation sufficient to demonstrate that entity meets the requirements of paragraph (i)(1) of this section. You must also obtain sufficient information about the firm to allow you to administer your program (e.g., information that would appear in your DBE Directory).

(3) If an ANC-related firm does not meet all the conditions of paragraph (i)(1) of this section, then it must meet the requirements of paragraph (h) of this section in order to be certified, on the same basis as firms owned by Indian Tribes or Native Hawaiian Organizations.

Subpart E—Certification Procedures

§26.81 What are the requirements for Unified Certification Programs?

(a) You and all other DOT recipients in your state must participate in a Unified Certification Program (UCP).

(1) Within three years of March 4, 1999, you and the other recipients in your state must sign an agreement establishing the UCP for that state and submit the agreement to the Secretary for approval. The Secretary may, on the basis of extenuating circumstances shown by the recipients in the state, extend this deadline for no more than one additional year.

(2) The agreement must provide for the establishment of a UCP meeting all the requirements of this section. The agreement must specify that the UCP will follow all certification procedures and standards of this part, on the same basis as recipients; that the UCP shall cooperate fully with oversight, review, and monitoring activities of DOT and its operating administrations; and that the UCP shall implement DOT directives and guidance concerning certification matters. The agreement shall also commit recipients to ensuring that the UCP has sufficient resources and expertise to carry out the requirements of this part. The agreement shall include an implementation schedule ensuring that the UCP is fully operational no later than 18 months following the approval of the agreement by the Secretary.

(3) Subject to approval by the Secretary, the UCP in each state may take any form acceptable to the recipients in that state.

(4) The Secretary shall review the UCP and approve it, disapprove it, or remand it to the recipients in the state for revisions. A complete agreement which is not disapproved or remanded within 180 days of its receipt is deemed to be accepted.

(5) If you and the other recipients in your state fail to meet the deadlines set forth in this paragraph (a), you shall have the opportunity to make an explanation to the Secretary why a deadline could not be met and why meeting the deadline was beyond your control. If you fail to make such an explanation, or the explanation does not justify the failure to meet the deadline, the Secretary shall direct you to complete the required action by a date certain. If you and the other recipients fail to carry out this direction in a timely manner, you are collectively in noncompliance with this part.

(b) The UCP shall make all certification decisions on behalf of all DOT recipients in the state with respect to participation in the DOT DBE Program.

(1) Certification decisions by the UCP shall be binding on all DOT recipients within the state.

(2) The UCP shall provide “one-stop shopping” to applicants for certification, such that an applicant is required to apply only once for a DBE certification that will be honored by all recipients in the state.

(3) All obligations of recipients with respect to certification and nondiscrimination must be carried out by UCPs, and recipients may use only UCPs that comply with the certification and nondiscrimination requirements of this part.

(c) All certifications by UCPs shall be pre-certifications; i.e., certifications that have been made final before the due date for bids or offers on a contract on which a firm seeks to participate as a DBE.

(d) A UCP is not required to process an application for certification from a firm having its principal place of business outside the state if the firm is not certified by the UCP in the state in which it maintains its principal place of business. The “home state” UCP shall share its information and documents concerning the firm with other UCPs that are considering the firm’s application.
(e) Subject to DOT approval as provided in this section, the recipients in two or more states may form a regional UCP. UCPs may also enter into written reciprocity agreements with other UCPs. Such an agreement shall outline the specific responsibilities of each participant. A UCP may accept the certification of any other UCP or DOT recipient.

(f) Pending the establishment of UCPs meeting the requirements of this section, you may enter into agreements with other recipients, on a regional or inter-jurisdictional basis, to perform certification functions required by this part. You may also grant reciprocity to other recipient's certification decisions.

(g) Each UCP shall maintain a unified DBE directory containing, for all firms certified by the UCP (including those from other states certified under the provisions of this part), the information required by §26.31. The UCP shall make the directory available to the public electronically, on the internet, as well as in print. The UCP shall update the electronic version of the directory by including additions, deletions, and other changes as soon as they are made and shall revise the print version of the Directory at least once a year.

(h) Except as otherwise specified in this section, all provisions of this subpart and subpart D of this part pertaining to recipients also apply to UCPs.

§26.83 What procedures do recipients follow in making certification decisions?

(a) You must ensure that only firms certified as eligible DBEs under this section participate as DBEs in your program.

(b) You must determine the eligibility of firms as DBEs consistent with the standards of subpart D of this part. When a UCP is formed, the UCP must meet all the requirements of subpart D of this part and this subpart that recipients are required to meet.

(c)(1) You must take all the following steps in determining whether a DBE firm meets the standards of subpart D of this part:

(i) Perform an on-site visit to the firm's principal place of business. You must interview the principal officers and review their résumés and/or work histories. You may interview key personnel of the firm if necessary. You must also perform an on-site visit to job sites if there are such sites on which the firm is working at the time of the eligibility investigation in your jurisdiction or local area. You may rely upon the site visit report of any other recipient with respect to a firm applying for certification;

(ii) Analyze documentation related to the legal structure, ownership, and control of the applicant firm. This includes, but is not limited to, Articles of Incorporation/Organization; corporate by-laws or operating agreements; organizational, annual and board/member meeting records; stock ledgers and certificates; and State-issued Certificates of Good Standing

(iii) Analyze the bonding and financial capacity of the firm; lease and loan agreements; bank account signature cards;

(iv) Determine the work history of the firm, including contracts it has received, work it has completed; and payroll records;

(v) Obtain a statement from the firm of the type of work it prefers to perform as part of the DBE program and its preferred locations for performing the work, if any.

(vi) Obtain or compile a list of the equipment owned by or available to the firm and the licenses the firm and its key personnel possess to perform the work it seeks to do as part of the DBE program;
(vii) Obtain complete Federal income tax returns (or requests for extensions) filed by the firm, its affiliates, and the socially and economically disadvantaged owners for the last 3 years. A complete return includes all forms, schedules, and statements filed with the Internal Revenue Service.

(viii) Require potential DBEs to complete and submit an appropriate application form, except as otherwise provided in §26.85 of this part.

(2) You must use the application form provided in Appendix F to this part without change or revision. However, you may provide in your DBE program, with the written approval of the concerned operating administration, for supplementing the form by requesting specified additional information not inconsistent with this part.

(3) You must make sure that the applicant attests to the accuracy and truthfulness of the information on the application form. This shall be done either in the form of an affidavit sworn to by the applicant before a person who is authorized by State law to administer oaths or in the form of an unsworn declaration executed under penalty of perjury of the laws of the United States.

(4) You must review all information on the form prior to making a decision about the eligibility of the firm. You may request clarification of information contained in the application at any time in the application process.

(d) When another recipient, in connection with its consideration of the eligibility of a firm, makes a written request for certification information you have obtained about that firm (e.g., including application materials or the report of a site visit, if you have made one to the firm), you must promptly make the information available to the other recipient.

(e) [Reserved]

(f) Subject to the approval of the concerned operating administration as part of your DBE program, you may impose a reasonable application fee for certification. Fee waivers shall be made in appropriate cases.

(g) You must safeguard from disclosure to unauthorized persons information gathered as part of the certification process that may reasonably be regarded as proprietary or other confidential business information, consistent with applicable Federal, state, and local law.

(h)(1) Once you have certified a DBE, it shall remain certified until and unless you have removed its certification, in whole or in part, through the procedures of §26.87 of this part, except as provided in §26.67(b)(1) of this part.

(2) You may not require DBEs to reapply for certification or undergo a recertification process. However, you may conduct a certification review of a certified DBE firm, including a new on-site review, if appropriate in light of changed circumstances (e.g., of the kind requiring notice under paragraph (i) of this section or relating to suspension of certification under §26.88), a complaint, or other information concerning the firm’s eligibility. If information comes to your attention that leads you to question the firm’s eligibility, you may conduct an on-site review on an unannounced basis, at the firm’s offices and job sites.

(i) If you are a DBE, you must inform the recipient or UCP in writing of any change in circumstances affecting your ability to meet size, disadvantaged status, ownership, or control requirements of this part or any material change in the information provided in your application form.

(1) Changes in management responsibility among members of a limited liability company are covered by this requirement.

(2) You must attach supporting documentation describing in detail the nature of such changes.

(3) The notice must take the form of an affidavit sworn to by the applicant before a person who is authorized by state law to administer oaths or of an unsworn declaration executed under penalty of
perjury of the laws of the United States. You must provide the written notification within 30 days of the occurrence of the change. If you fail to make timely notification of such a change, you will be deemed to have failed to cooperate under §26.109(c).

(j) If you are a DBE, you must provide to the recipient, every year on the anniversary of the date of your certification, an affidavit sworn to by the firm's owners before a person who is authorized by State law to administer oaths or an unsworn declaration executed under penalty of perjury of the laws of the United States. This affidavit must affirm that there have been no changes in the firm's circumstances affecting its ability to meet size, disadvantaged status, ownership, or control requirements of this part or any material changes in the information provided in its application form, except for changes about which you have notified the recipient under paragraph (i) of this section. The affidavit shall specifically affirm that your firm continues to meet SBA business size criteria and the overall gross receipts cap of this part, documenting this affirmation with supporting documentation of your firm’s size and gross receipts (e.g., submission of Federal tax returns). If you fail to provide this affidavit in a timely manner, you will be deemed to have failed to cooperate under §26.109(c).

(k) If you are a recipient, you must make decisions on applications for certification within 90 days of receiving from the applicant firm all information required under this part. You may extend this time period once, for no more than an additional 60 days, upon written notice to the firm, explaining fully and specifically the reasons for the extension. You may establish a different time frame in your DBE program, upon a showing that this time frame is not feasible, and subject to the approval of the concerned operating administration. Your failure to make a decision by the applicable deadline under this paragraph is deemed a constructive denial of the application, on the basis of which the firm may appeal to DOT under §26.89.

(l) As a recipient or UCP, you must advise each applicant within 30 days from your receipt of the application whether the application is complete and suitable for evaluation and, if not, what additional information or action is required.

(m) Except as otherwise provided in this paragraph, if an applicant for DBE certification withdraws its application before you have issued a decision on the application, the applicant can resubmit the application at any time. As a recipient or UCP, you may not apply the waiting period provided under §26.86(c) of this part before allowing the applicant to resubmit its application. However, you may place the reaplication at the “end of the line,” behind other applications that have been made since the firm’s previous application was withdrawn. You may also apply the waiting period provided under §26.86(c) of this part to a firm that has established a pattern of frequently withdrawing applications before you make a decision.

§26.85 Interstate certification.

(a) This section applies with respect to any firm that is currently certified in its home state.

(b) When a firm currently certified in its home state (“State A”) applies to another State (“State B”) for DBE certification, State B may, at its discretion, accept State A’s certification and certify the firm, without further procedures.

(1) To obtain certification in this manner, the firm must provide to State B a copy of its certification notice from State A.
(2) Before certifying the firm, State B must confirm that the firm has a current valid certification from State A. State B can do so by reviewing State A's electronic directory or obtaining written confirmation from State A.

(c) In any situation in which State B chooses not to accept State A's certification of a firm as provided in paragraph (b) of this section, as the applicant firm you must provide the information in paragraphs (c)(1) through (4) of this section to State B.

(1) You must provide to State B a complete copy of the application form, all supporting documents, and any other information you have submitted to State A or any other state related to your firm's certification. This includes affidavits of no change (see §26.83(j)) and any notices of changes (see §26.83(i)) that you have submitted to State A, as well as any correspondence you have had with State A's UCP or any other recipient concerning your application or status as a DBE firm.

(2) You must also provide to State B any notices or correspondence from states other than State A relating to your status as an applicant or certified DBE in those states. For example, if you have been denied certification or decertified in State C, or subject to a decertification action there, you must inform State B of this fact and provide all documentation concerning this action to State B.

(3) If you have filed a certification appeal with DOT (see §26.89), you must inform State B of the fact and provide your letter of appeal and DOT's response to State B.

(4) You must submit an affidavit sworn to by the firm's owners before a person who is authorized by State law to administer oaths or an unsworn declaration executed under penalty of perjury of the laws of the United States.

(i) This affidavit must affirm that you have submitted all the information required by 49 CFR 26.85(c) and the information is complete and, in the case of the information required by §26.85(c)(1), is an identical copy of the information submitted to State A.

(ii) If the on-site report from State A supporting your certification in State A is more than three years old, as of the date of your application to State B, State B may require that your affidavit also affirm that the facts in the on-site report remain true and correct.

(d) As State B, when you receive from an applicant firm all the information required by paragraph (c) of this section, you must take the following actions:

(1) Within seven days contact State A and request a copy of the site visit review report for the firm (see §26.83(c)(1)), any updates to the site visit review, and any evaluation of the firm based on the site visit. As State A, you must transmit this information to State B within seven days of receiving the request. A pattern by State B of not making such requests in a timely manner or by “State A” or any other State of not complying with such requests in a timely manner is noncompliance with this Part.

(2) Determine whether there is good cause to believe that State A's certification of the firm is erroneous or should not apply in your State. Reasons for making such a determination may include the following:

(i) Evidence that State A's certification was obtained by fraud;

(ii) New information, not available to State A at the time of its certification, showing that the firm does not meet all eligibility criteria;

(iii) State A's certification was factually erroneous or was inconsistent with the requirements of this part;

(iv) The State law of State B requires a result different from that of the State law of State A.
(v) The information provided by the applicant firm did not meet the requirements of paragraph (c) of this section.

(3) If, as State B, unless you have determined that there is good cause to believe that State A's certification is erroneous or should not apply in your State, you must, no later than 60 days from the date on which you received from the applicant firm all the information required by paragraph (c) of this section, send to the applicant firm a notice that it is certified and place the firm on your directory of certified firms.

(4) If, as State B, you have determined that there is good cause to believe that State A's certification is erroneous or should not apply in your State, you must, no later than 60 days from the date on which you received from the applicant firm all the information required by paragraph (c) of this section, send to the applicant firm a notice stating the reasons for your determination.

(i) This notice must state with particularity the specific reasons why State B believes that the firm does not meet the requirements of this Part for DBE eligibility and must offer the firm an opportunity to respond to State B with respect to these reasons.

(ii) The firm may elect to respond in writing, to request an in-person meeting with State B's decision maker to discuss State B's objections to the firm's eligibility, or both. If the firm requests a meeting, as State B you must schedule the meeting to take place within 30 days of receiving the firm's request.

(iii) The firm bears the burden of demonstrating, by a preponderance of evidence, that it meets the requirements of this Part with respect to the particularized issues raised by State B's notice. The firm is not otherwise responsible for further demonstrating its eligibility to State B.

(iv) The decision maker for State B must be an individual who is thoroughly familiar with the provisions of this Part concerning certification.

(v) State B must issue a written decision within 30 days of the receipt of the written response from the firm or the meeting with the decision maker, whichever is later.

(vi) The firm's application for certification is stayed pending the outcome of this process.

(vii) A decision under this paragraph (d)(4) may be appealed to the Departmental Office of Civil Rights under §26.89 of this part.

(e) As State B, if you have not received from State A a copy of the site visit review report by a date 14 days after you have made a timely request for it, you may hold action required by paragraphs (d)(2) through (4) of this section in abeyance pending receipt of the site visit review report. In this event, you must, no later than 30 days from the date on which you received from an applicant firm all the information required by paragraph (c) of this section, notify the firm in writing of the delay in the process and the reason for it.

(f)(1) As a UCP, when you deny a firm's application, reject the application of a firm certified in State A or any other State in which the firm is certified, through the procedures of paragraph (d)(4) of this section, or decertify a firm, in whole or in part, you must make an entry in the Department of Transportation Office of Civil Rights' (DOCR's) Ineligibility Determination Online Database. You must enter the following information:

(i) The name of the firm;

(ii) The name(s) of the firm's owner(s);

(iii) The type and date of the action;

(iv) The reason for the action.
(2) As a UCP, you must check the DOCR Web site at least once every month to determine whether any firm that is applying to you for certification or that you have already certified is on the list.

(3) For any such firm that is on the list, you must promptly request a copy of the listed decision from the UCP that made it. As the UCP receiving such a request, you must provide a copy of the decision to the requesting UCP within 7 days of receiving the request. As the UCP receiving the decision, you must then consider the information in the decision in determining what, if any, action to take with respect to the certified DBE firm or applicant.

(g) You must implement the requirements of this section beginning January 1, 2012.

[76 FR 5100, Jan. 28, 2011]

§26.86 What rules govern recipients' denials of initial requests for certification?

(a) When you deny a request by a firm, which is not currently certified with you, to be certified as a DBE, you must provide the firm a written explanation of the reasons for the denial, specifically referencing the evidence in the record that supports each reason for the denial. All documents and other information on which the denial is based must be made available to the applicant, on request.

(b) [Reserved]

(c) When a firm is denied certification, you must establish a time period of no more than twelve months that must elapse before the firm may reapply to the recipient for certification. You may provide, in your DBE program, subject to approval by the concerned operating administration, a shorter waiting period for reapplication. The time period for reapplication begins to run on the date the explanation required by paragraph (a) of this section is received by the firm. An applicant's appeal of your decision to the Department pursuant to §26.89 does not extend this period.

(d) When you make an administratively final denial of certification concerning a firm, the firm may appeal the denial to the Department under §26.89.

§26.87 What procedures does a recipient use to remove a DBE's eligibility?

(a) Ineligibility complaints. (1) Any person may file with you a written complaint alleging that a currently-certified firm is ineligible and specifying the alleged reasons why the firm is ineligible. You are not required to accept a general allegation that a firm is ineligible or an anonymous complaint. The complaint may include any information or arguments supporting the complainant's assertion that the firm is ineligible and should not continue to be certified. Confidentiality of complainants' identities must be protected as provided in §26.109(b).

(2) You must review your records concerning the firm, any material provided by the firm and the complainant, and other available information. You may request additional information from the firm or conduct any other investigation that you deem necessary.

(3) If you determine, based on this review, that there is reasonable cause to believe that the firm is ineligible, you must provide written notice to the firm that you propose to find the firm ineligible, setting forth the reasons for the proposed determination. If you determine that such reasonable cause does not exist, you must notify the complainant and the firm in writing of this determination and the reasons for it.
All statements of reasons for findings on the issue of reasonable cause must specifically reference the evidence in the record on which each reason is based.

(b) *Recipient-initiated proceedings.* If, based on notification by the firm of a change in its circumstances or other information that comes to your attention, you determine that there is reasonable cause to believe that a currently certified firm is ineligible, you must provide written notice to the firm that you propose to find the firm ineligible, setting forth the reasons for the proposed determination. The statement of reasons for the finding of reasonable cause must specifically reference the evidence in the record on which each reason is based.

(c) *DOT directive to initiate proceeding.* (1) If the concerned operating administration determines that information in your certification records, or other information available to the concerned operating administration, provides reasonable cause to believe that a firm you certified does not meet the eligibility criteria of this part, the concerned operating administration may direct you to initiate a proceeding to remove the firm's certification.

(2) The concerned operating administration must provide you and the firm a notice setting forth the reasons for the directive, including any relevant documentation or other information.

(3) You must immediately commence and prosecute a proceeding to remove eligibility as provided by paragraph (b) of this section.

(d) *Hearing.* When you notify a firm that there is reasonable cause to remove its eligibility, as provided in paragraph (a), (b), or (c) of this section, you must give the firm an opportunity for an informal hearing, at which the firm may respond to the reasons for the proposal to remove its eligibility in person and provide information and arguments concerning why it should remain certified.

(1) In such a proceeding, you bear the burden of proving, by a preponderance of the evidence, that the firm does not meet the certification standards of this part.

(2) You must maintain a complete record of the hearing, by any means acceptable under state law for the retention of a verbatim record of an administrative hearing. If there is an appeal to DOT under §26.89, you must provide a transcript of the hearing to DOT and, on request, to the firm. You must retain the original record of the hearing. You may charge the firm only for the cost of copying the record.

(3) The firm may elect to present information and arguments in writing, without going to a hearing. In such a situation, you bear the same burden of proving, by a preponderance of the evidence, that the firm does not meet the certification standards, as you would during a hearing.

(e) *Separation of functions.* You must ensure that the decision in a proceeding to remove a firm's eligibility is made by an office and personnel that did not take part in actions leading to or seeking to implement the proposal to remove the firm's eligibility and are not subject, with respect to the matter, to direction from the office or personnel who did take part in these actions.

(1) Your method of implementing this requirement must be made part of your DBE program.

(2) The decisionmaker must be an individual who is knowledgeable about the certification requirements of your DBE program and this part.

(3) Before a UCP is operational in its state, a small airport or small transit authority *(i.e., an airport or transit authority serving an area with less than 250,000 population)* is required to meet this requirement only to the extent feasible.

(f) *Grounds for decision.* You may base a decision to remove a firm's eligibility only on one or more of the following grounds:

(1) Changes in the firm's circumstances since the certification of the firm by the recipient that render the firm unable to meet the eligibility standards of this part;
(2) Information or evidence not available to you at the time the firm was certified;

(3) Information relevant to eligibility that has been concealed or misrepresented by the firm;

(4) A change in the certification standards or requirements of the Department since you certified the firm;

(5) Your decision to certify the firm was clearly erroneous;

(6) The firm has failed to cooperate with you (see §26.109(c));

(7) The firm has exhibited a pattern of conduct indicating its involvement in attempts to subvert the intent or requirements of the DBE program (see §26.73(a)(2)); or

(8) The firm has been suspended or debarred for conduct related to the DBE program. The notice required by paragraph (g) of this section must include a copy of the suspension or debarment action. A decision to remove a firm for this reason shall not be subject to the hearing procedures in paragraph (d) of this section.

(g) Notice of decision. Following your decision, you must provide the firm written notice of the decision and the reasons for it, including specific references to the evidence in the record that supports each reason for the decision. The notice must inform the firm of the consequences of your decision and of the availability of an appeal to the Department of Transportation under §26.89. You must send copies of the notice to the complainant in an ineligibility complaint or the concerned operating administration that had directed you to initiate the proceeding. Provided that, when sending such a notice to a complainant other than a DOT operating administration, you must not include information reasonably construed as confidential business information without the written consent of the firm that submitted the information.

(h) [Reserved]

(i) Status of firm during proceeding. (1) A firm remains an eligible DBE during the pendancy of your proceeding to remove its eligibility.

(2) The firm does not become ineligible until the issuance of the notice provided for in paragraph (g) of this section.

(j) Effects of removal of eligibility. When you remove a firm's eligibility, you must take the following action:

(1) When a prime contractor has made a commitment to using the ineligible firm, or you have made a commitment to using a DBE prime contractor, but a subcontract or contract has not been executed before you issue the decertification notice provided for in paragraph (g) of this section, the ineligible firm does not count toward the contract goal or overall goal. You must direct the prime contractor to meet the contract goal with an eligible DBE firm or demonstrate to you that it has made a good faith effort to do so.

(2) If a prime contractor has executed a subcontract with the firm before you have notified the firm of its ineligibility, the prime contractor may continue to use the firm on the contract and may continue to receive credit toward its DBE goal for the firm's work. In this case, or in a case where you have let a prime contract to the DBE that was later ruled ineligible, the portion of the ineligible firm's performance of the contract remaining after you issued the notice of its ineligibility shall not count toward your overall goal, but may count toward the contract goal.

(3) Exception: If the DBE's ineligibility is caused solely by its having exceeded the size standard during the performance of the contract, you may continue to count its participation on that contract toward overall and contract goals.

(k) Availability of appeal. When you make an administratively final removal of a firm's eligibility under this section, the firm may appeal the removal to the Department under §26.89.
§26.88 Summary suspension of certification.

(a) A recipient shall immediately suspend a DBE’s certification without adhering to the requirements in §26.87(d) of this part when an individual owner whose ownership and control of the firm are necessary to the firm’s certification dies or is incarcerated.

(b)(1) A recipient may immediately suspend a DBE’s certification without adhering to the requirements in §26.87(d) when there is adequate evidence to believe that there has been a material change in circumstances that may affect the eligibility of the DBE firm to remain certified, or when the DBE fails to notify the recipient or UCP in writing of any material change in circumstances as required by §26.83(i) of this part or fails to timely file an affidavit of no change under §26.83(j).

(2) In determining the adequacy of the evidence to issue a suspension under paragraph (b)(1) of this section, the recipient shall consider all relevant factors, including how much information is available, the credibility of the information and allegations given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result.

(c) The concerned operating administration may direct the recipient to take action pursuant to paragraph (a) or (b) this section if it determines that information available to it is sufficient to warrant immediate suspension.

(d) When a firm is suspended pursuant to paragraph (a) or (b) of this section, the recipient shall immediately notify the DBE of the suspension by certified mail, return receipt requested, to the last known address of the owner(s) of the DBE.

(e) Suspension is a temporary status of ineligibility pending an expedited show cause hearing/proceeding under §26.87 of this part to determine whether the DBE is eligible to participate in the program and consequently should be removed. The suspension takes effect when the DBE receives, or is deemed to have received, the Notice of Suspension.

(f) While suspended, the DBE may not be considered to meet a contract goal on a new contract, and any work it does on a contract received during the suspension shall not be counted toward a recipient’s overall goal. The DBE may continue to perform under an existing contract executed before the DBE received a Notice of Suspension and may be counted toward the contract goal during the period of suspension as long as the DBE is performing a commercially useful function under the existing contract.

(g) Following receipt of the Notice of Suspension, if the DBE believes it is no longer eligible, it may voluntarily withdraw from the program, in which case no further action is required. If the DBE believes that its eligibility should be reinstated, it must provide to the recipient information demonstrating that the firm is eligible notwithstanding its changed circumstances. Within 30 days of receiving this information, the recipient must either lift the suspension and reinstate the firm’s certification or commence a decertification action under §26.87 of this part. If the recipient commences a decertification proceeding, the suspension remains in effect during the proceeding.

(h) The decision to immediately suspend a DBE under paragraph (a) or (b) of this section is not appealable to the US Department of Transportation. The failure of a recipient to either lift the suspension and reinstate the firm or commence a decertification proceeding, as required by paragraph (g) of this section, is appealable to the U.S. Department of Transportation under §26.89 of this part, as a constructive decertification.

[79 FR 59599, Oct. 2, 2014]
§26.89 What is the process for certification appeals to the Department of Transportation?

(a)(1) If you are a firm that is denied certification or whose eligibility is removed by a recipient, including SBA-certified firms, you may make an administrative appeal to the Department.

(2) If you are a complainant in an ineligibility complaint to a recipient (including the concerned operating administration in the circumstances provided in §26.87(c)), you may appeal to the Department if the recipient does not find reasonable cause to propose removing the firm's eligibility or, following a removal of eligibility proceeding, determines that the firm is eligible.

(3) Send appeals to the following address: U.S. Department of Transportation, Departmental Office of Civil Rights, 1200 New Jersey Avenue SE., Washington, DC 20590-0001.

(b) Pending the Department's decision in the matter, the recipient's decision remains in effect. The Department does not stay the effect of the recipient's decision while it is considering an appeal.

(c) If you want to file an appeal, you must send a letter to the Department within 90 days of the date of the recipient's final decision, including information and setting forth a full and specific statement as to why the decision is erroneous, what significant fact that the recipient failed to consider, or what provisions of this Part the recipient did not properly apply. The Department may accept an appeal filed later than 90 days after the date of the decision if the Department determines that there was good cause for the late filing of the appeal or in the interest of justice.

(d) When it receives an appeal, the Department requests a copy of the recipient's complete administrative record in the matter. If you are the recipient, you must provide the administrative record, including a hearing transcript, within 20 days of the Department's request. The Department may extend this time period on the basis of a recipient's showing of good cause. To facilitate the Department's review of a recipient's decision, you must ensure that such administrative records are well organized, indexed, and paginated. Records that do not comport with these requirements are not acceptable and will be returned to you to be corrected immediately. If an appeal is brought concerning one recipient's certification decision concerning a firm, and that recipient relied on the decision and/or administrative record of another recipient, this requirement applies to both recipients involved.

(e) The Department makes its decision based solely on the entire administrative record as supplemented by the appeal. The Department does not make a de novo review of the matter and does not conduct a hearing. The Department may also supplement the administrative record by adding relevant information made available by the DOT Office of Inspector General; Federal, State, or local law enforcement authorities; officials of a DOT operating administration or other appropriate DOT office; a recipient; or a firm or other private party.

(f) As a recipient, when you provide supplementary information to the Department, you shall also make this information available to the firm and any third-party complainant involved, consistent with Federal or applicable state laws concerning freedom of information and privacy. The Department makes available, on request by the firm and any third-party complainant involved, any supplementary information it receives from any source.

(1) The Department affirms your decision unless it determines, based on the entire administrative record, that your decision is unsupported by substantial evidence or inconsistent with the substantive or procedural provisions of this part concerning certification.

(2) If the Department determines, after reviewing the entire administrative record, that your decision was unsupported by substantial evidence or inconsistent with the substantive or procedural provisions of this part concerning certification, the Department reverses your decision and directs you to certify the firm or remove its eligibility, as appropriate. You must take the action directed by the Department's decision immediately upon receiving written notice of it.
(3) The Department is not required to reverse your decision if the Department determines that a procedural error did not result in fundamental unfairness to the appellant or substantially prejudice the opportunity of the appellant to present its case.

(4) If it appears that the record is incomplete or unclear with respect to matters likely to have a significant impact on the outcome of the case, the Department may remand the record to you with instructions seeking clarification or augmentation of the record before making a finding. The Department may also remand a case to you for further proceedings consistent with Department instructions concerning the proper application of the provisions of this part.

(5) The Department does not uphold your decision based on grounds not specified in your decision.

(6) The Department's decision is based on the status and circumstances of the firm as of the date of the decision being appealed.

(7) The Department provides written notice of its decision to you, the firm, and the complainant in an ineligibility complaint. A copy of the notice is also sent to any other recipient whose administrative record or decision has been involved in the proceeding (see paragraph (d) of this section). The Department will also notify the SBA in writing when DOT takes an action on an appeal that results in or confirms a loss of eligibility to any SBA-certified firm. The notice includes the reasons for the Department's decision, including specific references to the evidence in the record that supports each reason for the decision.

(8) The Department's policy is to make its decision within 180 days of receiving the complete administrative record. If the Department does not make its decision within this period, the Department provides written notice to concerned parties, including a statement of the reason for the delay and a date by which the appeal decision will be made.

(g) All decisions under this section are administratively final, and are not subject to petitions for reconsideration.

§26.91 What actions do recipients take following DOT certification appeal decisions?

(a) If you are the recipient from whose action an appeal under §26.89 is taken, the decision is binding. It is not binding on other recipients.

(b) If you are a recipient to which a DOT determination under §26.89 is applicable, you must take the following action:

(1) If the Department determines that you erroneously certified a firm, you must remove the firm's eligibility on receipt of the determination, without further proceedings on your part. Effective on the date of your receipt of the Department's determination, the consequences of a removal of eligibility set forth in §26.87(i) take effect.

(2) If the Department determines that you erroneously failed to find reasonable cause to remove the firm's eligibility, you must expeditiously commence a proceeding to determine whether the firm's eligibility should be removed, as provided in §26.87.

(3) If the Department determines that you erroneously declined to certify or removed the eligibility of the firm, you must certify the firm, effective on the date of your receipt of the written notice of Department's determination.
(4) If the Department determines that you erroneously determined that the presumption of social and economic disadvantage either should or should not be deemed rebutted, you must take appropriate corrective action as determined by the Department.

(5) If the Department affirms your determination, no further action is necessary.

(c) Where DOT has upheld your denial of certification to or removal of eligibility from a firm, or directed the removal of a firm’s eligibility, other recipients with whom the firm is certified may commence a proceeding to remove the firm’s eligibility under §26.87. Such recipients must not remove the firm’s eligibility absent such a proceeding. Where DOT has reversed your denial of certification to or removal of eligibility from a firm, other recipients must take the DOT action into account in any certification action involving the firm. However, other recipients are not required to certify the firm based on the DOT decision.
Subpart F—Compliance and Enforcement

§26.101  What compliance procedures apply to recipients?

(a) If you fail to comply with any requirement of this part, you may be subject to formal enforcement action under §26.103 or §26.105 or appropriate program sanctions by the concerned operating administration, such as the suspension or termination of Federal funds, or refusal to approve projects, grants or contracts until deficiencies are remedied. Program sanctions may include, in the case of the FHWA program, actions provided for under 23 CFR 1.36; in the case of the FAA program, actions consistent with 49 U.S.C. 47106(d), 47111(d), and 47122; and in the case of the FTA program, any actions permitted under 49 U.S.C. chapter 53 or applicable FTA program requirements.

(b) As provided in statute, you will not be subject to compliance actions or sanctions for failing to carry out any requirement of this part because you have been prevented from complying because a Federal court has issued a final order in which the court found that the requirement is unconstitutional.

§26.103  What enforcement actions apply in FHWA and FTA programs?

The provisions of this section apply to enforcement actions under FHWA and FTA programs:

(a) Noncompliance complaints. Any person who believes that a recipient has failed to comply with its obligations under this part may file a written complaint with the concerned operating administration's Office of Civil Rights. If you want to file a complaint, you must do so no later than 180 days after the date of the alleged violation or the date on which you learned of a continuing course of conduct in violation of this part. In response to your written request, the Office of Civil Rights may extend the time for filing in the interest of justice, specifying in writing the reason for so doing. The Office of Civil Rights may protect the confidentiality of your identity as provided in §26.109(b). Complaints under this part are limited to allegations of violation of the provisions of this part.

(b) Compliance reviews. The concerned operating administration may review the recipient's compliance with this part at any time, including reviews of paperwork and on-site reviews, as appropriate. The Office of Civil Rights may direct the operating administration to initiate a compliance review based on complaints received.

(c) Reasonable cause notice. If it appears, from the investigation of a complaint or the results of a compliance review, that you, as a recipient, are in noncompliance with this part, the appropriate DOT office promptly sends you, return receipt requested, a written notice advising you that there is reasonable cause to find you in noncompliance. The notice states the reasons for this finding and directs you to reply within 30 days concerning whether you wish to begin conciliation.

(d) Conciliation. (1) If you request conciliation, the appropriate DOT office shall pursue conciliation for at least 30, but not more than 120, days from the date of your request. The appropriate DOT office may extend the conciliation period for up to 30 days for good cause, consistent with applicable statutes.

(2) If you and the appropriate DOT office sign a conciliation agreement, then the matter is regarded as closed and you are regarded as being in compliance. The conciliation agreement sets forth the measures you have taken or will take to ensure compliance. While a conciliation agreement is in effect, you remain eligible for FHWA or FTA financial assistance.

(3) The concerned operating administration shall monitor your implementation of the conciliation agreement and ensure that its terms are complied with. If you fail to carry out the terms of a conciliation agreement, you are in noncompliance.
(4) If you do not request conciliation, or a conciliation agreement is not signed within the time provided in paragraph (d)(1) of this section, then enforcement proceedings begin.

(e) *Enforcement actions.* (1) Enforcement actions are taken as provided in this subpart.

(2) Applicable findings in enforcement proceedings are binding on all DOT offices.

§26.105 What enforcement actions apply in FAA programs?

(a) Compliance with all requirements of this part by airport sponsors and other recipients of FAA financial assistance is enforced through the procedures of Title 49 of the United States Code, including 49 U.S.C. 47106(d), 47111(d), and 47122, and regulations implementing them.

(b) The provisions of §26.103(b) and this section apply to enforcement actions in FAA programs.

(c) Any person who knows of a violation of this part by a recipient of FAA funds may file a complaint under 14 CFR part 16 with the Federal Aviation Administration Office of Chief Counsel.

§26.107 What enforcement actions apply to firms participating in the DBE program?

(a) If you are a firm that does not meet the eligibility criteria of subpart D of this part and that attempts to participate in a DOT-assisted program as a DBE on the basis of false, fraudulent, or deceitful statements or representations or under circumstances indicating a serious lack of business integrity or honesty, the Department may initiate suspension or debarment proceedings against you under 2 CFR parts 180 and 1200.

(b) If you are a firm that, in order to meet DBE contract goals or other DBE program requirements, uses or attempts to use, on the basis of false, fraudulent or deceitful statements or representations or under circumstances indicating a serious lack of business integrity or honesty, another firm that does not meet the eligibility criteria of subpart D of this part, the Department may initiate suspension or debarment proceedings against you under 2 CFR parts 180 and 1200.

(c) In a suspension or debarment proceeding brought under paragraph (a) or (b) of this section, the concerned operating administration may consider the fact that a purported DBE has been certified by a recipient. Such certification does not preclude the Department from determining that the purported DBE, or another firm that has used or attempted to use it to meet DBE goals, should be suspended or debarred.

(d) The Department may take enforcement action under 49 CFR Part 31, Program Fraud and Civil Remedies, against any participant in the DBE program whose conduct is subject to such action under 49 CFR part 31.

(e) The Department may refer to the Department of Justice, for prosecution under 18 U.S.C. 1001 or other applicable provisions of law, any person who makes a false or fraudulent statement in connection with participation of a DBE in any DOT-assisted program or otherwise violates applicable Federal statutes.

§26.109 What are the rules governing information, confidentiality, cooperation, and intimidation or retaliation?

(a) Availability of records. (1) In responding to requests for information concerning any aspect of the DBE program, the Department complies with provisions of the Federal Freedom of Information and Privacy Acts (5 U.S.C. 552 and 552a). The Department may make available to the public any information concerning the DBE program release of which is not prohibited by Federal law.

(2) Notwithstanding any provision of Federal or state law, you must not release any information that may reasonably be construed as confidential business information to any third party without the written consent of the firm that submitted the information. This includes applications for DBE certification and supporting information. However, you must transmit this information to DOT in any certification appeal proceeding under §26.89 of this part or to any other state to which the individual's firm has applied for certification under §26.85 of this part.

(b) Confidentiality of information on complainants. Notwithstanding the provisions of paragraph (a) of this section, the identity of complainants shall be kept confidential, at their election. If such confidentiality will hinder the investigation, proceeding or hearing, or result in a denial of appropriate administrative due process to other parties, the complainant must be advised for the purpose of waiving the privilege. Complainants are advised that, in some circumstances, failure to waive the privilege may result in the closure of the investigation or dismissal of the proceeding or hearing. FAA follows the procedures of 14 CFR part 16 with respect to confidentiality of information in complaints.

(c) Cooperation. All participants in the Department's DBE program (including, but not limited to, recipients, DBE firms and applicants for DBE certification, complainants and appellants, and contractors using DBE firms to meet contract goals) are required to cooperate fully and promptly with DOT and recipient compliance reviews, certification reviews, investigations, and other requests for information. Failure to do so shall be a ground for appropriate action against the party involved (e.g., with respect to recipients, a finding of noncompliance; with respect to DBE firms, denial of certification or removal of eligibility and/or suspension and debarment; with respect to a complainant or appellant, dismissal of the complaint or appeal; with respect to a contractor which uses DBE firms to meet goals, findings of non-responsibility for future contracts and/or suspension and debarment).

(d) Intimidation and retaliation. If you are a recipient, contractor, or any other participant in the program, you must not intimidate, threaten, coerce, or discriminate against any individual or firm for the purpose of interfering with any right or privilege secured by this part or because the individual or firm has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. If you violate this prohibition, you are in noncompliance with this part.

Appendix A to Part 26—Guidance Concerning Good Faith Efforts

I. When, as a recipient, you establish a contract goal on a DOT-assisted contract for procuring construction, equipment, services, or any other purpose, a bidder must, in order to be responsible and/or responsive, make sufficient good faith efforts to meet the goal. The bidder can meet this requirement in either of two ways. First, the bidder can meet the goal, documenting commitments for participation by DBE firms sufficient for this purpose. Second, even if it doesn't meet the goal, the bidder can document adequate good faith efforts. This means that the bidder must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.
II. In any situation in which you have established a contract goal, Part 26 requires you to use the good faith efforts mechanism of this part. As a recipient, you have the responsibility to make a fair and reasonable judgment whether a bidder that did not meet the goal made adequate good faith efforts. It is important for you to consider the quality, quantity, and intensity of the different kinds of efforts that the bidder has made, based on the regulations and the guidance in this Appendix.

The efforts employed by the bidder should be those that one could reasonably expect a bidder to take if the bidder were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good faith efforts to meet the DBE contract requirements. We emphasize, however, that your determination concerning the sufficiency of the firm’s good faith efforts is a judgment call. Determinations should not be made using quantitative formulas.

III. The Department also strongly cautions you against requiring that a bidder meet a contract goal (i.e., obtain a specified amount of DBE participation) in order to be awarded a contract, even though the bidder makes an adequate good faith efforts showing. This rule specifically prohibits you from ignoring bona fide good faith efforts.

IV. The following is a list of types of actions which you should consider as part of the bidder's good faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

A. (1) Conducting market research to identify small business contractors and suppliers and soliciting through all reasonable and available means the interest of all certified DBEs that have the capability to perform the work of the contract. This may include attendance at pre-bid and business matchmaking meetings and events, advertising and/or written notices, posting of Notices of Sources Sought and/or Requests for Proposals, written notices or emails to all DBEs listed in the State's directory of transportation firms that specialize in the areas of work desired (as noted in the DBE directory) and which are located in the area or surrounding areas of the project.

   (2) The bidder should solicit this interest as early in the acquisition process as practicable to allow the DBEs to respond to the solicitation and submit a timely offer for the subcontract. The bidder should determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial solicitations.

B. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units (for example, smaller tasks or quantities) to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces. This may include, where possible, establishing flexible timeframes for performance and delivery schedules in a manner that encourages and facilitates DBE participation.

C. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation with their offer for the subcontract.

D. (1) Negotiating in good faith with interested DBEs. It is the bidder's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional Agreements could not be reached for DBEs to perform the work.

   (2) A bidder using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm’s price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a bidder’s failure to meet the contract DBE
goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the
work of a contract with its own organization does not relieve the bidder of the responsibility to make good
faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price
difference is excessive or unreasonable.

E. (1) Not rejecting DBEs as being unqualified without sound reasons based on a thorough
investigation of their capabilities. The contractor's standing within its industry, membership in specific
groups, organizations, or associations and political or social affiliations (for example union vs. non-union
status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to
meet the project goal. Another practice considered an insufficient good faith effort is the rejection of the
DBE because its quotation for the work was not the lowest received. However, nothing in this paragraph
shall be construed to require the bidder or prime contractor to accept unreasonable quotes in order to
satisfy contract goals.

(2) A prime contractor's inability to find a replacement DBE at the original price is not alone sufficient
to support a finding that good faith efforts have been made to replace the original DBE. The fact that the
contractor has the ability and/or desire to perform the contract work with its own forces does not relieve
the contractor of the obligation to make good faith efforts to find a replacement DBE, and it is not a sound
basis for rejecting a prospective replacement DBE's reasonable quote.

F. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as
required by the recipient or contractor.

G. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials,
or related assistance or services.

H. Effectively using the services of available minority/women community organizations;
minority/women contractors' groups; local, State, and Federal minority/women business assistance
offices; and other organizations as allowed on a case-by-case basis to provide assistance in the
recruitment and placement of DBEs.

V. In determining whether a bidder has made good faith efforts, it is essential to scrutinize its
documented efforts. At a minimum, you must review the performance of other bidders in meeting the
contract goal. For example, when the apparent successful bidder fails to meet the contract goal, but
others meet it, you may reasonably raise the question of whether, with additional efforts, the apparent
successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal, but
meets or exceeds the average DBE participation obtained by other bidders, you may view this, in
conjunction with other factors, as evidence of the apparent successful bidder having made good faith
efforts. As provided in §26.53(b)(2)(vi), you must also require the contractor to submit copies of each
DBE and non-DBE subcontractor quote submitted to the bidder when a non-DBE subcontractor was
selected over a DBE for work on the contract to review whether DBE prices were substantially higher; and
contact the DBEs listed on a contractor's solicitation to inquire as to whether they were contacted by the
prime. Pro forma mailings to DBEs requesting bids are not alone sufficient to satisfy good faith efforts
under the rule.

VI. A promise to use DBEs after contract award is not considered to be responsive to the contract
solicitation or to constitute good faith efforts.

[79 FR 59600, Oct. 2, 2014]
Appendix B to Part 26—Uniform Report of DBE Awards or Commitments and Payments Form

INSTRUCTIONS FOR COMPLETING THE UNIFORM REPORT OF DBE AWARDS/COMMITMENTS AND PAYMENTS

Recipients of Department of Transportation (DOT) funds are expected to keep accurate data regarding the contracting opportunities available to firms paid for with DOT dollars. Failure to submit contracting data relative to the DBE program will result in noncompliance with Part 26. All dollar values listed on this form should represent the DOT share attributable to the Operating Administration (OA): Federal Highway Administration (FHWA), Federal Aviation Administration (FAA) or Federal Transit Administration (FTA) to which this report will be submitted.

1. Indicate the DOT (OA) that provides your Federal financial assistance. If assistance comes from more than one OA, use separate reporting forms for each OA. If you are an FTA recipient, indicate your Vendor Number in the space provided.

2. If you are an FAA recipient, indicate the relevant AIP Numbers covered by this report. If you are an FTA recipient, indicate the Grant/Project numbers covered by this report. If more than ten attach a separate sheet.

3. Specify the Federal fiscal year (i.e., October 1-September 30) in which the covered reporting period falls.

4. State the date of submission of this report.

5. Check the appropriate box that indicates the reporting period that the data provided in this report covers. For FHWA and FTA recipients, if this report is due June 1, data should cover October 1-March 31. If this report is due December 1, data should cover April 1-September 30. If the report is due to the FAA, data should cover the entire year.

6. Provide the name and address of the recipient.

7. State your overall DBE goal(s) established for the Federal fiscal year of the report being submitted to and approved by the relevant OA. Your overall goal is to be reported as well as the breakdown for specific Race Conscious and Race Neutral projections (both of which include gender-conscious/neutral projections). The Race Conscious projection should be based on measures that focus on and provide benefits only for DBEs. The use of contract goals is a primary example of a race conscious measure. The Race Neutral projection should include measures that, while benefiting DBEs, are not solely focused on DBE firms. For example, a small business outreach program, technical assistance, and prompt payment clauses can assist a wide variety of businesses in addition to helping DBE firms.

Section A: Awards and Commitments Made During This Period

The amounts in items 8(A)-10(I) should include all types of prime contracts awarded and all types of subcontracts awarded or committed, including: professional or consultant services, construction, purchase of materials or supplies, lease or purchase of equipment and any other types of services. All dollar amounts are to reflect only the Federal share of such contracts and should be rounded to the nearest dollar.

Line 8: Prime contracts awarded this period: The items on this line should correspond to the contracts directly between the recipient and a supply or service contractor, with no intermediaries between the two.

8(A). Provide the total dollar amount for all prime contracts assisted with DOT funds and awarded during this reporting period. This value should include the entire Federal share of the contracts without removing any amounts associated with resulting subcontracts.

8(B). Provide the total number of all prime contracts assisted with DOT funds and awarded during this reporting period.
8(C). From the total dollar amount awarded in item 8(A), provide the dollar amount awarded in prime contracts to certified DBE firms during this reporting period. This amount should not include the amounts subcontracted to other firms.

8(D). From the total number of prime contracts awarded in item 8(B), specify the number of prime contracts awarded to certified DBE firms during this reporting period.

8(E&F). This field is closed for data entry. Except for the very rare case of DBE-set asides permitted under 49 CFR part 26, all prime contracts awarded to DBES are regarded as race-neutral.

8(G). From the total dollar amount awarded in item 8(C), provide the dollar amount awarded to certified DBEs through the use of Race Neutral methods. See the definition of Race Neutral in item 7 and the explanation in item 8 of project types to include.

8(H). From the total number of prime contracts awarded in 8(D), specify the number awarded to DBEs through Race Neutral methods.

8(I). Of all prime contracts awarded this reporting period, calculate the percentage going to DBEs. Divide the dollar amount in item 8(C) by the dollar amount in item 8(A) to derive this percentage. Round percentage to the nearest tenth.

Line 9: Subcontracts awarded/committed this period: Items 9(A)-9(I) are derived in the same way as items 8(A)-8(I), except that these calculations should be based on subcontracts rather than prime contracts. Unlike prime contracts, which may only be awarded, subcontracts may be either awarded or committed.

9(A). If filling out the form for general reporting, provide the total dollar amount of subcontracts assisted with DOT funds awarded or committed during this period. This value should be a subset of the total dollars awarded in prime contracts in 8(A), and therefore should never be greater than the amount awarded in prime contracts. If filling out the form for project reporting, provide the total dollar amount of subcontracts assisted with DOT funds awarded or committed during this period. This value should be a subset of the total dollars awarded or previously in prime contracts in 8(A). The sum of all subcontract amounts in consecutive periods should never exceed the sum of all prime contract amounts awarded in those periods.

9(B). Provide the total number of all subcontracts assisted with DOT funds that were awarded or committed during this reporting period.

9(C). From the total dollar amount of subcontracts awarded/committed this period in item 9(A), provide the total dollar amount awarded in subcontracts to DBEs.

9(D). From the total number of subcontracts awarded or committed in item 9(B), specify the number of subcontracts awarded or committed to DBEs.

9(E). From the total dollar amount of subcontracts awarded or committed to DBEs this period, provide the amount in dollars to DBEs using Race Conscious measures.

9(F). From the total number of subcontracts awarded or committed to DBEs this period, provide the number of subcontracts awarded or committed to DBEs using Race Conscious measures.

9(G). From the total dollar amount of subcontracts awarded/committed to DBEs this period, provide the amount in dollars to DBEs using Race Neutral measures.

9(H). From the total number of subcontracts awarded/committed to DBEs this period, provide the number of subcontracts awarded to DBEs using Race Neutral measures.
9(I). Of all subcontracts awarded this reporting period, calculate the percentage going to DBEs. Divide the dollar amount in item 9(C) by the dollar amount in item 9(A) to derive this percentage. Round percentage to the nearest tenth.

Line 10: Total contracts awarded or committed this period. These fields should be used to show the total dollar value and number of contracts awarded to DBEs and to calculate the overall percentage of dollars awarded to DBEs.

10(A)-10(B). These fields are unavailable for data entry.

10(C-H). Combine the total values listed on the prime contracts line (Line 8) with the corresponding values on the subcontracts line (Line 9).

10(I). Of all contracts awarded this reporting period, calculate the percentage going to DBEs. Divide the total dollars awarded to DBEs in item 10(C) by the dollar amount in item 8(A) to derive this percentage. Round percentage to the nearest tenth.

Section B: Breakdown by Ethnicity & Gender of Contracts Awarded to DBEs This Period

11-17. Further breakdown the contracting activity with DBE involvement. The Total Dollar Amount to DBEs in 17(C) should equal the Total Dollar Amount to DBEs in 10(C). Likewise the total number of contracts to DBEs in 17(F) should equal the Total Number of Contracts to DBEs in 10(D).

Line 16: The “Non-Minority” category is reserved for any firms whose owners are not members of the presumptively disadvantaged groups already listed, but who are either “women” OR eligible for the DBE program on an individual basis. All DBE firms must be certified by the Unified Certification Program to be counted in this report.

Section C: Payments on Ongoing Contracts

Line 18(A-E). Submit information on contracts that are currently in progress. All dollar amounts are to reflect only the Federal share of such contracts, and should be rounded to the nearest dollar.

18(A). Provide the total dollar amount paid to all firms performing work on contracts.

18(B). Provide the total number of contracts where work was performed during the reporting period.

18(C). From the total number of contracts provided in 18(A) provide the total number of contracts that are currently being performed by DBE firms for which payments have been made.

18(D). From the total dollar amount paid to all firms in 18(A), provide the total dollar value paid to DBE firms currently performing work during this period.

18(E). Provide the total number of DBE firms that received payment during this reporting period. For example, while 3 contracts may be active during this period, one DBE firm may be providing supplies or services on all three contracts. This field should only list the number of DBE firms performing work.

18(F). Of all payments made during this period, calculate the percentage going to DBEs. Divide the total dollar value to DBEs in item 18(D) by the total dollars of all payments in 18(B). Round percentage to the nearest tenth.

Section D: Actual Payments on Contracts Completed This Reporting Period

This section should provide information only on contracts that are closed during this period. All dollar amounts are to reflect the entire Federal share of such contracts, and should be rounded to the nearest dollar.

19(A). Provide the total number of contracts completed during this reporting period that used Race Conscious measures. Race Conscious contracts are those with contract goals or another race conscious measure.
19(B). Provide the total dollar value of prime contracts completed this reporting period that had race conscious measures.

19(C). From the total dollar value of prime contracts completed this period in 19(B), provide the total dollar amount of dollars awarded or committed to DBE firms in order to meet the contract goals. This applies only to Race Conscious contracts.

19(D). Provide the actual total DBE participation in dollars on the race conscious contracts completed this reporting period.

19(E). Of all the contracts completed this reporting period using Race Conscious measures, calculate the percentage of DBE participation. Divide the total dollar amount to DBEs in item 19(D) by the total dollar value provided in 19(B) to derive this percentage. Round to the nearest tenth.

20(A)-20(E). Items 21(A)-21(E) are derived in the same manner as items 19(A)-19(E), except these figures should be based on contracts completed using Race Neutral measures.

20(C). This field is closed.

21(A)-21(D). Calculate the totals for each column by adding the race conscious and neutral figures provided in each row above.

21(C). This field is closed.

21(E). Calculate the overall percentage of dollars to DBEs on completed contracts. Divide the Total DBE participation dollar value in 21(D) by the Total Dollar Value of Contracts Completed in 21(B) to derive this percentage. Round to the nearest tenth.

23. Name of the Authorized Representative preparing this form.

24. Signature of the Authorized Representative.

25. Phone number of the Authorized Representative.

Appendix C to Part 26—DBE Business Development Program Guidelines

The purpose of this program element is to further the development of DBEs, including but not limited to assisting them to move into non-traditional areas of work and/or compete in the marketplace outside the DBE program, via the provision of training and assistance from the recipient.

(A) Each firm that participates in a recipient's business development program (BDP) program is subject to a program term determined by the recipient. The term should consist of two stages; a developmental stage and a transitional stage.

(B) In order for a firm to remain eligible for program participation, it must continue to meet all eligibility criteria contained in part 26.
(C) By no later than 6 months of program entry, the participant should develop and submit to the recipient a comprehensive business plan setting forth the participant's business targets, objectives and goals. The participant will not be eligible for program benefits until such business plan is submitted and approved by the recipient. The approved business plan will constitute the participant's short and long term goals and the strategy for developmental growth to the point of economic viability in non-traditional areas of work and/or work outside the DBE program.

(D) The business plan should contain at least the following:

(1) An analysis of market potential, competitive environment and other business analyses estimating the program participant's prospects for profitable operation during the term of program participation and after graduation from the program.

(2) An analysis of the firm's strengths and weaknesses, with particular attention paid to the means of correcting any financial, managerial, technical, or labor conditions which could impede the participant from receiving contracts other than those in traditional areas of DBE participation.

(3) Specific targets, objectives, and goals for the business development of the participant during the next two years, utilizing the results of the analysis conducted pursuant to paragraphs (C) and (D)(1) of this appendix;

(4) Estimates of contract awards from the DBE program and from other sources which are needed to meet the objectives and goals for the years covered by the business plan; and

(5) Such other information as the recipient may require.

(E) Each participant should annually review its currently approved business plan with the recipient and modify the plan as may be appropriate to account for any changes in the firm's structure and redefined needs. The currently approved plan should be considered the applicable plan for all program purposes until the recipient approves in writing a modified plan. The recipient should establish an anniversary date for review of the participant's business plan and contract forecasts.

(F) Each participant should annually forecast in writing its need for contract awards for the next program year and the succeeding program year during the review of its business plan conducted under paragraph (E) of this appendix. Such forecast should be included in the participant's business plan. The forecast should include:

(1) The aggregate dollar value of contracts to be sought under the DBE program, reflecting compliance with the business plan;

(2) The aggregate dollar value of contracts to be sought in areas other than traditional areas of DBE participation;

(3) The types of contract opportunities being sought, based on the firm's primary line of business; and

(4) Such other information as may be requested by the recipient to aid in providing effective business development assistance to the participant.

(G) Program participation is divided into two stages; (1) a developmental stage and (2) a transitional stage. The developmental stage is designed to assist participants to overcome their social and economic disadvantage by providing such assistance as may be necessary and appropriate to enable them to access relevant markets and strengthen their financial and managerial skills. The transitional stage of program participation follows the developmental stage and is designed to assist participants to overcome, insofar as practical, their social and economic disadvantage and to prepare the participant for leaving the program.
(H) The length of service in the program term should not be a pre-set time frame for either the developmental or transitional stages but should be figured on the number of years considered necessary in normal progression of achieving the firm’s established goals and objectives. The setting of such time could be factored on such items as, but not limited to, the number of contracts, aggregate amount of the contract received, years in business, growth potential, etc.

(I) Beginning in the first year of the transitional stage of program participation, each participant should annually submit for inclusion in its business plan a transition management plan outlining specific steps to promote profitable business operations in areas other than traditional areas of DBE participation after graduation from the program. The transition management plan should be submitted to the recipient at the same time other modifications are submitted pursuant to the annual review under paragraph (E) of this section. The plan should set forth the same information as required under paragraph (F) of steps the participant will take to continue its business development after the expiration of its program term.

(J) When a participant is recognized as successfully completing the program by substantially achieving the targets, objectives and goals set forth in its program term, and has demonstrated the ability to compete in the marketplace, its further participation within the program may be determined by the recipient.

(K) In determining whether a concern has substantially achieved the goals and objectives of its business plan, the following factors, among others, should be considered by the recipient:

1. Profitability;
2. Sales, including improved ratio of non-traditional contracts to traditional-type contracts;
3. Net worth, financial ratios, working capital, capitalization, access to credit and capital;
4. Ability to obtain bonding;
5. A positive comparison of the DBE’s business and financial profile with profiles of non-DBE businesses in the same area or similar business category; and
6. Good management capacity and capability.

(L) Upon determination by the recipient that the participant should be graduated from the developmental program, the recipient should notify the participant in writing of its intent to graduate the firm in a letter of notification. The letter of notification should set forth findings, based on the facts, for every material issue relating to the basis of the program graduation with specific reasons for each finding. The letter of notification should also provide the participant 45 days from the date of service of the letter to submit in writing information that would explain why the proposed basis of graduation is not warranted.

(M) Participation of a DBE firm in the program may be discontinued by the recipient prior to expiration of the firm’s program term for good cause due to the failure of the firm to engage in business practices that will promote its competitiveness within a reasonable period of time as evidenced by, among other indicators, a pattern of inadequate performance or unjustified delinquent performance. Also, the recipient can discontinue the participation of a firm that does not actively pursue and bid on contracts, and a firm that, without justification, regularly fails to respond to solicitations in the type of work it is qualified for and in the geographical areas where it has indicated availability under its approved business plan. The recipient should take such action if over a 2-year period a DBE firm exhibits such a pattern.

Appendix D to Part 26—Mentor-Protégé Program Guidelines

(A) The purpose of this program element is to further the development of DBEs, including but not limited to assisting them to move into non-traditional areas of work and/or compete in the marketplace
outside the DBE program, via the provision of training and assistance from other firms. To operate a mentor-protégé program, a recipient must obtain the approval of the concerned operating administration.

(B)(1) Any mentor-protégé relationship shall be based on a written development plan, approved by the recipient, which clearly sets forth the objectives of the parties and their respective roles, the duration of the arrangement and the services and resources to be provided by the mentor to the protégé. The formal mentor-protégé agreement may set a fee schedule to cover the direct and indirect cost for such services rendered by the mentor for specific training and assistance to the protégé through the life of the agreement. Services provided by the mentor may be reimbursable under the FTA, FHWA, and FAA programs.

(2) To be eligible for reimbursement, the mentor's services provided and associated costs must be directly attributable and properly allowable to specific individual contracts. The recipient may establish a line item for the mentor to quote the portion of the fee schedule expected to be provided during the life of the contract. The amount claimed shall be verified by the recipient and paid on an incremental basis representing the time the protégé is working on the contract. The total individual contract figures accumulated over the life of the agreement shall not exceed the amount stipulated in the original mentor/protégé agreement.

(C) DBEs involved in a mentor-protégé agreement must be independent business entities which meet the requirements for certification as defined in subpart D of this part. A protégé firm must be certified before it begins participation in a mentor-protégé arrangement. If the recipient chooses to recognize mentor/protégé agreements, it should establish formal general program guidelines. These guidelines must be submitted to the operating administration for approval prior to the recipient executing an individual contractor/subcontractor mentor-protégé agreement.

Appendix E to Part 26—Individual Determinations of Social and Economic Disadvantage

The following guidance is adapted, with minor modifications, from SBA regulations concerning social and economic disadvantage determinations (see 13 CFR 124.103(c) and 124.104).

SOCIAL DISADVANTAGE

I. Socially disadvantaged individuals are those who have been subjected to racial or ethnic prejudice or cultural bias within American society because of their identities as members of groups and without regard to their individual qualities. Social disadvantage must stem from circumstances beyond their control. Evidence of individual social disadvantage must include the following elements:

(A) At least one objective distinguishing feature that has contributed to social disadvantage, such as race, ethnic origin, gender, disability, long-term residence in an environment isolated from the mainstream of American society, or other similar causes not common to individuals who are not socially disadvantaged;

(B) Personal experiences of substantial and chronic social disadvantage in American society, not in other countries; and

(C) Negative impact on entry into or advancement in the business world because of the disadvantage. Recipients will consider any relevant evidence in assessing this element. In every case, however, recipients will consider education, employment and business history, where applicable, to see if the totality of circumstances shows disadvantage in entering into or advancing in the business world.

(1) Education. Recipients will consider such factors as denial of equal access to institutions of higher education and vocational training, exclusion from social and professional association with students or teachers, denial of educational honors rightfully earned, and social patterns or pressures which discouraged the individual from pursuing a professional or business education.
(2) Employment. Recipients will consider such factors as unequal treatment in hiring, promotions and other aspects of professional advancement, pay and fringe benefits, and other terms and conditions of employment; retaliatory or discriminatory behavior by an employer or labor union; and social patterns or pressures which have channeled the individual into non-professional or non-business fields.

(3) Business history. The recipient will consider such factors as unequal access to credit or capital, acquisition of credit or capital under commercially unfavorable circumstances, unequal treatment in opportunities for government contracts or other work, unequal treatment by potential customers and business associates, and exclusion from business or professional organizations.

II. With respect to paragraph I.(A) of this appendix, the Department notes that people with disabilities have disproportionately low incomes and high rates of unemployment. Many physical and attitudinal barriers remain to their full participation in education, employment, and business opportunities available to the general public. The Americans with Disabilities Act (ADA) was passed in recognition of the discrimination faced by people with disabilities. It is plausible that many individuals with disabilities—especially persons with severe disabilities (e.g., significant mobility, vision, or hearing impairments)—may be socially and economically disadvantaged.

III. Under the laws concerning social and economic disadvantage, people with disabilities are not a group presumed to be disadvantaged. Nevertheless, recipients should look carefully at individual showings of disadvantage by individuals with disabilities, making a case-by-case judgment about whether such an individual meets the criteria of this appendix. As public entities subject to Title II of the ADA, recipients must also ensure their DBE programs are accessible to individuals with disabilities. For example, physical barriers or the lack of application and information materials in accessible formats cannot be permitted to thwart the access of potential applicants to the certification process or other services made available to DBEs and applicants.

ECONOMIC DISADVANTAGE

(A) General. Economically disadvantaged individuals are socially disadvantaged individuals whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities as compared to others in the same or similar line of business who are not socially disadvantaged.

(B) Submission of narrative and financial information. (1) Each individual claiming economic disadvantage must describe the conditions which are the basis for the claim in a narrative statement, and must submit personal financial information.

(2) [Reserved]

(C) Factors to be considered. In considering diminished capital and credit opportunities, recipients will examine factors relating to the personal financial condition of any individual claiming disadvantaged status, including personal income for the past two years (including bonuses and the value of company stock given in lieu of cash), personal net worth, and the fair market value of all assets, whether encumbered or not. Recipients will also consider the financial condition of the applicant compared to the financial profiles of small businesses in the same primary industry classification, or, if not available, in similar lines of business, which are not owned and controlled by socially and economically disadvantaged individuals in evaluating the individual's access to credit and capital. The financial profiles that recipients will compare include total assets, net sales, pre-tax profit, sales/working capital ratio, and net worth.

(D) Transfers within two years. (1) Except as set forth in paragraph (D)(2) of this appendix, recipients will attribute to an individual claiming disadvantaged status any assets which that individual has transferred to an immediate family member, or to a trust, a beneficiary of which is an immediate family member, for less than fair market value, within two years prior to a concern's application for participation in the DBE program, unless the individual claiming disadvantaged status can demonstrate that the transfer is to or on behalf of an immediate family member for that individual's education, medical expenses, or some other form of essential support.
(2) Recipients will not attribute to an individual claiming disadvantaged status any assets transferred by that individual to an immediate family member that are consistent with the customary recognition of special occasions, such as birthdays, graduations, anniversaries, and retirements.

(3) In determining an individual's access to capital and credit, recipients may consider any assets that the individual transferred within such two-year period described by paragraph (D)(1) of this appendix that are not considered in evaluating the individual's assets and net worth (e.g., transfers to charities).

INSTRUCTIONS FOR COMPLETING THE UNIFORM REPORT OF DBE AWARDS/COMMITMENTS AND PAYMENTS

Recipients of Department of Transportation (DOT) funds are expected to keep accurate data regarding the contracting opportunities available to firms paid for with DOT dollars. Failure to submit contracting data relative to the DBE program will result in noncompliance with Part 26. All dollar values listed on this form should represent the DOT share attributable to the Operating Administration (OA): Federal Highway Administration (FHWA), Federal Aviation Administration (FAA) or Federal Transit Administration (FTA) to which this report will be submitted.

1. Indicate the DOT (OA) that provides your Federal financial assistance. If assistance comes from more than one OA, use separate reporting forms for each OA. If you are an FTA recipient, indicate your Vendor Number in the space provided.

2. If you are an FAA recipient, indicate the relevant AIP Numbers covered by this report. If you are an FTA recipient, indicate the Grant/Project numbers covered by this report. If more than ten, attach a separate sheet.

3. Specify the Federal fiscal year (i.e., October 1-September 30) in which the covered reporting period falls.

4. State the date of submission of this report.

5. Check the appropriate box that indicates the reporting period that the data provided in this report covers. For FHWA and FTA recipients, if this report is due June 1, data should cover October 1-March 31. If this report is due December 1, data should cover April 1-September 30. If the report is due to the FAA, data should cover the entire year.

6. Provide the name and address of the recipient.

7. State your overall DBE goal(s) established for the Federal fiscal year of the report being submitted to and approved by the relevant OA. Your overall goal is to be reported as well as the breakdown for specific Race Conscious and Race Neutral projections (both of which include gender-conscious/neutral projections). The Race Conscious projection should be based on measures that focus on and provide benefits only for DBEs. The use of contract goals is a primary example of a race conscious measure. The Race Neutral projection should include measures that, while benefiting DBEs, are not solely focused on DBE firms. For example, a small business outreach program, technical assistance, and prompt payment clauses can assist a wide variety of businesses in addition to helping DBE firms.

Section A: Awards and Commitments Made During This Period

The amounts in items 8(A)-10(I) should include all types of prime contracts awarded and all types of subcontracts awarded or committed, including: professional or consultant services, construction, purchase of materials or supplies, lease or purchase of equipment and any other types of services. All dollar amounts are to reflect only the Federal share of such contracts and should be rounded to the nearest dollar.

Line 8: Prime contracts awarded this period: The items on this line should correspond to the contracts directly between the recipient and a supply or service contractor, with no intermediaries between the two.
- 8(A). Provide the total dollar amount for all prime contracts assisted with DOT funds and awarded during this reporting period. This value should include the entire Federal share of the contracts without removing any amounts associated with resulting subcontracts.

- 8(B). Provide the total number of all prime contracts assisted with DOT funds and awarded during this reporting period.

- 8(C). From the total dollar amount awarded in item 8(A), provide the dollar amount awarded in prime contracts to certified DBE firms during this reporting period. This amount should not include the amounts sub contracted to other firms.

- 8(D). From the total number of prime contracts awarded in item 8(B), specify the number of prime contracts awarded to certified DBE firms during this reporting period.

- 8(E&F). This field is closed for data entry. Except for the very rare case of DBE-set asides permitted under 49 CFR part 26, all prime contracts awarded to DBES are regarded as race-neutral.

- 8(G). From the total dollar amount awarded in item 8(C), provide the dollar amount awarded to certified DBEs through the use of Race Neutral methods. See the definition of Race Neutral in item 7 and the explanation in item 8 of project types to include.

- 8(H). From the total number of prime contracts awarded in 8(D), specify the number awarded to DBEs through Race Neutral methods.

- 8(I). Of all prime contracts awarded this reporting period, calculate the percentage going to DBEs. Divide the dollar amount in item 8(C) by the dollar amount in item 8(A) to derive this percentage. Round percentage to the nearest tenth.

Line 9: Subcontracts awarded/committed this period: Items 9(A)-9(I) are derived in the same way as items 8(A)-8(I), except that these calculations should be based on subcontracts rather than prime contracts. Unlike prime contracts, which may only be awarded, subcontracts may be either awarded or committed.

- 9(A). If filling out the form for general reporting, provide the total dollar amount of subcontracts assisted with DOT funds awarded or committed during this period. This value should be a subset of the total dollars awarded in prime contracts in 8(A), and therefore should never be greater than the amount awarded in prime contracts. If filling out the form for project reporting, provide the total dollar amount of subcontracts assisted with DOT funds awarded or committed during this period. This value should be a subset of the total dollars awarded or previously in prime contracts in 8(A). The sum of all subcontract amounts in consecutive periods should never exceed the sum of all prime contract amounts awarded in those periods.

- 9(B). Provide the total number of all sub contracts assisted with DOT funds that were awarded or committed during this reporting period.

- 9(C). From the total dollar amount of sub contracts awarded/committed this period in item 9(A), provide the total dollar amount awarded in sub contracts to DBEs.
9(D). From the total number of sub contracts awarded or committed in item 9(B), specify the number of sub contracts awarded or committed to DBEs.

9(E). From the total dollar amount of sub contracts awarded or committed to DBEs this period, provide the amount in dollars to DBEs using Race Conscious measures.

9(F). From the total number of sub contracts awarded or committed to DBEs this period, provide the number of sub contracts awarded or committed to DBEs using Race Conscious measures.

9(G). From the total dollar amount of sub contracts awarded/committed to DBEs this period, provide the amount in dollars to DBEs using Race Neutral measures.

9(H). From the total number of sub contracts awarded/committed to DBEs this period, provide the number of sub contracts awarded to DBEs using Race Neutral measures.

9(I). Of all subcontracts awarded this reporting period, calculate the percentage going to DBEs. Divide the dollar amount in item 9(C) by the dollar amount in item 9(A) to derive this percentage. Round percentage to the nearest tenth.

Line 10: Total contracts awarded or committed this period. These fields should be used to show the total dollar value and number of contracts awarded to DBEs and to calculate the overall percentage of dollars awarded to DBEs.

10(A)-10(B). These fields are unavailable for data entry.

10(C-H). Combine the total values listed on the prime contracts line (Line 8) with the corresponding values on the subcontracts line (Line 9).

10(I). Of all contracts awarded this reporting period, calculate the percentage going to DBEs. Divide the total dollars awarded to DBEs in item 10(C) by the dollar amount in item 8(A) to derive this percentage. Round percentage to the nearest tenth.

Section B: Breakdown by Ethnicity & Gender of Contracts Awarded to DBEs This Period

11-17. Further breakdown the contracting activity with DBE involvement. The Total Dollar Amount to DBEs in 17(C) should equal the Total Dollar Amount to DBEs in 10(C). Likewise the total number of contracts to DBEs in 17(F) should equal the Total Number of Contracts to DBEs in 10(D).

Line 16: The “Non-Minority” category is reserved for any firms whose owners are not members of the presumptively disadvantaged groups already listed, but who are either “women” OR eligible for the DBE program on an individual basis. All DBE firms must be certified by the Unified Certification Program to be counted in this report.

Section C: Payments on Ongoing Contracts

Line 18(A-E). Submit information on contracts that are currently in progress. All dollar amounts are to reflect only the Federal share of such contracts, and should be rounded to the nearest dollar.

18(A). Provide the total dollar amount paid to all firms performing work on contracts.

18(B). Provide the total number of contracts where work was performed during the reporting period.
18(C). From the total number of contracts provided in 18(A) provide the total number of contracts that are currently being performed by DBE firms for which payments have been made.

18(D). From the total dollar amount paid to all firms in 18(A), provide the total dollar value paid to DBE firms currently performing work during this period.

18(E). Provide the total number of DBE firms that received payment during this reporting period. For example, while 3 contracts may be active during this period, one DBE firm may be providing supplies or services on all three contracts. This field should only list the number of DBE firms performing work.

18(F). Of all payments made during this period, calculate the percentage going to DBEs. Divide the total dollar value to DBEs in item 18(D) by the total dollars of all payments in 18(B). Round percentage to the nearest tenth.

Section D: Actual Payments on Contracts Completed This Reporting Period

This section should provide information only on contracts that are closed during this period. All dollar amounts are to reflect the entire Federal share of such contracts, and should be rounded to the nearest dollar.

Line 19(A-E).

19(A). Provide the total number of contracts completed during this reporting period that used Race Conscious measures. Race Conscious contracts are those with contract goals or another race conscious measure.

19(B). Provide the total dollar value of prime contracts completed this reporting period that had race conscious measures.

19(C). From the total dollar value of prime contracts completed this period in 19(B), provide the total dollar amount of dollars awarded or committed to DBE firms in order to meet the contract goals. This applies only to Race Conscious contracts.

19(D). Provide the actual total DBE participation in dollars on the race conscious contracts completed this reporting period.

19(E). Of all the contracts completed this reporting period using Race Conscious measures, calculate the percentage of DBE participation. Divide the total dollar amount to DBEs in item 19(D) by the total dollar value provided in 19(B) to derive this percentage. Round to the nearest tenth.

20(A)-20(E). Items 21(A)-21(E) are derived in the same manner as items 19(A)-19(E), except these figures should be based on contracts completed using Race Neutral measures.

20(C). This field is closed.

21(A)-21(D). Calculate the totals for each column by adding the race conscious and neutral figures provided in each row above.

21(C). This field is closed.
21(E). Calculate the overall percentage of dollars to DBEs on completed contracts. Divide the Total DBE participation dollar value in 21(D) by the Total Dollar Value of Contracts Completed in 21(B) to derive this percentage. Round to the nearest tenth.

23. Name of the Authorized Representative preparing this form.

24. Signature of the Authorized Representative.

25. Phone number of the Authorized Representative.

**Submit your completed report to your Regional or Division Office.**
EXHIBIT D – BIDDERS LIST COLLECTION FORM
EXHIBIT E – DBE MONITORING & INFORCEMENT MECHANISMS

The Airport Authority has available several remedies to enforce the DBE requirements contained in its contracts, including, but not limited to, the following:

1. Breach of contract action, pursuant to the terms of the contract;
2. Breach of contract action, pursuant to MCL 600.5807;
3. Liquidated damages, fines, fees and stop-payment measures; and
4. Debarment or suspension proceedings, pursuant to the Airport Authority’s Procurement Ordinance.

In addition, the Federal government has available several enforcement mechanisms that it may apply to firms participating in the DBE program, including, but not limited to, the following:

1. Suspension or debarment proceedings pursuant to 49 CFR Part 26
2. Enforcement action pursuant to 49 CFR Part 31
3. Prosecution pursuant to 18 USC 1001
EXHIBIT F – SMALL BUSINESS ELEMENT PROGRAM

Fostering Small Business Participation Plan

Objectives

The Airport Authority has created policies and procedures to facilitate competition by small business concerns, taking all reasonable steps to eliminate obstacles to their participation in Airport Authority contracting opportunities and to assist the development of firms that can compete successfully in the marketplace outside the DBE Program.

In an effort to meet the maximum feasible portion of the DBE overall goal through race-and gender-neutral means, the Airport Authority will continue and/or implement the following program element to foster small business participation on contracts without a DBE goal:

Unbundling of Projects

The WCAA will strive to unbundle large or mega construction projects where practicable. Specific elements of projects which can be performed by small business concerns will be identified and Prime contractors will be encouraged to include small business concerns in their proposals. Unbundling of contracts will be considered on a case-by-case basis, using factors such as the number of different disciplines or trades involved in a single enterprise. When practical, on large scope contracts containing work involving different disciplines or trades, such contracts will be divided into potentially smaller contracting opportunities.

Criteria for unbundling projects may include the following:

- Physical location of the project
- Work type(s)
- Access to the AOA
- Timelines for completion (less down time for runways & taxiways)
- Making projects more manageable

In addition, the Airport Authority will accomplish its Small Business Element goals through outreach efforts.

Outreach:

- Helping small businesses (not just DBEs) to better understand the Airport Authority’s contracting and procurement opportunities;
- Continuing to identify and utilize small business firms that provide goods and services purchased by the Airport Authority;
- Encouraging small businesses, including those owned by minority and women, to pursue relevant certifications including; M/W, DBE and SCS certification;
- Hosting and participating in workshops, business development meetings and other events intended to enhance procurement opportunities for small businesses;
- Providing notification of pre-bid conferences and upcoming projects;
- Collaborating with other agencies and organizations that promote small business concern participation;
Assurances

- The WCAA’s proposed DBE Program Plan amendment is in accordance with federal and state laws (State of Michigan);
- Any certified DBE that meets the SBA Small Business size standards is presumptively eligible to participate as a Small Business on WCAA federally funded projects when there is no DBE goal or when Race-Neutral participation is warranted;
- There are no geographic preferences or limitations on any WCAA federally assisted procurements;
- There is no limit on the number of contracts or subcontracts that may be awarded to a firm participating in the WCM DBE or Small Business concern programs; however, prime contractors will be encouraged to provide new, emerging, or untried small business concerns, as well as, DBEs opportunities to compete; and
- The WCAA consistently encourages minority and women owned businesses that are not DBE certified to pursue certification by informing them of the certification criteria and referrals to Michigan Unified Certification Program (MUCP) certifying agencies.
EXHIBIT G – OVERALL THREE-YEAR GOAL METHODOLOGY

Name of recipient: Wayne County Airport Authority

Goal period: FY 2017-2019 (October 1, 2016 through September 30, 2019)

DOT-assisted contract AIP Fund amount: 
- FY 2017 $13,373,400
- FY 2018 $31,577,250
- FY 2019 $36,945,000

DBE 3-Year Overall Goal: 9%

Total dollar amount to be expended on DBEs: $7,370,609

Key projects the Airport Authority anticipates awarding:

1. Taxiway Z Reconstruction / Relocation of Southern Portion Including Reconstruction & Relocation Extension of AOA Service Road - Part 2 (Construction - Detroit Metro) at a projected cost of $10,050,000
2. Taxiway H Extension/Reconstruction and 22L Deicing Pad Reconstruction - Part 2 (Construction-Detroit Metro) at a projected cost of $12,750,000
3. Runway 9/27 Safety Improvements (Reconstruction & Modifications) - Phase 3 (Construction-Willow Run) at a projected cost of $9,000,000
4. Develop New Taxiway Parallel to Runway 5R/23L - Phase 2 (Construction-Willow Run) at a projected cost of $8,663,400
5. Develop New Taxiway Parallel to Runway 5R/23L - Phase 3 (Construction-Willow Run) at a projected cost of $7,200,000.

Market area: Michigan Firms that have NAICS codes for work anticipated to be awarded on AIP projects over the next 3 years. A majority of these Firms are located in counties that encompass Southeast Michigan or what is also referred to as Detroit Metro & Willow Run Airport’s Air Trade Area (Genesee, Lapeer, Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne counties).

GOAL METHODOLOGY

I. Introduction

This report details the methodology used for establishing the 3-Year (FY 2017-2019) Overall Disadvantaged Business Enterprise (DBE) Goal for the Wayne County Airport Authority (Airport Authority) which operates Detroit Metropolitan Wayne County Airport in Detroit, Michigan and Willow Run Airport in Ypsilanti, Michigan.

The Airport Authority has completed its DBE goal setting process for all construction and professional services projects anticipated for the next three (3) fiscal years (FY 2017-2019). Pursuant to 49 Code of Federal Regulations (CFR) Part 26, the 3-Year (FY 2017-2019) goal is based on the Airport Authority’s research of the availability of ready, willing and able DBEs in the local market area relative to all businesses (DBE / Non-DBE) in the local market area.
The Airport Authority is required to review its DBE goal achievement annually. The Airport Authority’s annual review determines whether or not the stated 3-year DBE goal is currently being met. If not, an adjustment may be necessary due to unanticipated conditions impacting the DBE goal’s attainment.

II. Methodology and Overall Goal

49 CFR 26.45 requires that the recipient of Department of Transportation (DOT) funds utilize a two-step process in the development of its overall DBE goal:

Step 1: Calculation of a base figure that represents the availability of DBEs ready, willing, and able to work on Airport Authority contracts.

Step 2: Adjustment of the base figure so that the final overall goal represents the amount of participation the Airport Authority might expect in the absence of discrimination or its effects.

Based on this methodology, the Airport Authority’s Overall Goal for the next three (3) fiscal years (FY 2017-2019) is for 9% of its Federal financial assistance to be expended in DOT-assisted contracts. The Airport Authority anticipates awarding these contracts between October 1, 2016 and September 30, 2019.

III. Step 1: Calculation of Base Figure

Determining a base figure for the Airport Authority’s 3-year goal, per 49 CFR 26.45(c) depends upon the relative availability of DBEs within the market area to perform work on Airport Authority Capital Improvement Program (CIP) Projects. A listing of the Airport Authority’s CIP Projects for the next three (3) fiscal years is shown in Table 1 located on page 3.

The Airport Authority’s relevant market area is the entire state of Michigan with a majority of these companies being located in counties that encompass Southeast Michigan or what is also referred to as our Air Trade Area. Their relatively close proximity to Detroit Metro and Willow Run Airports has resulted in most of the Airport Authority’s previous contracts being awarded to prime contractors located in these counties.

The base figure for the relative availability of DBEs in the Airport Authority’s relevant market area was calculated as follows:

1. Ready, willing, and able DBEs (construction and professional services); Divided by
2. All firms ready, willing and able (construction and professional services).

The demonstrable evidence used to determine the numerator, as detailed in Table 2 located on page 4, is the Michigan Unified Certification Program (MUCP) DBE Directory. The demonstrable evidence used to determine the denominator, as detailed in Table 2 located on page 4, is the Michigan Intergovernmental Trade Network (MITN) Active Vendor List. MITN is the Wayne County Airport Authority’s general vendor list. A list outlining the required types of services for the above stated projects and the related NAICS Codes is also included in Table 2 located on page 4.

</tbody>
</table>

The Airport Authority determined the base figure as follows:

The total number of DBE firms in the market area that are “ready, willing, and able” to perform the required work in the applicable NAICS Codes for the Airport Authority’s CIP Projects for FY 2017-2019 is 264.

The total number of all DBE and non-DBE firms in the market area that are “ready, willing and able” to perform the required work, is 4,203 firms. Thus:

\[
\text{DBE firms} \div (\text{DBE + non-DBE firms}) = \text{Base Figure} \\
264 \div 4,203 = 6.00\% \text{ (rounded)}
\]
Therefore, the base figure for the Airport Authority’s anticipated DBE participation is 6%.

IV. Step 2: Adjustment of Base Figure

49 CFR 26.45(d) requires that additional evidence, if available in the Airport Authority’s jurisdiction, be considered to determine if any base figure adjustment is necessary to arrive at the overall goal. However, the regulations do not dictate a specific base figure adjustment methodology, but they suggest consideration of the following factors: current capacity of DBEs measured by the volume of past work; evidence from a disparity study not included in the calculation of the base figure; data on employment, self-employment, education, training, and union apprenticeship; ability of DBEs to get bonding and financing; and any other relevant data.

The Airport Authority evaluated the current capacity of DBEs to perform the required work in relation to the volume of work DBEs performed in recent years. The Airport Authority examined its overall DBE participation during the past five (5) fiscal years (FY 2011-2015). Table 3 below reflects the data used to determine the base figure adjustment.

<table>
<thead>
<tr>
<th>REPORT PERIOD</th>
<th>TOTAL DBE % PARTICIPATION ON AWARDED CONTRACTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>FY 2011</td>
<td>11.15%</td>
</tr>
<tr>
<td>FY 2012</td>
<td>15.01%</td>
</tr>
<tr>
<td>FY 2013</td>
<td>13.26%</td>
</tr>
<tr>
<td>FY 2014</td>
<td>11.75%</td>
</tr>
<tr>
<td>FY 2015</td>
<td>7.5%</td>
</tr>
<tr>
<td>Median</td>
<td>11.75%</td>
</tr>
</tbody>
</table>

As detailed in Table 3, the median of DBE participation achieved for the periods during which there was reported DOT-funded activity is 11.75%.

To adjust the base figure, the 11.75% median percentage of historical DBE participation was averaged with the 6% base figure:

\[
\frac{(\text{Base figure \%} + \text{median DBE \% participation})}{2} = \text{Overall DBE Goal}
\]

\[
\frac{(6\% + 11.75\%)}{2} = 9.0\% \text{ (rounded)}
\]

The Airport Authority believes that DBE capacity currently exists to perform work in our DOT-assisted contracting program at the adjusted percentage level.

V. Contract Goals

The Airport Authority will establish individual contract goals so that they will cumulatively result in meeting the overall 3-year goal that is not projected to be met through the use of race/gender neutral means. The Airport Authority will establish contract goals only on those DOT-assisted contracts that have actual subcontracting opportunities. The Airport Authority will modify the individual contract goal
to the circumstances and conditions of the specific contract and will set a goal percentage that is consistent with the Federal share of a DOT-assisted contract.

VI. Race/Gender “Neutral” and Race/Gender “Conscious” Split

The Airport Authority will adjust the estimated breakout of race/gender neutral and race/gender conscious participation, as needed, to reflect actual DBE participation and will track and report race/gender neutral and race/gender conscious participation separately. For reporting purposes, race/gender neutral DBE participation includes, but is not limited to, the following:

- DBE participation by a DBE who obtained a prime contract through customary competitive procurement procedures;
- DBE participation through a subcontractor on a prime contract that does not carry a DBE goal;
- DBE participation on a prime contract exceeding a contract goal; and
- DBE participation through a subcontract from a prime contractor that did not consider a firm’s DBE status in making the award.

The Airport Authority estimates that in meeting the overall goal of 9%, 0% will be obtained from race/gender neutral means and 9% will be obtained through race/gender conscious means. This breakout is based on the Airport Authority’s recent participation, as noted in Table 3 located on page 5, which is less than the goal by an average of over 4%, which is evidence of a persistent shortfall of race/gender neutral participation.

Despite the 0% race neutral portion of the DBE goal, the Airport Authority remains committed to positively impacting race/gender neutral participation through the following means:

- Co-sponsoring outreach/networking meetings with targeted agencies located within the Airport Authority’s relevant market area,
- Conducting public outreach forums targeted to small businesses,
- Distributing printed literature describing the Airport Authority’s DBE Program,
- Distributing information about upcoming Airport Authority contracting opportunities,
- Continuing usage of an electronic vendor registration program including information regarding direct notification of the Airport Authority’s competitive solicitations,
- Distributing “best practices” information regarding doing business with the Airport Authority,
- Offering small businesses instructions and clarifications on bid specifications, general bidding requirements, and the Airport Authority’s procurement policy and procedures,
- Publicizing, in particular to small businesses, opportunities to review and evaluate bids/proposals submitted by successful bidders/proposers for past procurements, and
- Conducting debriefing sessions with unsuccessful bidders/proposers, when requested, to explain why certain bids/proposals were unsuccessful.

VII. Public Participation and Consultation

The Airport Authority is firmly committed to its DBE program. As part of this continuing effort, Airport Authority staff will seek and obtain input from minority, women, and general contractor groups; community organizations; and other officials who have a vested interest in the performance and success of the DBE program through work on Airport Authority contracts. These stakeholders include:
Victoria Inniss Edwards, Wayne County Human Relations Department Manager  
Dan Argentati, Director of the Michigan Fair Contracting Center  
Frank Adams, Michigan Department of Transportation Metro Field Services Manager  
Tonya Doyle-Bicy, Michigan Department of Transportation Metro Field Services Mgr.  
Sheila Udeozor, MSA, Detroit Department of Transportation, DER/DBE Manager

The Airport Authority will publish notices of its proposed DBE goal in both general and specialty circulation media in the relevant market area. These notices will provide for a 45-day advertisement period of the DBE goal and a 30-day period to review and to provide comment. If comments are received then a supplemental report will be provided to the FAA.

The Airport Authority remains interested in feedback from the minority, women, and general contractor business community. Feedback plays a significant role in the Airport Authority’s adjustments to the procurement process as well as contract goal setting practices. Further, networking with other agencies provides additional insight into common DBE program challenges. The Airport Authority will continue to consult with and provide support to a variety of DBE resource agencies as it pursues its 3-year (FY 2017-2019) DBE goal.
